Jan Rehmman reconstructs the different strands of ideology theories, ranging from Marx to Adorno/Horkheimer, from Gramsci to Stuart Hall, from Althusser to Foucault, from Bourdieu to W.F. Haug. He puts them into dialogue with each other and applies them to today's high-tech-capitalism. This is a political theory text for the 21st century. Introduction to Political Theory brings together political ideologies and concepts into one book and offers a student-friendly introduction to the major ideologies that have shaped the modern world and the concepts that form the currency of political debate. The hugely experienced author team offer a wealth of teaching experience and distinguished scholarship. By using real-life examples to relate political ideas to political realities, they make the subject lively and contentious in order to stimulate students to think about political the. "Political Ideologies provides a broad-ranging introduction to both the classical and contemporary political ideologies. Adopting a global outlook, it introduces readers to ideologies' increasingly global reach and the different national versions of these ideologies. Importantly, ideologies are presented as frameworks of interpretation and political commitment, encouraging readers to evaluate how ideologies work in practice, the problematic links between ideas and political action, and the impact of ideologies. Regular learning features encourage readers to think critically about ideologies, and view them as competing and contestable ways of interpreting the world. A unique 'stop and think' feature calls for readers to reflect on their own ideological beliefs." -- Provided by publisher. The fifth edition of this seminal textbook by best-selling author Andrew Heywood continues to lead the way in providing a comprehensive and authoritative introduction to politics. Renowned for its engaging and accessible style, this book helps students to understand the discipline's foundational concepts and theories and use these to make sense of its key subfields, from elections and voting to security and global governance. Systematically revised and updated throughout, it also uses a range of tried-and-tested pedagogical features to draw links between different standpoints and help make contemporary institutions, events and developments come to life. Drawing on a wide range of international examples, this text is the ideal choice for lecturers around the world. Carefully designed and written to map onto the way the subject is introduced at degree level, it remains the go-to text for undergraduate introductory and comparative politics courses. Furthermore, it can also be used as pre-course reading or as a point of reference throughout politics degrees, majors or minors. New to this Edition: - Restructured and revised to reflect the decline of democracy and the rise of populism and authoritarianism in different parts of the world - New Politics in Action features reflect the latest political developments - including 'Trump's triumph: politics as polarization'; 'South Africa: a one-party state?'; and 'North Korea: a rogue nuclear power?' - Discusses the transformation of the media landscape, assessing the advent and impact of social media and 'fake news' - New and improved text design reflecting the book's contemporary and engaging coverage - Accompanied by a brand new website, featuring a flashcard glossary, additional cases, interactive simulations and weblinks for students, PowerPoint slides for lecturers, a testbank and a guide to using the book. Political Ideologies and the Democratic Ideal, 9/e, thoroughly analyzes and compares political ideologies to help readers understand these ideologies as acutely as a political scientist does. Used alone or with its companion Ideals and Ideologies: A Reader, 9/e, this best-selling title promotes open-mindedness and develops critical thinking skills. Ideology is one of the most controversial terms in the political vocabulary, inciting both revulsion and inspiration. This book explains why ideologies deserve respect as a major form of political thinking, without which we cannot make sense of the political world. The reader is introduced to their vitality and force, utilizing insights from a range of disciplines, and through examining the arguments of the main ideologies. The new third edition of the highly successful text has been revised and updated throughout to take account of new issues such as identity and difference, globalization and multiculturalism. The book provides a clear and accessible introduction to political theory and key concepts in political analysis. Each chapter discusses a cluster of interrelated terms, examines how they have been used by different thinkers and in the various political traditions, and explores related debates and controversies. Thoroughly revised and updated, this third edition provides a comprehensive account of the major political ideologies of the past two centuries, including liberalism, conservatism, socialism, anarchism, fascism, feminism, environmentalism, and nationalism. Features a brand new chapter on fundamentalism, along with greater emphasis on the global impact of ideologies in general. Examines the complex overlap and interplay of ideas that exist both within and between ideologies. Incorporates the newest developments and scholarship in the field, and includes a helpful new glossary of key terms. Now in its fourth edition, Political Ideologies: An Introduction continues to be the best introductory textbook for students of political ideologies. Completely revised and updated throughout, this edition features: A comprehensive introduction to all of the most important ideologies. Brand new chapters on multiculturalism, anarchism, and the growing influence of religion on politics. More contemporary examples of twenty-first-century iterations of liberalism, socialism, conservatism, fascism, green political theory, nationalism, and feminism. Enhanced discussion of the end of ideology debates and emerging theories of ideological formation. Six new contributors. Accessible and packed with both historical and contemporary examples, this is the most useful textbooks for scholars and students of political ideologies. The contributors to this volume have all taught or carried out research at the School of Politics, International Studies and Philosophy of Queen's University, Belfast, or have close research connections with the School. This revised and updated fourth edition of the leading text on political ideologies contains a new chapter on multiculturalism, consideration of the changing nature of ideological discourse, including the transition from "traditional" to "new" ideologies, and coverage of the impact on the major ideological traditions of developments such as globalization and the "war on terror." This new textbook shows that each of the major political ideologies gives rise to, or in some cases specifies, a particular view of human beings, with significant consequences for the ways we organise our political systems and our forms of political participation. In each chapter, the author provides a brief historical introduction and then outlines the key points of the ideology concerned. He then demonstrates conceptual and practical issues that arise thence, including successes and failures in the implementation of the selected ideologies. The chapters follow a broad conceptual sequence and adopt a chronological order where appropriate. This clear,

direct, and accessible textbook aims to aid the reader to identify and evaluate the assumptions underlying a wide range of public matters. The intention is to help enhance readers' understanding of major public issues, so that they can ask more incisive and better-informed questions about those. Key Features • Each chapter supplemented by an apposite list of suggested readings and extension exercises • A dedicated chapter on Technocracy and Managerialism • A dedicated chapter on Poststructuralism and Postmodernism • An ideal companion for students from different backgrounds, including political science, public administration, philosophy, public policy, law, journalism, and other areas This collection of readings on the concept of ideology is brought together by the Marxist critic, Terry Eagleton. His introduction traces the historical evolution of ideology and examines in a more theoretical style the various meanings of the word and their significance. The readings begin with the first English translations of some of the writing of the French founder of the concept in the eighteenth century. They then move from the enlightenment to Hegel and Marxism, with particular emphasis on Marx and Engels themselves. They also look at other eighteenth-century traditions of thought such as Nietzsche and Freud. All the readings are theoretical rather than examples of 'ideology at work' and will be of interest to undergraduate students of cultural, political and historical studies concerned with ideology, as well as students of English literature. This informative and widely used text is now available in a third edition. Building on the success of previous editions, it continues to provide a clear and accessible introduction to the complexities of political ideologies. The new edition of Political Ideologies: An Introduction: introduces and considers the future of all the most widely studied ideologies: Liberalism; Conservatism; Socialism; Democracy; Nationalism; Fascism; Ecologism and Feminism sets each ideology clearly within its historical and political context includes a new final chapter that examines the impact of recent theoretical developments of ideologies and charts the challenges that they face in the 21st century has been fully revised and up-dated and provides an annotated guide for further reading. This informative and widely-used text is now available in a third edition. Building on the success of previous editions, it continues to provide a clear and accessible introduction to the complexities of political ideologies. The latest edition of Political Ideologies: introduces and considers the future of all the most widely studied ideologies: liberalism; conservatism; socialism; democracy; nationalism; fascism; ecologism and feminism sets each ideology clearly within its historical and political context includes a new final chapter that examines the impact of recent theoretical developments of ideologies and charts the challenges that they face in the twenty-first century has been fully revised and up-dated and provides an annotated guide for further reading. The new edition of Political Ideologies: An Introduction continues to be the best introductory textbook for students of political ideologies. Completely revised and updated throughout this edition features: A comprehensive introduction to all the most important ideologies. Brand new chapters on Multiculturalism and Green Political Theory An updated chapter which examines the growing influence of religion on politics More contemporary examples of 21st century iterations of socialism, conservatism & fascism. Enhanced discussion of the end of ideology debates and emerging theories of ideological formation Accessible and packed with both historical and contemporary examples, this is the most useful textbooks for scholars and students of political ideologies. The contributors to this volume have all taught or carried out research in the School of Politics, International Studies and Philosophy at Queen's University, Belfast, or have close research connections with the School. Offering an unparalleled, sweeping survey of the political ideologies that have shaped our world, the seventh edition of Andrew Heywood's seminal undergraduate textbook continues to lead the way in guiding students through the political creeds and doctrines that have dominated politics past and present. Offering an unparalleled, sweeping survey of the political ideologies that have shaped our world, the seventh edition of Andrew Heywood's seminal undergraduate textbook continues to lead the way in guiding students through the political creeds and doctrines that have dominated politics past and present. Covering an impressive array of topics, the first half of the book focusses on traditional ideologies such as Conservatism, Socialism, Liberalism, Anarchism and Fascism, while more contemporary movements such as Populism, Feminism, Green Ideology, Multiculturalism and Religious Fundamentalism form the latter part of the text. Taking into account the remarkable events that have shaken the political sphere in recent years, the text has been revised and updated throughout in order to show how the study of political ideologies can elucidate the significance of such striking phenomena as the decline of liberal democracy and the rise of populist movements and authoritarianism around the world. The most accessible, concise and yet comprehensive introduction to the topic, this is an indispensable textbook for students studying for courses on political ideologies, political theory and introductory politics. It should be essential reading for anyone seeking to gain an understanding of political ideologies for the first time. New to this Edition: - A brand new chapter on Populism addressing the rise of populist movements across the world and the related decline of liberal democratic values - More on sexualities, queer politics and trans issues in the chapter on Feminism; and a wider range of religions considered in the chapter on Religious Fundamentalism - New Key Thinker boxes featuring a more diverse array of voices - A fully revised concluding chapter on 'Why Political Ideologies Matter' - Updated Political Ideologies in Action boxes reflecting on recent, major political events and their significant for political analysis - A completely refreshed companion website comprising a testbank, PowerPoint slides, flashcard glossary, additional 'Political Ideologies in Action' cases, and interactive simulations Accompanying online resources for this title can be found at bloomsburyonlineresources.com/political-ideologies-7e. These resources are designed to support teaching and learning when using this textbook and are available at no extra cost Ideology and Utopia argues that ideologies are mental fictions whose function is to veil the true nature of a given society. They originate unconsciously in the minds of those who seek to stabilise a social order. Utopias are wish dreams that inspire the collective action of opposition groups which aim at the entire transformation of society. Mannheim shows these two opposing elements to dominate not only our social thought but even unexpectedly to penetrate into the most scientific theories in philosophy, history and the social sciences. This new edition contains a new preface by Bryan S. Turner which describes Mannheim's work and critically assesses its relevance to modern sociology. The book is published with a comprehensive bibliography of Mannheim's major works. Ideology has never before been so much in evidence as a fact and so little understood as a concept as it is today. In this now classic work, originally written for both newcomers to the topic and for those already familiar with the debate, Terry Eagleton unravels the many different definitions of ideology, and explores the concept's torturous history from the Enlightenment to postmodernism. The book provides lucid accounts of the thought of key Marxist thinkers, as well as of Schopenhauer, Nietzsche, Freud and the various post-structuralists. Now updated in the light of current theoretical debates, this essential text by one of our most important contemporary critics clarifies a notoriously confused subject. Ideology is core reading for students and teachers of literature and politics. This revised and updated fourth edition of the leading text on political ideologies contains a new chapter on multiculturalism, consideration of the changing nature of ideological discourse, including the transition from "traditional" to "new" ideologies, and coverage of the impact on the major ideological traditions of developments such as globalization and the "war on terror". Examines the tenets of liberalism, socialism, conservatism, Marxism, anarchism, and fascism. Michael Freeden explores the concept of liberalism, one of the longest-standing and central political theories and ideologies. Combining a variety of approaches, he distinguishes between liberalism as a political movement, as a system of ideas, and as a series of ethical and philosophical principles. This collection of readings on the concept of ideology is brought together by the Marxist critic, Terry Eagleton. His introduction traces the historical evolution of ideology and examines in a more theoretical style the various meanings of the word and their significance. The readings begin with the first English translations of some of the writing of the French founder of the concept in the eighteenth century. They then move from the enlightenment to Hegel and Marxism, with particular emphasis on Marx and Engels themselves. They also look at other eighteenth-century traditions of thought such as Nietzsche and Freud. All the readings are theoretical rather than examples of 'ideology at work' and will be of interest to undergraduate students of cultural, political and historical studies concerned with ideology, as well as students of English literature. This substantially revised third edition of the leading text on political ideologies takes full account of the impact of the post-Cold War world order, the challenge of postmodernism, the advance of globalization, and the advent of global terrorism, and includes additional coverage of the prospects for ideologies in the 21st century. Inspired by Freud's The Psychopathology of Everyday Life, this book examines the unconscious processes shaping contemporary political ideologies. Addressing ten fundamental questions, Robert Samuels identifies four basic political ideologies: liberal, conservative, Left, and Right, which are often placed in the structure of a logical square, determined by two binary oppositions, with a fifth structure of centrism complicating the square. He turns to psychoanalysis to explain the unconscious defense mechanisms that structure these political ideologies. Each chapter uses a recent, influential title as a gateway to the analysis of the ideologies and structures identified. Through this analysis, Samuels argues that belief in ideological structures is tied to triumvirates of institutions and ideals; conservatives being tied to premodern institutions of religion, feudalism, and monarchy, while modern liberals are tied to ideals of universality, objectivity, and empiricism. He concludes that this investment in universality shapes the ethics of modern globalization and democratic liberalism. Unlike other books, conclusions are reinforced through examples drawn from current events with an integrated model of different psychopathologies. The Psychopathology of Political Ideologies moves beyond providing an understanding of what drives different political investments, to offer a more rational and conscious comprehension of subjectivity and social organization. This book will be a great resource for those interested in politics, political science psychology, social psychology, globalization, and ideology. Political Ideologies and Political Parties in America puts ideology front and center in the discussion of party coalition change. Treating ideology as neither a nuisance nor a given, the analysis describes the development of the modern liberal and conservative ideologies that form the basis of our modern political parties. Hans Noel shows that liberalism and conservatism emerged as important forces independent of existing political parties. These ideologies then reshaped parties in their own image. Modern polarization can thus be explained as the natural outcome of living in a period, perhaps the first in our history, in which two dominant ideologies have captured the two dominant political parties. A clear and accessible introduction to the political creeds and doctrines that have dominated and shaped world politics. The fifth edition has been thoroughly updated throughout and now has more on the influence of globalization on ideology and a new-look page design to aid student learning. This is a completely new edition of a widely used, concise and readable textbook. Political Ideologies contains chapters on liberalism, conservatism, nationalism, fascism, socialism, democracy, feminism and ecologism. It also includes a wide-ranging introduction looking at the role of ideology from Bacon to Fukuyama. Each chapter analyses the principal ideas and concepts of each ideology, distinguishing it from rival doctrines; sets each ideology clearly within its historical and political context; and provides an annotated guide to further reading. The book is written in a clear and accessible style, introducing students to the complexities of political ideas. Those approaching the subject for the first time will find Political Ideologies an informative and engaging introduction. The book offers an accessible and very comprehensive survey of the major ideas and concepts encountered in politics. Each chapter discusses a cluster of related terms, exploring how they have been used by different thinkers and traditions, and examining the debates and controversies that have sprung up around them. Lucidly written and clearly structured, the book provides an ideal introduction to politics and political theory. Brief and accessible, Political Ideologies follows the evolution of political thought over 300 years. Organized chronologically, this text examines each major ideology within a political, historical, economic, and social context. Leon Baradat's skillful prose ensures that students obtain a clear understanding of how ideas are influencing the political realities of our time. Ranging from traditional nineteenth-century ideologies such as liberalism, conservatism and socialism, to so-called 'new' ideologies such as feminism and green ideology, the author offers a clear exposition of both the historical development of each ideology and the impact they have had on contemporary political movements, parties and governments. Their

distinctive ideas and values are highlighted, together with the competing, and sometimes conflicting, traditions which each have generated. For many people, the world of politics is defined by ideologies. The average voter rarely takes time to research a policy issue, thoroughly relying instead on a set of beliefs set forth by his or her chosen political organization to make important decisions. These publicly promoted ideologies play an important role in international as well as domestic political development, yet many adherents to a particular belief may have a poor understanding of competing ideologies. From right wing to the far left, this text dissects eight prominent political ideologies: traditional conservatism, classic liberalism, libertarianism, conservative extremism, contemporary liberalism, communism, dependency theory and Islamism. In plain terms it describes the basic doctrine and inherent contradictions of each creed along with its particular relevance to today's political landscape. An in-depth discussion of the political socialization processes that form and perpetuate ideologies is also included. Instructors considering this book for use in a course may request an examination copy here. This leading text provides a concise and broad-ranging introduction to the contemporary study of political theory. Each chapter discusses a cluster of interrelated concepts and examines how they have been used by different thinkers and traditions and explores related debates and controversies. The fourth edition of this highly successful and accessible book has been substantially revised and updated and includes extra attention throughout to non-Western approaches and international political theory. Systematically covering the foundational concepts that have focused debate from Aristotle, Rousseau, Marx and Mill to the present day, this is essential reading for undergraduate and postgraduate courses on political thought and political philosophy. With increased discussion of the global dimensions of political thought it will appeal to an international audience, as well as to those lecturers interested in broadening their students' horizons. New to this Edition: - Increased coverage throughout of non-Western and post-colonial approaches, with Beyond the West features on Islamic, Buddhist, Chinese, Indian, African, Latin American and other traditions - Takes the blurring divisions between Politics and International Relations into account, for instance through a new chapter on Security, War and World Order - Thinking Globally boxes, and added discussions of transnationalism and cosmopolitanism - Additional attention is paid to issues of identity and diversity to address contemporary political developments This informative and widely-used text is now available in a third edition. Building on the success of previous editions, it continues to provide a clear and accessible introduction to the complexities of political ideologies. The latest edition of Political Ideologies: introduces and considers the future of all the most widely studied ideologies: liberalism; conservatism; socialism; democracy; nationalism; fascism; ecologism and feminism sets each ideology clearly within its historical and political context includes a new final chapter that examines the impact of recent theoretical developments of ideologies and charts the challenges that they face in the twenty-first century has been fully revised and up-dated and provides an annotated guide for further reading. "This book provides an engaging and intellectually challenging introduction to political ideologies, while at the same time giving an accessible route into the subject for those new to politics. Supported by an outstanding companion website, it has strong claims to be the best undergraduate textbook on ideologies on the market." Dr. Mike Gough, University of East Anglia Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate. Introduction to Political Theory relates political ideas to political realities through effective use of examples and cases studies making theory lively, contentious and relevant. This thoroughly revised and updated second edition contains new chapters on global justice and political violence, as well as an expanded treatment of globalisation and the state. A wide range of pedagogical features helps to clarify, extend and apply students' understanding of the fundamental ideologies and concepts. This is comprised of: · Case studies demonstrate how political ideas, concepts and issues manifest in the real world · 'Focus' boxes encourage students to appreciate alternative viewpoints · A range of thought provoking photographs challenge students to examine concepts from a different angle · Suggestions for further reading and weblinks are also provided to help students to further their understanding Introduction to Political Theory is accompanied by an innovative website with multiple choice questions, biographies of key figures in political theory, further case studies and an innovative 'how to read' feature which helps students get to grips with difficult primary texts.
