Study & Master Life Sciences Grade 10 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Life Sciences. The comprehensive Learner's Book includes: * an expanded contents page indicating the CAPS coverage required for each strand * a mind map at the beginning of each module that gives an overview of the contents of that module * activities throughout that help develop learners' science knowledge and skills as well as Formal Assessment tasks to test their learning * a review at the end of each unit that provides for consolidation of learning * case studies that link science to real-life situations and present balanced views on sensitive issues. * 'information' boxes providing interesting additional information and 'Note' boxes that bring important information to the learner's attention In this text "students

will see God's power and glory in creation as they learn about cellular biology, genetics, taxonomy, microbiology, botany, zoology, and human anatomy. When studying topics such as Creation and evolution, human cloning, abortion, and stem cell research, students are pointed to Scripture as the ultimate authority and are encouraged to develop a biblical perspective about these topics" -- Study & Master Life Sciences was developed by practising teachers, and covers requirements per RNCS Study & Master Life Sciences Grade 10 2nd Edition has been developed with the help of practising teachers and covers all the requirements of the National Curriculum Statement for Life Sciences. Special features of the Learner's Book include: * module openers, which clearly explain to the learner the outcomes for that module * boxes listing key concepts which assist learners whose home language may not be English, to deal with new terms * investigations in which learners solve problems, design

solutions, set up tests and controls, and record their results * assessment activities, ensuring continuous self, peer and group assessment * case studies and projects, which deal with issues related to the real world and move learners beyond the confines of the classroom * activities which are structured in a logical way, progressing to new and complex learning. The Teacher's Guide for English for Life Grade 10 has been compiled according to the requirements of the National Curriculum and Assessment Policy Statement. The Teacher's Guide supports the teacher's task by providing Teaching, Learning and Assessment Plans for the year guidance for lesson planning and classroom practice a formal assessment programme daily assessment with the activities answer keys for each module guidance in the form of information boxes a user-friendly lay-out. By working through this Study Guide you will definitely improve your results - whether you are

working towards being the top performer in your class or whether you regularly break out in a sweat when you have to present your test scores or school report at home!

Experienced educators and examiners have put together this marvellous resource that provides you with:

Explanations, activities and exercises and their answers for each knowledge area Tips on how to study science and to prepare for all kinds of formal assessment Additional information on science skills, rules and conventions

Exemplar examination papers for you to work through and their answers A glossary of science terms used in Grade 10 Life Sciences This Study & Master Study Guide is written to guide you through the content of the NCS for Life Sciences. Study & Master Life Sciences was developed by practising teachers, and covers all the requirements of the National Curriculum Statement for Life Sciences. Learner's Book: module openers, explaining the outcomes icons,

indicating group, paired or individual activities key vocabulary boxes, which assist learners in dealing with new terms activities to solve problems, design solutions, set up tests/controls and record results assessment activities case studies, and projects, which deal with issues related to the real world, and move learners beyond the confines of the classroom

Teacher's Guide: An overview of the RNCS an introduction to outcomes-based education a detailed look at the Learning Outcomes and Assessment Standards for Life Sciences, and how much time to allocate to each during the year information on managing assessment solutions to all the activities in the Learner's Book photocopiable assessment sheets

By working through this Study Guide you will definitely improve your results - whether you are working towards being the top performer in your class or whether you regularly break out in a sweat when you have to present your test scores or school report at home!

Experienced educators and

examiners have put together this marvellous resource that provides you with:

- Explanations, activities and exercises and their answers for each knowledge area
- Tips on how to study science and to prepare for all kinds of formal assessment
- Additional information on science skills, rules and conventions
- Exemplar examination papers for you to work through and their answers
- A glossary of science terms used in Grade 10 Life Sciences

This Study & Master Study Guide is written to guide you through the content of the NCS for Life Sciences. Biology is where many of science's most exciting and relevant advances are taking place. Yet, many students leave school without having learned basic biology principles, and few are excited enough to continue in the sciences. Why is biology education failing? How can reform be accomplished? This book presents information and expert views from curriculum developers, teachers, and others, offering suggestions

about major issues in biology education: what should we teach in biology and how should it be taught? How can we measure results? How should teachers be educated and certified? What obstacles are blocking reform? Study & Master Physical Sciences Grade 10 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Physical Sciences. The comprehensive Learner's Book:

- explains key concepts and scientific terms in accessible language and provides learners with a glossary of scientific terminology to aid understanding.
- provides for frequent consolidation in the Summative assessments at the end of each module
- includes case studies that link science to real-life situations and present balanced views on sensitive issues
- includes 'Did you know?' features providing interesting additional

information

- highlights examples, laws and formulae in boxes for easy reference.

Study & Master Life Sciences was developed by practising teachers, and covers all the requirements of the National Curriculum Statement for Life Sciences. Learner's Book:

- module openers, explaining the outcomes
- Ž icons, indicating group, paired or individual activities
- Ž key vocabulary boxes, which assist learners in dealing with new terms
- Ž activities to solve problems, design solutions, set up tests/controls and record results
- Ž assessment activities
- Ž case studies, and projects, which deal with issues related to the real world, and move learners beyond the confines of the classroom

Teacher's Guide:

- Ž An overview of the RNCS
- Ž an introduction to outcomes-based education
- Ž a detailed look at the Learning Outcomes and Assessment Standards for Life Sciences, and how much time to allocate to each during the year
- Ž information on managing assessment
- Ž solutions to all the activities in

the Learner's Book Ž
