The Oklahoma Football Encyclopedia is an historical description of every University of Oklahoma football game from the beginning in 1895 through 2004. Learn how the team got its start and how coach Bennie Owen laid the foundation for the Sooners to become one of the most respected teams on the college football scene. Bud Wilkinson, Barry Switzer and Bob Stoops later directed the Sooners to college football's elite prize. Wilkinson was a great teacher of the Split-T formation, which guided the Sooners to three national championships, 72 consecutive conference games without a loss and a major college winning streak -- a record that may never be broken. Switzer, a master recruiter, implemented the Wishbone formation, which brought another three national titles and 12 conference crowns to Norman. After the Sooner football program had dropped to mediocrity status, Stoops turned the program around and won the national championship in his second year at the helm. This book provides insight into "Sooner Magic." Many OU football teams appeared to have a supernatural force carry them to victory when victory was not assured. Was it sleight of hand? Smoke and mirrors? No, just pure talent and inspiration helped push the Sooners to the overwhelming tradition the teams have displayed on the gridiron. This book contains selected papers which were presented at the 3rd International Halal Conference (INHAC 2016), organized by the Academy of Contemporary Islamic Studies (ACIS), Universiti Teknologi MARA (UiTM) Shah Alam, Malaysia. and emerging issues. Highlighting findings from both scientific and social research studies, it enhances the discussion on the halal industry (both in Malaysia and at the international level), and serves as an invitation to engage in more advanced research on the global halal industry.
