7.44 x 9.69, wide ruled lined paper, 200 pages, for men, women, and children, who love Jesus No one on this earth asked to be born, got to choose what family to be born into, or knew what twists and turns life would have in store for them. Throughout the journey of my life, I have experienced many obstacles that should have broken me or perhaps killed me. There were many times when I felt like giving up, throwing in the towel, feeling like I had no will to live. I have experienced death, rejection, depression, health issues, and suffered with insecurity. I have been angry, felt alone, and suffered from abuse. It was only through my seeking God that I was able to get through some of the toughest and darkest days of my life. No, I am no doctor, life coach, or motivational speaker. I am a woman who has experienced the ups and downs of life and knows how God can turn tragedy into triumph. I want to speak to anyone who has ever felt like giving up. I have been there. I want to speak to those who every time you turn around it seems like its always something trying to throw you off your mission, trying to distract you from achieving or being who God called you to be. I have been there too. I want to speak to the fatherless, the rejected, the depressed, the hurt, the angry, the insecure, the abused. I have been all of those things. God allowed me to experience everything that I have been through for this very moment. He allowed me to overcome weapons formed against me so that I can tell others of His goodness and His mercy. I would be lying if I said it was easy. I would be lying if I said I did not stumble along the way. I would be lying if I said that everything happened overnight. This has been a lifelong journey for me, over 30 years, and God is still not finished with me yet. My goal is to use my story and the many battles I have fought to inspire those who feel like giving up, those who may not have anyone to encourage them. I want you to know that anything is possible with God and no matter what obstacles or challenges you may face, when you focus on God, seek Him, trust Him no matter how it may look or seem, NO WEAPON will be able to prosper in your life. Here is my story. One of the most recognizable big-screen stars of the past half-century, Sir Roger Moore played the role of James Bond longer than any other actor. Beginning with the classic Live and Let Die, running through Moonraker and A View to a Kill, Moore brought his finely honed wit and wry charm to one of Hollywood's most beloved and long-lasting characters. Still, James Bond was only one in a lifetime of roles stretching back to Hollywood's studio era, and encompassing stardom in theater and television on both sides of the Atlantic. From The Saint to Maverick, Warner Brothers to MGM, Hollywood to London to extreme locations the world over, Roger Moore's story is one of the last of the classic Hollywood lives as yet untold. Until now. From the dying days of the studio system and the birth of television, to the quips of Noël Coward and David Niven, to the bedroom scenes and outtakes from the Bond movies, Moore has seen and heard it all. Nothing is left out—especially the naughty bits. The "special effects" by which James Bond unzipped a dress with a magnet; the spectacular risks in The Spy Who Loved Me's opening scene; and Moore's preparation for facing down villains (he would imagine they all have halitosis): the stories in My Word is My Bond are priceless. Throughout his career, Moore hobnobbed with the glamorous and powerful, counting Elizabeth Taylor, Jane Seymour, and Cary Grant among his contemporaries and friends. Included are stories of a foul-mouthed Milton Berle, a surly Richard Burton, and a kindhearted Richard Kiel, infamous as Bond enemy Jaws. As much as it is Moore's own exceptional story, My Word is My Bond is a treasure trove of Hollywood history. The dragon Archangel Divinus status is upgraded to Goddess, with this new status she creates a new world. She then placed magical dragons on this world, she placed them in the continent of Tsugaria. The continent is then split into 5 countries, and the rulers of these countries are 5 powerful dragons. Divinus calls these 5 the five stars. Later Hotch Manroy, a powerful wizard from a different universe shows up and has the five stars enchant a different weapon. Soon after, King Reginald Badge starts a war between his world and their world. After that the war continues after a break when an ally turns to villainy. This is a new release of the original 1945 edition. In My Voice Is My Weapon, David A. McDonald rethinks the conventional history of the Palestinian crisis through an ethnographic analysis of music and musicians, protest songs, and popular culture. Charting a historical narrative that stretches from the late-Ottoman period through the end of the second Palestinian intifada, McDonald examines the shifting politics of music in its capacity to both reflect and shape fundamental aspects of national identity. Drawing case studies from Palestinian communities in Israel, in exile, and under occupation, McDonald grapples with the theoretical and methodological challenges of tracing "resistance" in the popular imagination, attempting to reveal the nuanced ways in which Palestinians have confronted and opposed the traumas of foreign occupation. The first of its kind, this book offers an in-depth ethnomusicological analysis of the Israeli-Palestinian conflict, contributing a performative perspective to the larger scholarly conversation about one of the world's most contested humanitarian issues. The book showcases individual and collective developments which can be used elsewhere to revitalize once neglected rural areas and create a practical alternative to the urban rat-race environment, instead focusing on a renewed quality of life not often found in major metropolitan areas. Such possibilities offer a profound new way of thinking on rural renewal and planning policy. The "bible" of the firearms industry for accurate value information and descriptions of rifles, pistols, and shotguns. The industry standard for over 25 years! THE KAITEN WEAPON is the full story of a fantastic suicide weapon—the manned torpedo —and of the volunteers who deliberately offered their lives in defense of Japan. So secret that few people even in Japan knew of its existence, the Kaiten force was a desperate and fanatic attempt to smash the U.S. fleet in the closing months of the war. Yutaka Yokota, a Kaiten force volunteer himself, tells how men were trained, gives complete details about the weapon's performance and how it was operated, and provides a comprehensive account of every Kaiten mission. Joseph D. Harrington, an American expert on U.S. Naval operations in World War II, worked closely with Yokota in preparing this first English language edition of his book. In addition, he has provided an accurate appraisal from U.S. sources of the results of Kaiten attacks, making this the definitive work on one of the most bizarre and fanatical fighting groups of the war. Kevin sat quietly in the two-man cell. His new cellmate was trying to whip up support among his inmate friends to "do something" about his new cellmate-me. This was definitely not going well. I could almost "feel" an assault or a knife attack coming. I made a decision. If I was going to die in prison, then I would take myself out rather than let some self-righteous, low-brow punk(s) do it. I could fight-the Army had trained me well-but how many would come at me? Would there be weapons? I quietly Mission: Sabotage a Planet, Survival Not Guaranteed . . . Kenneth Chinran was a disaffected youth who joined the military and was recruited for an elite deep cover unit, surviving training and exercises so tough that several of the recruits did not survive. At the peak of his career, he was sent by his star nation to infiltrate a fascistic, militaristic planet--Earth. He lived in deep cover for years, marrying and having a daughter. Then the Earth forces attacked his home system, and he and his team came out of hiding, attacking and destroying the infrastructure of the crowded planet, disabling transportation and communications and creating terror in city after city. As a result of his attacks, billions died for lack of the food, water and power which the ravaged system could no longer supply. His sabotage was successful, but the deaths of so many weighed heavily on his mind, making him wonder if he was still sane. Then the secret police discovered his identity. With his daughter, the only thing in his life that had so far kept him human, he was on the run, while the resources of a planetwide police state were tracking him down. He could see no way to escape from the planet, no way to keep hiding, and if he and his daughter were caught, death was the very least that they could expect. But Chinran is a warrior in his soul, and even if he loses this last battle, he won't go down without a fight that his pursuers--the ones who survive--will never forget. Luke, the perpetually E-ranked adventurer turned weapons seller at the popular White Wolf Arms, has been accused of betraying his last party and leaving them to die! Heading back to the dungeon to prove his innocence, he discovers Noir, a former party member, wounded and unconscious. Can Noir reveal the truth behind that ill-fated dungeon crawl and clear Luke's name? Meanwhile, a mysterious threat draws ever closer to the peaceful town... What kind of people are suicide bombers? How do they justify their actions? In this meticulously researched and sensitively written book, journalist Christoph Reuter argues that popular views of these young men and women--as crazed fanatics or brainwashed automatons--fall short of the mark. In many cases these modern-day martyrs are well-educated young adults who turn themselves into human bombs willingly and eagerly--to exact revenge on a more powerful enemy, perceived as both unjust and oppressive. Suicide assassins are determined to make a difference, for once in their lives, no matter what the cost. As Reuter's many interviews with would-be martyrs, their trainers, friends, and relatives reveal, the bombers are motivated more by how they expect to be remembered--as heroic figures--than by religion-infused visions of a blissful life to come. Reuter, who spent eight years researching the book, moves from the broken survivors of the childrens' suicide brigades in the Iran-Iraq war of the 1980s, to the war-torn Lebanon of Hezbollah, to Israeli-occupied Palestinian land, and to regions as disparate as Sri Lanka, Chechnya, and Kurdistan. He tells a disturbing story of the modern globalization of suicide bombing--orchestrated, as his own investigations have helped to establish, by the shadowy Al Qaeda network and unintentionally enabled by wrong-headed policies of Western governments. In a final, hopeful chapter, Reuter points to today's postrevolutionary, post-Khomeini Iran, where a new social environment renounces the horrific practice in the very place where it was enthusiastically embraced just decades ago. Raúl R. Salinas is regarded as one of today's most important Chicano poets and human rights activists, but his passage to this place of distinction took him through four of the most brutal prisons in the country. His singular journey from individual alienation to rage to political resistance reflected the social movements occurring inside and outside of prison, making his story both personal and universal. This groundbreaking collection of Salinas' journalism and personal correspondence from his years of incarceration and following his release provides a unique perspective into his spiritual, intellectual, and political metamorphosis. The book also offers an insider's view of the prison rebellion movement and its relation to the civil rights and anti-war movements of the 1960s and 1970s. The numerous letters between Salinas and his family, friends, and potential allies illustrate his burgeoning political awareness of the cause and conditions of his and his comrades' incarceration and their link to the larger political and historical web of social relations between dominant and subaltern groups. These collected pieces, as well as two interviews with Salinas—one conducted upon his release from prison in 1972, the second more than two decades later—reveal to readers the transformation of Salinas from a street hipster to a man seeking to be a part of something larger than himself. Louis Mendoza has painstakingly compiled a body of work that is autobiographical, politically insurgent, and representative. A single book might not change the world. But this utterly original meditation on art and war might transform the way you see the world—and that makes all the difference. “How to live in the face of so much suffering? What difference can one person make in this beautiful, imperfect, and imperiled world?” Through a dazzling combination of memoir, history, reporting, visual culture, literature, and theology, Sarah Sentilles offers an impassioned defense of life lived by peace and principle. It is a literary collage with an urgent hope at its core: that art might offer tools for remaking the world. In *Draw Your Weapons*, Sentilles tells the true stories of Howard, a conscientious objector during World War II, and Miles, a former prison guard at Abu Ghraib, and in the process she challenges conventional thinking about how war is waged, witnessed, and resisted. The pacifist and the soldier both create art in response to war: Howard builds a violin; Miles paints portraits of detainees. With echoes of Susan Sontag and Maggie Nelson, Sentilles investigates images of violence from the era of slavery to the drone age. In doing so, she wrestles with some of our most profound questions: What does it take to inspire compassion? What impact can one person have? How should we respond to violence when it feels like it can't be stopped? Praise for *Draw Your Weapons* “A collage of death, savagery, torture, and trauma across generations and continents, Sarah Sentilles’s *Draw Your Weapons* is painful to read, hard to put down, and impossible to forget.”—O: The Oprah Magazine “In her dynamic, impressionistic (and cleverly titled) book, Sentilles focuses on language and images—particularly photography—and considers what role they play in peace and war. Eschewing a traditional narrative, Sentilles focuses on two men—one a World War II conscience objector who makes violins, and the other an Abu Ghraib prison guard who paints detainee portraits. In brief, delicately layered pieces rather than a narrative, Sentilles has created a collage that explores art, violence, and what it means to live a principled life.”—The National Book Review “It’s the kind of book that, after reading just half, you have to stop and catch your breath, because reading it changes you, not just in terms of what you know—it changes the way you think and how you feel—so much so that, halfway in, I wanted to go back and start again because I felt I was already a different person to the person I was when I began.”—Turnaround Wide Ruled Notebook.
