In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring stories of our time. “The kind of book that can be life-changing.” —The New York Times “Deserves a place on the same shelf with *The Diary of a Young Girl* by Anne Frank.” —USA Today DON'T MISS BRIDGE OF CLAY, MARKUS ZUSAK'S FIRST NOVEL SINCE THE BOOK THIEF. On May 13, 1945, twenty-four American servicemen and WACs boarded a transport plane for a sightseeing trip over “Shangri-La,” a beautiful and mysterious valley deep within the jungle-covered mountains of Dutch New Guinea. Unlike the peaceful Tibetan monks of James Hilton's bestselling novel *Lost Horizon*, this Shangri-La was home to spear-carrying tribesmen, warriors rumored to be cannibals. But the pleasure tour became an unforgettable battle for survival when the plane crashed. Miraculously, three passengers pulled through. Margaret Hastings, barefoot and burned, had no choice but to wear her dead best friend's shoes. John McCollom, grieving the death of his

twin brother also aboard the plane, masked his grief with stoicism. Kenneth Decker, too, was severely burned and suffered a gaping head wound. Emotionally devastated, badly injured, and vulnerable to the hidden dangers of the jungle, the trio faced certain death unless they left the crash site. Caught between man-eating headhunters and enemy Japanese, the wounded passengers endured a harrowing hike down the mountainside—a journey into the unknown that would lead them straight into a primitive tribe of superstitious natives who had never before seen a white man—or woman. Drawn from interviews, declassified U.S. Army documents, personal photos and mementos, a survivor’s diary, a rescuer’s journal, and original film footage, *Lost in Shangri-La* recounts this incredible true-life adventure for the first time. Mitchell Zuckoff reveals how the determined trio—dehydrated, sick, and in pain—traversed the dense jungle to find help; how a brave band of paratroopers risked their own lives to save the survivors; and how a cowboy colonel attempted a previously untested rescue mission to get them out. By trekking into the New Guinea jungle, visiting remote villages, and rediscovering the crash site, Zuckoff also captures the contemporary natives’ remembrances of the long-ago day when strange creatures fell from the sky. A riveting work of narrative nonfiction that vividly brings to life an odyssey at times terrifying, enlightening, and comic, *Lost in Shangri-La* is a thrill ride from beginning to end. Now that Cheyenne's murderer has been revealed and Reed knows the truth about who's been stalking her, she's ready for a break. At first the trip is heaven on Earth: beach parties, forty-foot yachts, shopping trips to exclusive boutiques . . . But even in sunny paradise, the Girls are never far from trouble - and they're about to get burned. Amateur private investigator Katie Fry looks for clues to help a kitten find its way back home. In this stunning ninth book in the New York Times and USA TODAY bestselling *Keeper of the Lost Cities* series, Sophie and her friends discover the true meaning of power—and evil. Her friends are divided and scattered, and the Black Swan wants Sophie to focus on their projects. But her instincts are leading her somewhere else. *Stellarlune*—and the mysterious *Elysian*—might be the key to everything. But finding truth in the *Lost Cities* always requires sacrifice. And as the *Neverseen*’s plans sharpen into terrifying focus, it appears that everyone has miscalculated. The *Lost Cities*’ greatest lie could destroy everything. And in the battle that follows, only one thing is certain: nothing will ever be the same. Publishes in-depth articles on labor subjects, current labor statistics, information about current labor contracts, and book reviews. This book discusses Japan’s long-term economic recession and provides remedies for that recession that are useful for other Asian economies. The book addresses why Japan’s economy has stagnated since the bursting of its economic bubble in the 1990s. Its empirical analysis challenges the beliefs of some economists, such as Paul Krugman, that the Japanese economy is caught in a liquidity trap. This book argues that Japan’s economic stagnation stems from a vertical “investment-saving” (IS) curve rather than a liquidity trap. The impact of fiscal policy has declined drastically, and the Japanese economy faces structural problems rather than a temporary downturn. These structural problems have many causes: an aging demographic (a problem that is frequently overlooked), an over-reliance by local governments on transfers from the central government, and Basel capital requirements that have made Japanese banks reluctant to lend money to start-up businesses and small and medium-sized enterprises. This latter issue has discouraged Japanese innovation and technological progress. All these issues are addressed empirically and theoretically, and several remedies for Japan’s long-lasting recession are provided. This volume will be of interest to researchers and policy makers not only in Japan but also the People’s Republic of China, many countries in the eurozone, and the United States, which may face similar challenges in the future.
