Engineering News-record Sep 11 2021

The Cherokee Project Mar 25 2020 Cherokee is the tenth major hydro project authorized for construction of the Tennessee Valley Authority and the seventh to be completed. The dam is located at mile 52.3 on the Holston River which unites with the French Broad River just above Knoxville to form the Tennessee River. This main tributary project was the first of several TVA dams authorized under World War II emergency program and constructed on an emergency

basis. Although operated primarily for power during the war emergency, Cherokee forms an integral unit in the overall system of water control projects in the Tennessee Valley, and under normal multiple purpose operation aids in reducing main-river flood stages and in stabilizing low water flows.

Allis-Chalmers Tractors and Crawlers Dec 23

2019 One of the most popular marques among antique-tractor collectors and restorers is Allis-Chalmers. This all-new guide reviews the most collectible Allis-Chalmers tractors and crawlers ever built, tackling by year of manufacture landmark machines like the Model 20-35, Model U, Model M crawler and Model G. Exclusive photography accompanies complete descriptions of basic model options, specifications, components, paint codes, serial numbers, design changes and promotional literature, while a price guide advises readers on what to look for in each model. Brief model histories and descriptions of common repair and restoration needs round out this complete reference for the legions of old-tractor enthusiasts.

Roads and Streets Mar 06 2021 Issues for include section: Bituminous roads and streets.
