La Città Altra. Storia E Immagine Della Diversità Urbana: Luoghi E Paesaggi Dei Privilegi E Del Benessere, Dell'isolamento, Del Disagio, Della Multiculturalità. Ediz. Italiana E Inglese Nov 27 2022 This volume proposes a rich corpus of papers about the 'Other City', a subject only few times dealt with, but worthy of all our attention: it imposes itself on the scene of international modern and

contemporary historiography for its undeniable topicality. Throughout history, the city has always had to deal with social 'otherness', i.e. with class privileges and, consequently, with discrimination and marginalization of minorities, of the less well-off, of foreigners, in short, with the differences in status, culture, religion. So that the urban fabric has ended up structuring itself also in function of those inequalities, as well as of the strategic places for the exercise of power, of the political, military or social control, of the spaces for imprisonment, for the sanitary isolation or for the 'temporary' remedy to the catastrophes. From the first portraits of cities, made and diffused at the beginning of the fifteenth century for political exaltation purposes or for religious propaganda and for devotional purposes, which often, through increasingly refined graphic techniques, distort or even deny the true urban image, we reach, at the dawn of contemporary history, the new meaning given by scientific topography and new methods of representation; these latter aimed at revealing the structure and the urban landscape in their objectivity, often unexpected for who had known the city through the filter of 'regime' iconography. The representation of the urban image still shows the contradictions of a community that sometimes includes and even exalts the diversities, other times rejects them, showing the unease of a difficult integration.

Trasferimento Tecnologico / Technology Transfer Jan 18 2022 Uno dei fattori di competitività del nostro Paese è certamente la capacità di promuovere le innovazioni e di intensificare la ricerca industriale; le piccole imprese appaiono deboli sul piano della capacità innovativa e i contributi dello Stato per la ricerca diminuiscono notevolmente. Pertanto si diffonde sempre di più la voglia di approfittare a pieno delle opportunità create a livello internazionale. L'esperienza nord americana ha evidenziato che l'impostazione e la gestione di azioni complesse che portano ad un vantaggio competitivo del sistema Paese richiedono sia culture manageriali e professionali specifiche, sia metodologie e strumenti appropriatamente sperimentati. Il volume è rivolto a tutti gli studiosi, ricercatori e imprenditori interessati ai diversi filoni della politica della ricerca riconducibili all'ambito dell'innovazione e del trasferimento tecnologico in ambito internazionale.

STATI UNITI D'EUROPA: AUSPICIO, INCUBO, UTOPIA? VEREINIGTE STAATEN VON EUROPA: WUNSCHBILD, ALPTRAUM, UTOPIE? Oct 15 2021 Das neue Buch "Vereinigte Staaten von Europa: Hoffnung, Alptraum, Utopie" ist im Villa Vigoni Editore | Verlag erschienen. Der Sammelband wird herausgegeben von Christiane Liermann Traniello (Generalsekretärin, Villa Vigoni), Matteo Scotto (Wissenschaftlicher Referent, Villa Vigoni) und Julian Stefanelli (Justiziar, Villa Vigoni). Seit Winston Churchills berühmter Züricher Rede im Jahr 1946 hat die Idee der Vereinigten Staaten von Europa den politischen Diskurs nie wirklich verlassen. Jedoch ist man sich hierzu nie ganz einig: mal ist es ein Modell, von dem man sich distanzieren sollte oder will, manchmal scheint es eine Vision, die man anstrebt, und andere sehen diese Vision lediglich in Ermangelung von Alternativen. Der Sammelband beschäftigt sich genau mit diesen Visionen in drei Kapiteln: "Überlegungen zu den gegenwärtigen Staaten", "Europäische Einheit" und "Überlegungen zu einer gemeinsamen politischen Vision des heutigen Europas"

Origins of a new economic union (7th-12th centuries). Preliminary results of the nEU-Med project: October 2015-March 2017 Mar 20 2022 The nEU-Med project is part of the Horizon 2020 programme, in the ERC Advanced project category. It began in October 2015 and will be concluded in October 2020. The University of Siena is the host institution of the project. The project is focussed upon two Tuscan riverine corridors leading from the Gulf of Follonica in the Tyrrhenian Sea to the Colline Metallifere. It aims to document and analyze the form and timeframe of economic growth in this part of the Mediterranean, which took place between the 7th and the 12thc. Central to this is an understanding of the processes of change in human settlements, in the natural and farming landscapes in relation to the exploitation of resources, and in the implementation of differing political strategies. This volume brings together the research presented at the first nEU-Med workshop, held in Siena on 11-12 April, 2017. The aim of the workshop was to draw up an initial survey of research and related work on the project, one and a half years after its inception. The project is composed of several research units. Each unit covers an aspect of the interdisciplinary research underpinning the nEU-Med project, each with their own methodology. For this first volume of results, it was decided not to give an account of all the work carried out within all the units, but to select those lines of investigation which, at the end of the first year and a half, have made it possible to articulate and develop an interdisciplinary research strategy.

Evaluating and financing university research Aug 13 2021 Il lavoro di ricerca ha come oggetto di studio la valutazione della ricerca universitaria, in un momento in cui il tema della distribuzione delle risorse pubbliche in base a criteri di efficienza e merito è al centro del dibattito politico ed economico. Vengono esaminate e messe a confronto cinque realtà universitarie di paesi europei, al tempo stesso si cerca di evidenziare, attraverso un'indagine campionaria, la percezione dei sistemi di valutazione da parte di ricercatori degli stessi paesi. Lo studio si propone di verificare l'ipotesi che un sistema rigoroso di valutazione della ricerca sia condizione necessaria, ma non sufficiente per produrre un innalzamento qualitativo della ricerca universitaria. Nel nostro paese è imprescindibile un intervento in termini di politiche pubbliche, che valorizzi la ricerca a partire da un più adeguato investimento economico. - The research project focuses on the evaluation of university research, at a moment when a central issue in the political and economic debate is the distribution of public resources based on criteria of efficiency and merit. Five universities in European countries are analyzed and compared, and the perceptions held by the researchers in those countries about evaluation systems are assessed through a survey. The study aims to demonstrate that a rigorous system of research evaluation is a necessary, though insufficient, condition to create an increase in the quality of university research. In our country, what is needed is the enactment of public policies supporting research, beginning with a more adequate economic investment.

Beyond Pompeii Sep 13 2021 Between the Vesuvio slopes and the front coastline, there are several archaeological sites of significant cultural and landscape interest, far less popular than Pompei but not less fascinating. These sites, including the ancient towns of Stabiae and Oplontis up until the coastal city of Sorrento, resemble a constellation surrounded by the metropolitan sprawl and lay in the country of the Campania Region like hidden pearls, as the lack of efficient public transport connections makes these destinations difficult to reach for international tourists. This paper, therefore, discusses different ideas for the design of a Cultural and Touristic District, which may improve their accessibility by linking all these archeological sites together with both physical and ICT networks. Back in 2010, such ideas were presented in Castellammare di Stabia International Workshop "Restoring Ancient Stabiae" by a number of scholars from seven Schools of Architecture of both USA and Italian Universities (Maryland UMD, Miami, Oregon, Cornell Univ.; Napoli Federico II, Bari Politecnico, Roma-Sapienza). The main aim of the workshop was to allow actual team working for designing urban requalification and projects of touristic and cultural development, as well as to stimulate debate between local administrators and experts of urban studies, landscape and archaeology. The results achieved by combination of these objectives paved the way for an ambitious goal, that is presenting a realistic scenario of sustainable development based on recovering and exploitation of archeological sites. ANTONIO FRANCO MARINIELLO (1948) is Architect and Full Professor of Architectural and Urban Design at the Department of Architecture - University of Naples Federico II, Research Director at L.U.P.T. and past member of the PhD board Architectural Composition at the same Faculty of Architecture. He is autor of many works in Architectural Theory and Criticism; furthermore he has published: Questioni di Forma (Napoli 1985), Variazioni-13 esperimenti di Composizione (Napoli 1996), Pre.Testi - sussidiario di Composizione (Napoli 2005).

Ardeth #03 (II - Fall 2018) Jun 22 2022 The discussion of architecture, with all the visibility of its objects, tends to downplay the invisible flows of money that sustain its production. It is as if the dependency on economic forces is too much to face up to; better then to celebrate the catalytic genius of the architectural hero and then the glorious outputs, and try to ignore everything else that goes on in between. This issue intends to probe the in-between space of the operations of architecture, examining the intersection of the projects of architecture with economies, and with it their associated social and political contexts and implications. It is only through a better understanding of the way that contemporary economics cut across architectural operations that one can learn to deal with these dominant forces in a resistive and transformational manner.

ArcheoLogica Data proposes to indissolubly associate data and interpretation. It embraces that global idea of ??archaeological data that integrates all the discipline declinations without any thematic or chronological constraints. Data is at the centre, and around lies everything that can stem from it: interpretations, hypotheses, reconstructions, applications, theoretical and methodological reflections, critical ideas, constructive discussions.
