Death and Immortality in Ancient Philosophy Nov 18 2021 Provides an accessible account of the variety and subtlety of Greek and Roman philosophy of death, from Homer to Marcus Aurelius.

Routledge Companion to Ancient Philosophy Apr 23 2022 The Routledge Companion to Ancient Philosophy is a collection of new essays on the philosophy and philosophers of the ancient Greek and Roman worlds. Written by a cast of international scholars, it covers the full range of ancient philosophy from the sixth century BC to the sixth century AD and beyond. There are dedicated discussions of the major areas of the philosophy of Plato and Aristotle together with accounts of their predecessors and successors. The contributors also address various problems of interpretation and method, highlighting the particular demands and interest of working with ancient philosophical texts. All original texts discussed are translated into English.

A History of Ancient Philosophy I Nov 30 2022 Beginning with the origins of Western philosophy, the profound creation of the Hellenic genius, Reale presents an appreciation of the Naturalists, the Sophists, Socrates, and the Minor Socratics. Special attention is paid to the Eleatics because their problems decisively mark Platonic and Aristotelian philosophy. Interpretation of the Sophists benefits from the recent reevaluation of their thought. Socrates himself would be inconceivable without the Sophists since he is one of them. Socrates is given major prominence. Plato, Aristotle, and all of Hellenistic philosophy are deeply impregnated with his words and spirit. The teachings of the Minor Socratics are interpreted as one-sided reductions of the pluralistic values of Socratic thought and as

anticipations of some issues that explode later in the Hellenistic Age. There are two appendices. The first concerns Orphism and contains a series of documents indispensable for the comprehension of some aspects of pre-Socratic and Platonic thought. The second explains the key to understanding the message of the Greeks—the message of “theorein”.

Ancient Philosophy of Religion Jun 13 2021 The origins of the Western philosophical tradition lie in the ancient Greco-Roman world. This volume provides a unique insight into the life and writings of a diverse group of philosophers in antiquity and presents the latest thinking on their views on God, the gods, religious belief and practice. Beginning with the 'pre-Socratics', the volume then explores the influential contributions made to the Western philosophy of religion by the three towering figures of Socrates, Plato and Aristotle. The chapters that follow cover the the leading philosophers of the major schools of the ancient world - Epicureanism, Stoicism, Neoplatonism and the early Christian Church. "Ancient Philosophy of Religion" will be of interest to scholars and students of Philosophy, Classics and Religion, while remaining accessible to any interested in the rich cultural heritage of ancient religious thought.

Authors and Authorities in Ancient Philosophy Nov 06 2020 Offers a collection of essays exploring notions of authority and authorship through ancient Greek and Roman philosophy.

Philosophic Classics Jul 27 2022 First published in 1961, Forrest E. Baird's revision of *Philosophic Classics* continues the tradition of providing generations of students with high quality course material. Using the complete works, or where appropriate, complete sections of works, this anthology allows philosophers to speak directly to students. Esteemed for providing the best available translations, *Philosophic Classics: Ancient Philosophy*, features complete works or complete sections of the most important works by the major thinkers, as well as shorter samples from transitional thinkers.

Ancient Philosophy: A Very Short Introduction Apr 04 2023 The tradition of ancient philosophy is a long, rich and varied one, in which a constant note is that of discussion and argument. This book introduces readers to some ancient debates to engage with the ancient developments of some themes. Getting away from the presentation of ancient philosophy as a succession of Great Thinkers, the book gives readers a sense of the freshness and liveliness of ancient philosophy, and of its wide variety of themes and styles. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Ancient Philosophy May 01 2020 Presents an introduction to philosophy in the ancient world, discussing the writings of the Pre-Socratics, Socrates, Plato, and Aristotle, as well as the teachings of Stoicism, Epicureanism, and the early Jewish and Christian authors.

Ancient Philosophy of the Self Jun 25 2022 Pauliina Remes and Juha Sihvola In the course of history, philosophers have given an impressive variety of answers to the question, “What is self?” Some of them have even argued that there is no such thing at all. This volume explores the various ways in

which selfhood was approached and conceptualised in antiquity. How did the ancients understand what it is that I am, fundamentally, as an acting and affected subject, interpreting the world around me, being distinct from others like and unlike me? The authors highlight the attempts in ancient philosophical sources to grasp the evasive character of the specifically human presence in the world. They also describe how the ancient philosophers understood human agents as capable of causing changes and being affected in and by the world. Attention will be paid to the various ways in which the ancients conceived of human beings as subjects of reasoning and action, as well as responsible individuals in the moral sphere and in their relations to other people. The themes of persistence, identity, self-examination and self-improvement recur in many of these essays. The articles of the collection combine systematic and historical approaches to ancient sources that range from Socrates to Plotinus and Augustine.

Body and Soul in Ancient Philosophy May 13 2021 The problem of body and soul has a long history that can be traced back to the beginnings of Greek culture. The existential question of what happened to the soul at the moment of death, whether and in what form there is life after death, and of the exact relationship between body and soul was answered in different ways in Greek philosophy, from the early days to Late Antiquity. The contributions in this volume not only do justice to the breadth of the topic, they also cover the entire period from the Pre-Socratics to Late Antiquity. Particular attention is paid to Plato, Aristotle and Hellenistic philosophers, that is the Stoics and the Epicureans.

Pleasure, Mind, and Soul: Selected Papers in Ancient Philosophy Apr 11 2021 C. C. W. Taylor presents a selection of his essays in ancient philosophy, drawn from forty years of writings on the subject. The central theme of the volume is the moral psychology of Plato and Aristotle, with a special focus on pleasure and related concepts, an area central to Greek ethical thought. Taylor also discusses Socrates and the Greek atomists (including the Epicureans), showing how Plato's ethics grows out of the thought of Socrates, and that pleasure is also a central concept for the atomists. Pleasure, Mind, and Soul provides a fascinating survey of a range of important topics in the work of some of the greatest ancient philosophers, and which remain the subject of lively philosophical debate today.

Feminism and Ancient Philosophy Jun 01 2020 This book studies the representation of women in the philosophy of Plato and Aristotle and considers the effect on feminism.

The Greek Philosophers Feb 28 2020 W.K.C. Guthrie has written a survey of the great age of Greek philosophy - from Thales to Aristotle - which combines comprehensiveness with brevity. Without pre-supposing a knowledge of Greek or the Classics, he sets out to explain the ideas of Plato and Aristotle in the light of their predecessors rather than their successors, and to describe the characteristic features of the Greek way of thinking and outlook on the world. Thus The Greek Philosophers provides excellent background material for the general reader - as well as providing a firm basis for specialist studies.

Readings in Ancient Greek Philosophy Jan 21 2022 Soon after its publication, Readings in Ancient Greek Philosophy was hailed as the favorite to become "the 'standard' text for survey courses in ancient philosophy."*

More than twenty years later that prediction has been borne out: Readings in Ancient Greek Philosophy still stands as the leading anthology of its kind. It is now stronger than ever: The Fifth Edition of Readings in Ancient Greek Philosophy features a completely revised Aristotle unit, with new translations, as well as a newly revised glossary. The Plato unit offers new translations of the Meno and Republic. In the latter, indirect dialogue is cast into direct dialogue for greater readability. The Presocratics unit has been re-edited and streamlined, and the pages of every unit have been completely reset. * APA Newsletter for Teaching Philosophy

Mental Disorders in Ancient Philosophy Aug 04 2020 This book offers a comprehensive study of the views of ancient philosophers on mental disorders. Relying on the original Greek and Latin textual sources, the author describes and analyses how the ancient philosophers explained mental illness and its symptoms, including hallucinations, delusions, strange fears and inappropriate moods and how they accounted for the respective roles of body and mind in such disorders. Also considered are ethical questions relating to mental illness, approaches to treatment and the position of mentally ill people in societies of the times. The volume opens with a historical overview that examines ancient medical accounts of mental illness, from Hippocrates' famous Sacred Disease to late antiquity medical authors. Separate chapters interpret in detail the writings of Plato, Aristotle, Galen and the Stoics and a final chapter summarises the views of various strains of Scepticism, the Epicurean school and the Middle and Neo-Platonists. Offering an important and useful contribution to the study of ancient philosophy, psychology and medicine. This volume sheds new light on the history of mental illness and presents a new angle on ancient philosophical psychology.

A History of Ancient Philosophy Jan 01 2023 Translated by Henrik Rosenmeier, A History of Ancient Philosophy charts the origins and development of ancient philosophical thought. For easy reference, the book is divided chronologically into six main parts. The sections are further divided into philosophers and philosophical movements: *Pre-Socratic Philosophy, including mythology, the Pythagoreans and Parmenides *The Great Century of Athens, including the Sophists and Socrates *Plato, including The Republic, The Symposium and The Timaeus *Aristotle, including The Physics, The Metaphysics and The Poetics *Hellenistic Philosophy, including the Sceptics, the Stoics, the Epicureans and Cicero *Late Antiquity, including Neoplatonism, Origen and St Augustine. This comprehensive and meticulously documented book is structured to make ancient philosophical thought and ancient thinkers accessible. It contains: *full references to primary sources *detailed interpretations of key philosophical passages, including surveys of previous philosophical readings *an overview of the development of ancient philosophical thought *discussions of the relationships between philosophers and their ideas *analyses of key philosophical concepts and ideologies including ontology, epistemology, logic, semantics, moral and political philosophy, theology and aesthetics *explanations of Greek philosophical terminology.

Ancient Philosophy Aug 28 2022 'We are all Greeks. Our laws, our literature, our religion, our arts, have their root in Greece', the poet Percy Bysshe Shelley once wrote. It is in Greek that the questions which

shaped the destiny of Western culture were asked, and so were the first attempts at an answer, and the search for a method of investigation. This book tries to rediscover the propulsive force that for over two millennia spread, and still lives in our system of thought. By systematically quoting the very words of the leading actors and by tracing their sources, it leads the reader along a path where they will be able to observe the establishment of philosophical ideas and language, in an updated and balanced picture of archaic lore, of the thought of the classical and hellenistic ages, and of the philosophy of late antiquity. The book looks closely at the progress of scientific thought and at its increasing autonomy, while following the evolution of the fruitful yet problematic relationship between the Greek world and the Near East.

Oxford Studies in Ancient Philosophy, Volume 59 _____ Mar 30 2020 Oxford Studies in Ancient Philosophy is a volume of original articles on all aspects of ancient philosophy. The articles may be of substantial length, and include critical notices of major books. OSAP is now published twice yearly, in both hardback and paperback. "Have you seen the latest OSAP?" is what scholars of ancient philosophy say to each other when they meet in corridors or on coffee breaks. Whether you work on Plato or Aristotle, on Presocratics or sophists, on Stoics, Epicureans, or Sceptics, on Roman philosophers or Greek Neoplatonists, you are liable to find OSAP articles now dominant in the bibliography of much serious published work in your particular subject: not safe to miss." - Malcolm Schofield, Cambridge University "OSAP was founded to provide a place for long pieces on major issues in ancient philosophy. In the years since, it has fulfilled this role with great success, over and over again publishing groundbreaking papers on what seemed to be familiar topics and others surveying new ground to break. It represents brilliantly the vigour—and the increasingly broad scope—of scholarship in ancient philosophy, and shows us all how the subject should flourish." - M.M. McCabe, King's College London

Ancient Greek Philosophy Aug 16 2021 Ancient Greek Philosophy: From the Presocratics to the Hellenistic Philosophers presents a comprehensive introduction to the philosophers and philosophical traditions that developed in ancient Greece from 585 BC to 529 AD. Provides coverage of the Presocratics through the Hellenistic philosophers Moves beyond traditional textbooks that conclude with Aristotle A uniquely balanced organization of exposition, choice excerpts and commentary, informed by classroom feedback Contextual commentary traces the development of lines of thought through the period, ideal for students new to the discipline Can be used in conjunction with the online resources found at <http://tomblackson.com/Ancient/toc.html>

Essays in Ancient Philosophy Oct 30 2022 This text contains seventeen papers written by the author over the course of the last twelve years on the topic of philosophy.

Ancient Philosophy May 25 2022 Traces the important connections between the periods and individuals of more than 1200 years of philosophy's history without losing sight of the novelties and dynamics unique to each.

Basic Concepts of Ancient Philosophy Dec 20 2021 Basic Concepts of Ancient Philosophy presents a lecture course given by Martin Heidegger in 1926 at the University of Marburg. First published in German as volume 22 of the collected works, the book provides Heidegger's most systematic history of

Ancient philosophy beginning with Thales and ending with Aristotle. In this lecture, which coincides with the completion of his most important work, *Being and Time*, Heidegger is working out a way to sharply differentiate between beings and Being. Richard Rojcewicz's clear and accurate translation offers English-speaking readers valuable insight into Heidegger's views on Ancient thought and concepts such as principle, cause, nature, unity, multiplicity, Logos, truth, science, soul, category, and motion.

Ancient Philosophy, Mystery, and Magic Sep 16 2021 The second half of the book re-examines problems regarding the connections between ancient magic, science, and religion. More specifically, it traces for the first time a line of transmission from Empedocles and the early Pythagoreans down to southern Egypt, and from there into the world of Islam.

A Sketch of Ancient Philosophy from Thales to Cicero Jan 27 2020

The History of Ancient Philosophy Jul 15 2021

What is Ancient Philosophy? May 05 2023 Hadot shows how the schools, trends, and ideas of ancient Greek and Roman philosophy strove to transform the individual's mode of perceiving and being in the world. For the ancients, philosophical theory and the philosophical way of life were inseparably linked. Hadot asks us to consider whether and how this connection might be reestablished today.

The History of Ancient Philosophy Feb 19 2022

Becoming God Oct 06 2020 A lucid presentation of the first and most influential attempts to weave together philosophical thought on God, reason and happiness.

Philosophic Classics: Ancient philosophy Mar 11 2021 For courses in Ancient Philosophy. Designed to be accessible to today's students, this anthology of readings in Ancient Western philosophy focuses on the writings of the most important Greek philosophers, along with selections from some of their Roman followers. Striking a balance between major and minor figures, it features the best available translations of texts--complete works or complete selections of works--which are both central to each philosopher's thought and are widely accepted as part of the "canon." The selections are readable and accessible, while still being faithful to the original. Introductions to each philosopher; an abundance of drawings, diagrams, photographs; and a timeline keep students focused throughout.

Productive Knowledge in Ancient Philosophy Dec 08 2020 Shows how ancient philosophers understood productive knowledge and used it to explain ethics, rhetoric, the arts, politics and cosmology.

The Philosophers of the Ancient World Dec 28 2019 This fascinating book contains information on over 2,300 ancient Western philosophers, from Abammon to Zoticus. Covering the period from the seventh century BC to the seventh century AD, it brings together the extremely well-known and the thoroughly obscure. Those already familiar with ancient philosophy will find it an invaluable and handy work of reference with a breadth of coverage that far exceeds any other single-volume work on the subject. Those new to the subject will find it a useful introduction. The ideas of the major thinkers are summarised and an historical overview of ancient philosophy allows them to be placed in their proper context. The book also provides useful background reading for anyone interested in the ancient world who wants to find out more about its intellectual life. A minimum of philosophical jargon

ensures its accessibility to a wide audience. As in ancient histories of philosophy, there is also a modest amount of gossip.

Rereading Ancient Philosophy Jan 09 2021 Revisits central texts and themes in ancient philosophy in order to throw fresh light on some familiar passages and debates.

Ancient Philosophy Feb 02 2023 A comprehensive yet accessible survey of ancient philosophy, covering Greek, Roman, and early Judeo-Christian philosophy, ideal for introductory courses in the ancient roots of modern worldviews Part of the popular Fundamentals of Philosophy series, Ancient Philosophy is an ideal resource for beginning students as well as for advanced students wishing to hone their understanding of the philosophies of the ancient world. Clear and engaging, this book covers a representative selection of major ancient thinkers, movements, and schools of thought, including the Sophists and other significant Presocratics, Socrates, Plato, Aristotle, Hellenistic philosophy, the Stoics, the Skeptics, and early Judeo-Christian philosophy up to Augustine. Written by a prominent scholar and author in ancient philosophy studies, this book: Provides an overview of important issues in the study of the philosophies of the ancient world Explores the relevance of the theories of ancient thinkers to the modern world Charts the progression in the ancient world from worldviews based in mythology to systems of thought based on the analysis of evidence Presents up-to-date scholarship as well as historical material from ancient sources Assumes no prior knowledge of philosophy and examines all arguments carefully and sequentially

A Companion to Ancient Philosophy Sep 28 2022 A Companion to Ancient Philosophy provides a comprehensive and current overview of the history of ancient Greek and Roman philosophy from its origins until late antiquity. Comprises an extensive collection of original essays, featuring contributions from both rising stars and senior scholars of ancient philosophy Integrates analytic and continental traditions Explores the development of various disciplines, such as mathematics, logic, grammar, physics, and medicine, in relation to ancient philosophy Includes an illuminating introduction, bibliography, chronology, maps and an index

Ancient Greek Philosophers Sep 04 2020 "Philosophy begins in wonder." --Plato Have you ever wondered about the development of civilization? What topics were discussed in the days of Ancient Greece? This collection of thoughts from Plato, Aristotle, and other masters of philosophy will lead your mind on a journey of enlightened exploration into ethics, morality, law, medicine, and more. With an introduction by a distinguished scholar of classic literature, this Canterbury Classics volume is sure to be a favorite keepsake edition.

Voices of Ancient Philosophy Mar 03 2023 Edited by one of the most renowned scholars in the field, *Voices of Ancient Philosophy: An Introductory Reader* is a unique and accessible introduction to the richness of ancient philosophy. Featuring a topical--as opposed to chronological--organization, this text introduces students to the wide range of approaches and traditions in ancient philosophy. In each section Annas presents the ancient debates on a particular philosophical topic, drawing on a greater diversity of ancient sources than a chronological approach allows. The book is divided into six sections: Fate and Freedom; Reason and Emotion; Knowledge, Belief, and

Skepticism; Metaphysical Questions; How Should You Live?; and Society and the State. Annas includes a generous selection of the works of Plato and Aristotle, as well as those of the Stoics, Epicureans, and Sceptics. She also includes selections from less familiar philosophers and from authors in whose works philosophical issues arise, such as poets, medical writers, historians, and Jewish and Christian writers. The volume features biographical sketches of the philosophers, a timeline, and short discussions of the major movements in ancient philosophy. An excellent text for courses in ancient philosophy and history of philosophy, *Voices of Ancient Philosophy: An Introductory Reader* will also be of interest to scholars and general readers.
