It's a Question of Space Nov 25 2022 Having spent over 150 days on his first tour of the International Space Station, it's safe to say that Clayton C. Anderson knows a thing or two about space travel. Now retired and affectionately known as "Astro Clay" by his many admirers on social media and the Internet, Anderson has fielded thousands of questions over the years about spaceflight, living in space, and what it's like to be an astronaut. Written with honesty and razor-sharp wit, *It's a Question of Space* gathers Anderson's often humorous answers to these questions and more in a book that will beguile young adults and space buffs alike. Covering topics as intriguing as walking in space, what astronauts are supposed to do when they see UFOs, and what role astronauts play in espionage, Anderson's book is written in an accessible question-and-answer format that covers nearly all aspects of life in space imaginable. From living in zero gravity to going to the bathroom up there, *It's a Question of Space* leaves no stone unturned in this witty firsthand account of life as an astronaut.

Immigration and Education Aug 22 2022 The level of immigration to the United States has never been higher, with more than a million immigrants, legal and illegal, entering every year. This massive, new immigration, dominated by people from Latin America and Asia, is placing unique demands upon schools, colleges, vocational training centers, and adult education agencies. David Stewart illustrates that the root of these difficulties lies in the absence of coordination between the federal government's immigration policy and related education policies at the federal, state, and local levels.
