The top-selling teacher resource line, The 100+ Series(TM) features over 100 reproducible activities in each book! Amazing, interesting, and fun-filled facts are among the building blocks used in the development of these high-interest readings that apply to the everyday lives of students. The wide range of readings and activities were designed to strengthen student comprehension skills that include following directions, drawing conclusions, visualizing, summarizing, sequencing, categorizing, using context clues, and Venn diagrams. A great, reproducible supplement to your classroom reading curriculum! High Interest — Low Vocabulary is a series of seven exciting and interesting titles that provide a framework for a new approach to reading. Titles included in this novel study are Cam Jansen and the Mystery of the Dinosaur Bones, Karen's Christmas Tree, The Mystery of the Missing Cat, Night of the Ninjas, Someone is Following Pip Ramsay, Dragons Don't Cook Pizza, and Werewolves Don't Go To Summer Camp. Comprehension is the main focus, with multiple choice questions designed to ensure students understand what they are reading. The format of these stories is perfect for reluctant readers and is sure to keep students motivated to read. Our Novel Studies provide a teacher and student section with a variety of activities, discussion questions and answer key to create a well-rounded lesson plan. How Giggle Poetry Reading Lessons Turn Struggling Readers into Happy Readers — For Grades 2-5. Many struggling readers are embarrassed to read aloud. They are often intimidated or bored by texts that conventional programs require them to practice. So, instead of catching up, they fall further behind. Currently 67% of American fourth graders can't read grade-level text. Reading specialist Amy Buswell has spent eight years looking for remediation methods

that work. "What is needed," Buswell explains, "is a program that improves the motivation of struggling readers, because that accounts for 90% of the problem." Four years ago, Buswell came up with a brainstorm. She knew her best readers enjoyed reading Bruce Lansky's poetry books for pleasure. The more poems they read, the better their reading got. Why not use Lansky's kid-tested poems as texts struggling readers could practice on to improve their reading—using six research-based strategies: choral reading, echo reading, paired reading, repeated reading, sustained silent reading and "say it like the character" reading. — This book is the result of that brainstorm and the resulting collaboration between Buswell and Lansky. It gives teachers and parents everything they need to help children improve their reading: -35 kid-tested poems by Bruce Lansky -35 customized reading lessons by Amy Buswell -35 off-the-wall illustrations by Stephen Carpenter -35 sets of zany performance tips by Bruce Lansky ...all of which is designed to make the process of reading improvement more like fun than work. — What Amy Buswell and Bruce Lansky have created is the most entertaining fluency intervention ever. That's why it is so successful at overcoming negative attitudes to improve reading skills and scores. Ninety-five percent of participating students made significant improvement in their fluency (reading rate). And average reading scores on the Florida Comprehensive Assessment Test (FCAT) for Buswell's school raised her school's rating to an A for the first time. In 2011, Buswell's school achieved one of the highest-percentage reading gains in the county. — There's no reason parents can't get in on the fun, too. Parents will enjoy Lansky's funny poems and Stephen Carpenter's delightful illustrations as much as their children. By reading the poems with their children and encouraging their children to try some of Lansky's entertaining performance tips (by adding gestures, sound effects, props and finding additional readers: be they friends, family or neighbors), they can dramatically speed up their child's reading progress (and have lots of fun in the process.) "Fluency is an important part of comprehension, but how can teachers make sure they're providing the support that all readers need? This resource will provide fluency support for all students, including disfluent readers. Chapters are included on RTI Tiers, assessment and ways to integrate technology"-- Each deck of Show What You Know® on STAAR, Reading Flash Cards includes 90+ cards. The front of each flash card presents a question aligned to one of the TEKS, as well as a correlation in the top left corner. On the back of each multiple choice question, the correct answer is given along with an analysis explaining why each choice is correct or incorrect. Enter into the world of reading with *My Very First I Can Read!* This comprehensive emergent reading program addresses all the components of reading mastery based on the latest early literacy research. Leveled books are now recognized as an essential tool in helping beginning readers learn to read. But once students have mastered many basic decoding and comprehension strategies, they move into a period of transition as readers. Transitional readers, with their diverse needs, have always challenged and delighted teachers in the upper-elementary grades. These readers have mastered many skills but are not yet able to choose books and sustain reading independently in a wide variety of genres. This book takes a close look at the way classroom routines, small-group instruction, mini-lessons, and conversations can help students move toward independence. Text levels are an effective tool for helping teachers match books with readers, but transitional readers can also benefit from the additional perspective that enables teachers to recognize the supports that texts have to offer. *Beyond Leveled Books* asks teachers to explore beyond levels and to look closely at the "supports" in the books they are reading with their students. These text supports include the way chapters are organized, text layout, dialogue, and more. Series books, chapter books, and picture books will take on new roles in upper-elementary reading instruction. Organized in charts and bibliographies, *Beyond Leveled Books* includes many examples of text supports from books commonly used by grades 2-5 teachers. This book provides teachers with: examples of classroom instruction for transitional readers; sample mini-lessons; strategies for grouping students for small-group instruction; assessment techniques; samples of student work; resources for working with parents; lists of suggested books for instruction. *Beyond Leveled Books* invites teachers to examine the characteristics and needs of transitional readers and provides instructional tools that will help students become strategic, independent readers. Each deck of *Show What You Know®* on the Common Core Reading Flash Cards includes 90+ cards. The front of each flash card presents a question aligned to a Common Core standard, which is noted on the top-left corner of the card. On the back of each card, the correct answer to the multiple-choice question is given along with an analysis explaining why each choice is correct or incorrect.
