Selected Papers in Greek and Near Eastern History Oct 22 2022 This 1997 volume contains essays on Greek and oriental history by the distinguished ancient historian David M. Lewis.

The Dublin Notebook Apr 23 2020 Hopkins's 'Dublin Notebook' provides intimate and rare access to the Jesuit poet's private, poetic, religious, and academic thoughts and words during his final years in Dublin. In February 1884, Hopkins moved to Dublin from England to become a Professor of Classics at University College (entrusted to the Jesuits in 1883) and a Fellow at the recently-established Royal University of Ireland, an examining institution. He lived at UC's St. Stephen's Green campus until 8 June 1889, when he died of typhoid. The 'Dublin Notebook' is a unique repository of personal memoranda, drafts of poems, lecture outlines, spiritual meditation notes, and academic notes, and sheds new light

on the circumstances that produced Hopkins's 'Sonnets of Desolation' in the mid-1880s. The contents include pages in which he tallied examination marks and commented on students' performances; intermittent musical jottings; lists of correspondents to whom he owed letters; attendance records; drafts of a short biography for publication; a commentary on Cicero; and preliminary versions of 'Sibyl's Leaves', one of his most exceptional poems. This edition, Volume VII in the *Collected Works of Gerard Manley Hopkins*, provides readers with a digitized facsimile of the manuscript, a detailed transcription of each page, and scholarly resources such as a historical and cultural introduction to Hopkins's Dublin years; an analysis of the notebook's contents; the editors' explanation of the manuscript and its challenges; translations of and citations for all classical quotations; and thorough annotations (including transcriptions of his musical compositions). Other resources include a *Biographical Register*; documents related to Hopkins's academic appointments; sample examinations that he set for the Royal University; and edited versions of his study of Cicero's 'On Duty' and his biographical notice of Richard Watson Dixon, the Pre-Raphaelite poet. The 'Dublin Notebook' sheds

new light on Hopkins's life and inner torments, his wide-ranging artistic talents (and musical aspirations), his involvement in Ireland's vexed 'troubles' in the late nineteenth century, his harrowing spiritual and emotional condition, and the busy life of a burdened Classics professor.

Microbes, Music and Me May 25 2020 John Postgate describes this autobiography as essentially 'a book about doing science', and while it is an entertaining account of his life in the UK and abroad as he rose to international prominence in microbiology, it is also a book about playing and listening to his beloved jazz. Away from lab and lecture hall, Professor Postgate (brother of the late Oliver Postgate, creator of Bagpuss and the Clangers) has taken enormous pleasure in his hobby, playing cornet over the years with many

musicians, some of whom became prominent names in jazz. His articles and reviews for magazines such as Gramophone and Jazz Journal have been as widely appreciated in jazz circles as his contributions to the understanding of certain key microbiological processes, including the sulphur cycle and nitrogen fixation, have been in the world of microbiology.

Common Entrance 13+ Science Exam Practice Questions and Answers Oct 30 2020 Exam board: ISEB Level: 13+ CE and KS3 Subject: Science First exams: November 2022 Improve exam technique and build confidence to ensure success in the CE 13+ Science exams with these practice questions in the style of the ISEB exams. · Practice for all sections of the exam: Biology, Chemistry and Physics for Foundation and Level 2 papers. · Guidance on the exam: how to approach different types of questions and understand what is required from all possible questions. · Identify gaps in knowledge: answers are included to help pinpoint areas for improvement. Pair with Common Entrance 13+ Science Revision Guide for comprehensive exam preparation (ISBN: 9781398340923).

Fred Hoyle's Universe Sep 09 2021 Fred Hoyle was one of the most widely acclaimed and colourful scientists of the twentieth century, a down-to-earth Yorkshireman who combined a brilliant scientific mind with a relish for communication and controversy. Best known for his steady-state theory of cosmology, he described a universe with both an infinite past and an infinite future. He coined the phrase 'big bang' to describe the main competing theory, and sustained a long-running, sometimes ill-tempered, and typically public debate with his scientific rivals. He showed how the elements are formed by nuclear reactions inside stars, and explained how we are therefore all formed from stardust. He also claimed that diseases fall from the sky, attacked Darwinism, and branded the famous fossil of the feathered Archaeopteryx a fake.

Throughout his career, Hoyle played a major role in the popularization of science. Through his radio broadcasts and his highly successful science fiction novels he became a household name, though his outspokenness and support for increasingly outlandish causes later in life at times antagonized the scientific community. Jane Gregory builds up a vivid picture of Hoyle's role in the ideas, the organization, and the popularization of astronomy in post-war Britain, and provides a fascinating examination of the relationship between a maverick scientist, the scientific establishment, and the public. Through the life of Hoyle, this book chronicles the triumphs, jealousies, rewards, and feuds of a rapidly developing scientific field, in a narrative animated by a cast of colourful astronomers, keeping secrets, losing their tempers, and building their careers here on Earth while contemplating the nature of the stars.

The Formation of an Irish Literary Canon in

the Mid-Twentieth Century Jul 07 2021 This scholarly study of the formation of the Irish literary canon in the first half of the twentieth century provides fascinating and often surprising insights into the ways in which different educational institutions responded to the political and historical changes taking place as Ireland moved from colonial to postcolonial status. Dr Wei H. Kao discusses not only what was included on school and university curriculum but also writers who were excluded, in particular women writers who appeared to interrogate a male nationalist agenda for the representation of Ireland.- Emeritus Professor C.L. Innes The writers discussed include Daniel Corkery, J.G. Farrell, Denis Johnston, Mary Lavin, Iris Murdoch, Kate O'Brien, Frank O'Connor, Liam O'Flaherty, and James Plunkett.
