Famed for her work among the sick and wounded of the Crimean War, Mary Seacole possessed a unique perspective: that of a Victorian-era black woman at a battlefield's front line. Born in Kingston, Jamaica, in 1805, she began her career as a healer by helping her mother nurse British officers at nearby military camps. In the 1850s, her compassion aroused by agonizing reports from Crimea, she headed for England to offer her services. Seacole was denied entry to Florence Nightingale's "angel band" of military nurses, possibly on account of her race. Undaunted, she traveled independently to Crimea to set up accommodations near Balaclava that provided treatment and domestic comforts to convalescing soldiers. Seacole's years of service left her bankrupt and impoverished, but her memoirs, published to popular and critical acclaim in 1857, express no regrets. Humorous and tragic by turns, this autobiography recaptures the voice of a fearless adventurer and humanitarian. "The story of two Indian women, one a victim of a brutal crime and the other an Americanized journalist returning to India to cover the story, and the courage they inspire in each other"-- Joel dares his best friend, Tony, to a swimming race in a dangerous river. Both boys jump in, but when Joel reaches the sandbar, he finds Tony has vanished. How can he face their parents and the terrible truth? The Italian (1797) is a gripping tale of love and betrayal, abduction and assassination, and incarceration by the Inquisition. Radcliffe's last and most unnerving novel exemplifies her definition of 'terror' writing, combining Romantic and Gothic elements and influencing countless later writers. "In this book Alexander Welsh considers the history and meaning of honor and dismisses the idea that we live in a post-honor culture. He notes that we have words other than honor, such as respect, self-respect, and personal identity, that show we do indeed care deeply continuing process of respect that continuing process of respect that motivates or constrains members of a peer group. Honor's dictates function as moral imperatives." "Surprisingly, little systematic study of the history of honor in Western culture has been attempted. Offering a welcome remedy, Welsh provides a genealogy of approaches to the subject, mining some of the most influential texts of the Western tradition."--Jacket. Honor is a primarily feminine given name derived from the word "honour", taken from a Latin root word honos, honoris. It was a virtue name in use by the Puritans.[1] It is still in occasional use in England, but is an extremely rare name in the United States, where it has never ranked among the top 1,000 names for girls or boys. "[Appiah's] work reveals the heart and sensitivity of a novelist. . . Fascinating, erudite and beautifully written."—The New York Times Book Review In this groundbreaking work, Kwame Anthony Appiah, hailed as "one of the most relevant philosophers today" (New York Times Book Review), changes the way we understand human behavior and the way social reform is brought about. In brilliantly arguing that new democratic movements over the last century have not been driven by legislation from above, Appiah explores the end of the duel in aristocratic England, the tumultuous struggles over footbinding in nineteenth-century China, the uprising of ordinary people against Atlantic slavery, and the horrors of "honor killing" in contemporary Pakistan. Intertwining philosophy and

historical narrative, he has created "a fascinating study of moral evolution" (Philadelphia Inquirer) that demonstrates the critical role honor plays in the struggle against man's inhumanity to man. When Rahmat Sulemani reported his girlfriend Banaz missing, it quickly became clear to DCI Caroline Goode that something was very wrong. In fact, Banaz had contacted her local police station multiple times before, even listing the names of the men she expected to murder her in a so-called 'honour' killing. Her parents didn't seem worried, but Banaz had already accused them of being part of the plot. DCI Goode's team took on the investigation before they even had proof that a murder had taken place. What emerged was a shocking story of betrayal and a community-wide web of lies, which would take the team from suburban south London to the mountain ranges of Kurdistan, making covert recordings and piecing together cell phone data to finally bring the killers to justice. Spring 1994, Washington, D.C. - While the Clinton Administration grapples with its domestic policies, a sinister plot is being masterminded six thousand miles away in Baghdad. By using \$100 million as bait and spinning a deadly web of corruption, forgery, and terror, Saddam Hussein seeks to embarrass the U.S. with the ultimate revenge: to steal a treasured historical document and then destroy it before the world's media on July 4, 1994. As the countdown to Independence Day begins, two agents stand in the way of his nearly flawless plan: Scott Bradley, a rising star in the CIA who is desperate to prove his patriotism, and Hannah Kopec, the stunning Mossad operative who has already lost so much that she fears nothing and trusts no one. Their unrelenting quest to prevent what would undoubtedly be the most humiliating day in U.S. history takes them across four continents and climaxes in a dramatic, triple-twist ending. Ingeniously plotted and as up-to-the-minute as today's headlines, *Honor Among Thieves* resonates with the brilliant pace that is the trademark of master storyteller Jeffrey Archer. Portrays the conflict of loyalties to church and state as they influenced the lives of two powerful men in English history. *Honour, Violence and Emotions in History* is the first book to draw on emerging cross-disciplinary scholarship on the study of emotions to analyse the history of honour and violence across a broad range of cultures and regions. Written by leading cultural and social historians from around the world, the book considers how emotions - particularly shame, anger, disgust, jealousy, despair and fear - have been provoked and expressed through culturally-embedded and historically specific understandings of honour. The collection explores a range of contexts, from 17th-century China to 18th-century South Africa and 20th-century Europe, offering a broad and wide-ranging analysis of the interrelationships between honour, violence and emotions in history. This ground-breaking book will be of interest to all researchers studying the relationship between violence and the emotions. Science fiction roman.
