Estudio histórico de Bolivia bajo la administración del general d. José María de Acháa Jun 28 2022

International Newspaper Librarianship for the 21st Century Mar 06 2023 This volume consists of presentations at recent events of the IFLA Newspapers Section in Oslo 2005, Canberra 2005, Buenos Aires 2004, Shanghai 2004, Berlin 2003 and Cape Town 2003. It covers the variety and intensity of newspaper activities worldwide, emphasising both regional activities and current work in the fields of the preservation and digitisation of newspapers, and including reports on the ongoing US and UK projects. Another essential subject covered in this volume is the very complex issue of newspapers and copyright. This publication presents the current state of newspaper librarianship on all five continents. It reflects not only the remarkable progress made during recent years, but also the major challenges for the future.

Java for Students Oct 21 2021 Aware that many students need a careful introduction to programming and that they respond well to graphical illustration, this concise book adopts a visual approach to programming. Throughout the text, programs that use graphical images are emphasized to clearly demonstrate all the important programming principles. The authors use a spiral approach to programming concepts; introducing concepts simply early on, then in a more sophisticated way later, (e.g., objects are integrated throughout five chapters). Java for Students emphasizes the use of applets but also shows how to program free-standing applications. The authors have been careful to put together a text that covers the powerful features of Java and presents the language to students as both a fun and useful tool.

The ALA Glossary of Library and Information Science Nov 02 2022 Defines terms and concepts related to publishing, printing, computer science, statistics, graphic arts, photography, telecommunications, education, micrographics, and library administration

Campus de la Diagonal Apr 02 2020 Aquest llibre presenta una reflexió acadèmica i professional al Campus de la Diagonal amb un ampli ventall d'idees urbanístiques que permeten establir un nou escenari universitari i millorar la relació amb la ciutat..Durant els anys seixanta i setanta del segle passat es varen realitzar diversos projectes d'edificis i recintes universitaris de gran interès (de Carlo, Candilis, Sert). També es varen publicar notables estudis sobre la relació entre la ciutat i la universitat..Feia, però, força anys que aquestes qüestions no semblaven ocupar l'agenda d'arquitectes, urbanistes i responsables universitaris. Per això sembla tan oportú l'esforç de recollir en aquestes poc més de dues-centes planes tot un seguit de riques reflexions i de projectes, tant aquells que responen a encàrrecs concrets de la UB i de la UPC, com aquells que han realitzat un conjunt d'estudiants per recórrer i fer ciutat d'una munió d'edificis, sovint de caràcter abstret i poc permeable, tallats per una avinguda de grans dimensions i disposats sense cap visió de conjunt.

La vita • una sfida! Apr 07 2023

Hyperbolic Systems of Conservation Laws Jan 24 2022 This book examines the well-posedness theory for nonlinear hyperbolic systems of conservation laws, recently completed by the author together with his collaborators. It covers the existence, uniqueness, and continuous dependence of classical entropy solutions. It also introduces the reader to the developing theory of nonclassical (undercompressive) entropy solutions. The systems of partial differential equations under consideration arise in many areas of continuum physics.
