***This text follows the animation production  
by concentrating on the documentation  
necessary to accurately and professionally  
organize each step of the process. Examples***

*of each piece of paperwork needed to complete the project will be shown. Many newcomers to the field are not experienced in the basic processes to organize their project in an orderly manner. The result is a chaotic, inefficient, and incomplete product. Readers are presented with a step-by-step guide to organizing the process by following professional standards in creating needed and useful documentation for all animators, whether creating in cells, stop-motion, experimental, or computer graphic productions. SUPERB EXECUTION RELIES UPON RIGOROUS PROJECT*

*DOCUMENTATION A project will only be built as well as it is documented. This publication focuses on the key documentation needs of the landscape architectural design and construction documentation process. That includes both "design documentation" and "construction documentation" as well as all that which occurs in the transition from one phase to the other. Documentation requirements include those components necessary to explore and define design intent, logic, physical proposals, and ultimately, the*

***specific components included within construction and bid documents. Discover how proper documentation facilitates every stage of the design process from pre-planning to construction, and leads to a highly resolved built outcome. Understand the principles behind these documentation practices. Implement best practices specific to each documentation phase and drawing, from title block and cover sheet design to soil plans and plant protection. Organize keynoting systems, cross-referencing and interdisciplinary coordination amongst multiple consultants and vendors. Study sample project documents from a leading landscape architecture firm to better understand the elements and benefits of complete and well-coordinated project documentation. These standards have been time-tested by over 150 designers at the industry leading landscape architecture firm Design Workshop, reflecting a range of project types, including parks, streetscapes, urban spaces and over-structure construction. This guide shares the methods behind the success, to facilitate exceptional built outcomes through principled***

**documentation practices. Attention nursing students, NP students, PA students, med students or new grads - a clinical documentation workbook that is a time- and life-saver!**

***Produced by Viktor Dick Comes with a CD-ROM packed with a variety of problem-solving projects. Written specifically for occupational therapy assistants, The OTA's Guide to Writing SOAP Notes, Second Edition is updated to include new features and information. This valuable text contains the step-by-step instruction needed to learn the documentation required for reimbursement in occupational therapy. With the current changes in healthcare, proper documentation of client care is essential to meeting legal and ethical standards for reimbursement of services. Written in an easy-to-read format, this new edition by Sherry Borcharding and Marie J. Morreale will continue to aid occupational therapy assistants in learning to write SOAP notes that will be reimbursable under Medicare Part B and managed care for different areas of clinical practice. New Features in the Second Edition: - Incorporated throughout the text is the Occupational Therapy Practice Framework, along with updated AOTA documents - More examples of pediatrics, hand therapy, and mental health - Updated and additional***

**worksheets - Review of grammar/documentation mistakes - Worksheets for deciphering physician orders, as well as expanded worksheets for medical abbreviations - Updated information on billing codes, HIPAA, management of health information, medical records, and electronic documentation - Expanded information on the OT process for the OTA to fully understand documentation and the OTA's role in all stages of treatment, including referral, evaluation, intervention plan, and discharge - Documentation of physical agent modalities** With reorganized and shorter chapters, *The OTA's Guide to Writing SOAP Notes, Second Edition* is the essential text to providing instruction in writing SOAP notes specifically aimed at the OTA practitioner and student. This exceptional edition offers both the necessary instruction and multiple opportunities to practice, as skills are built on each other in a logical manner. Templates are provided for beginning students to use in formatting SOAP notes, and the task of documentation is broken down into small units to make learning

***easier. A detachable summary sheet is included that can be pulled out and carried to clinical sites as a reminder of the necessary contents for a SOAP note. "Answers" are provided for all worksheets so that the text can be used for independent study if desired. Updated information, expanded discussions, and reorganized learning tools make The OTA's Guide to Writing SOAP Notes, Second Edition a must-have for all occupational therapy assistant students! This text is the essential resource needed to master professional documentation skills in today's healthcare environment. For Introductory Computer courses in Microsoft Office 2003 or courses in Computer Concepts with a lab component for Microsoft Office 2003 applications. Master the How and Why of Office 2003! Students master the "How and Why" of performing tasks in Office and gain a greater understanding of how to use the individual applications together to solve business problems.
