The life of one man has perhaps never been the centre of such passionate debate as with the case of Jesus the Messiah, peace be upon him. While some consider him imposter, others believe he was saved from being hung on the cross by ascending into the heavens physically. In this book, with compelling testimony, Mirza Ghulam Ahmad, peace be upon him, presents the true and accurate biographical findings on the life of Jesus. He argues with conclusive historical evidence that Jesus survived the crucifixion and travelled to Kashmir, India, where he died at the ripe age of 120. Toward the end of this treatise the author also sheds light on a prophecy regarding Muhammad Husain of Batala and the purpose of a prayer-duel with the same. There is no question that women are called upon to make a variety of sacrifices during the course of their reproductive lives. Dealing with the physical, emotional and psychological demands of the monthly reproductive cycle, of pregnancy and of childrearing can prove exhausting for many--especially when coupled with the rigors of managing a home and full time employment outside the home. So why is it that these same women have been asked--and at times, required--to make health care choices which further compromise their overall wellbeing--while men--their partners and soulmates--are left with little or no responsibility for such issues as STD prevention and birth control? In a guidebook tailored for both women and men, a seasoned doctor combines facts and advice relevant to women and their families that will empower them to make informed decisions about future health care. Dr. John Littell, a family physician with more than twenty-five years of experience that includes obstetrics and gynecology, shares valuable insight about controversial issues in women's health care that range from HPV vaccination in children to the diagnosis and treatment of HPV-related disease to the numerous choices related to contraception and family planning. With an emphasis on natural options, Dr. Littell includes guidance and case studies related to common gynecologic health issues encountered by teenagers and women throughout their reproductive lives while exposing much of the deception in women's health care today. Greer unveils the actual contact experiences he has had with UFOs and extraterrestrial civilizations, beginning as a young child. Following a prolonged near-death experience at age 17, Greer explains that he experienced cosmic consciousness and found the Rosetta Stone of ET contact -- the power of the unbounded mind within each of us -- that is responsible for much of the work being done by the CSETI (Center for the Study of Extraterrestrial Intelligence) project. This Is A New Release Of The Original 1919 Edition. A COVER-UP OF BIBLICAL PROPORTIONS... Centuries ago, English translators perpetrated a fraud in the New Testament, and it's been purposely hidden and covered up ever since. Your own Bible is probably included in the cover-up! In this book, which includes a study guide for personal or group use, John MacArthur unveils the essential and clarifying revelation that may be keeping you from a fulfilling—and correct—relationship with God. It's powerful. It's controversial. And with new eyes you'll see the riches of your salvation in a radically new way. What does it mean to be a Christian the way Jesus defined it? MacArthur says it all boils down to one word: SLAVE “We have been bought with a price. We belong to Christ. We are His own possession.” Endorsements: "Dr. John MacArthur is never afraid to tell the truth and in this book he does just that. The Christian's great privilege is to be the slave of Christ. Dr. MacArthur makes it clear that this is one of the Bible's most succinct ways of describing our discipleship. This is a powerful exposition of Scripture, a convincing corrective to shallow Christianity, a masterful work of pastoral encouragement...a devotional classic." - Dr. R. Albert Mohler, President, The Southern Baptist Theological Seminary "John MacArthur expertly and lucidly explains that Jesus frees us from bondage into a royal slavery that we might be His possession. Those who would be His children must, paradoxically, be willing to be His slaves." - Dr. R.C. Sproul "Dr. John MacArthur's teaching on 'slavery' resonates in the deepest recesses of my 'inner-man.' As an African-American pastor, I have been there. That is why the thought of someone writing about slavery as being a 'God-send' was the most ludicrous, unconscionable thing that I could have ever imagined...until I read this book. Now I see that becoming a slave is a biblical command, completely redefining the idea of freedom in Christ. I don't want to simply be a 'follower' or even just a 'servant'...but a 'slave'." - The Rev. Dr. Dallas H. Wilson, Jr., Vicar, St. John's Episcopal Chapel, Charleston, SC From the secret wisdom of Kabbalah, the Runes, and Numerology--an unprecedented guide to unlocking the hidden power of your name. Your name is not only your calling card, it also may determine how your life will unfold. Mystics have studied the energies associated with names for centuries, but The Hidden Truth of Your Name is the first book to synthesize their fascinating findings into one compelling resource--offering in-depth profiles of 750 American names. Created by a team of linguistic experts and specialists, this beguiling reference guides you through the illuminating intricacies of three ancient systems of divination--and shows you how to apply them to create a subtly nuanced portrait of any name you choose. - KABBALAH--This ancient Hebrew system of letter-and-number analysis helps you discover what the mathematics of your name adds up to in terms of work, relationships, and spiritual energies. - THE RUNES--The letters of this old northern European alphabet, for centuries an honored source of religious and magical values, open surprising windows to self-discovery and change. - NUMEROLOGY--The key numbers of your name contain potent truths about the positive and negative aspects of your true nature--and your destiny. Complete with the principle colors, gemstones, and herbs that harmonize with each name, this delightfully accessible book at last gives you the means to uncover the hidden truth and unique traits of your name. Jacob Rawlings, retired magistrate, fisherman and master story teller, transports his daughter and grandchildren to his days of working on smacks in the 1860s, fishing boats trawling the perilous and unpredictable sea. After a tragic accident claims the life of his father, Jacob's mother meets the unsavoury Thaddeus Stone. Jacob leaves home after many violent incidents ultimately come to a head. He meets fellow run away, Finbar McHugh who becomes his best friend as they embark on careers as fishing men; their ultimate goal to own their own smack. Luckily for them, they are mentored by a just and fair smack owner who provides invaluable support. Jacob grows into a fine young man, with good morals and a philanthropic mission to improve the lives and hidden suffering of young apprentices on fishing boats. WHAT DOES IT MEAN TO BE A CHRISTIAN THE WAY FIRST-CENTURY BELIEVERS DEFINED IT? As followers of Jesus, we call ourselves “Christians,” but the fact is this word only appears three times in the Bible. In the New Testament, you’ll find a host of terms that identify the followers of Jesus, but there is one metaphor used more frequently than any other. Slave. That’s right. The first Christians, having been galvanized by the words of Jesus, gave up everything and called themselves slaves of Christ. Now you can learn why this word best described early Christ-followers—and you’ll see how an understanding of this truth changes the way to follow Him now. This discovery will unveil the riches of your salvation in a radically new way. Now you or your group can use this study guide to drill down through each major concept in Dr. John MacArthur’s remarkable book Slave: REWIND. Look again at the important passages. RETHINK. Check all the angles. REFLECT. Consider how it affects you. REACT. Change your life. The gospel is not simply an invitation to become Christ’s associate or friend—it is a mandate to become His slave. Endorsements: “John MacArthur expertly and lucidly explains that Jesus frees us from bondage into a royal slavery that we might be His possession. Those who would be His children must, paradoxically, be willing to be His slaves.” —DR. R.C. SPROUL “In this new book, John MacArthur presents a powerfully riveting and truly eye-opening look at our relationship to the Lord Jesus. Want to rise to a new level of trust and confidence in your Master? Then this is the book for you!” —JONI EARECKSON TADA, Joni and Friends International Disability Center “Dr. John MacArthur’s teaching on ‘slavery’ resonates in the deepest recesses of my ‘inner-man’. An allegory is the expression of truths about human conduct and experience by means of symbolic fictional figures and actions. Such was the movie The Wizard of Oz, an allegory of the state of affairs we now live in today - an allegory of the unfolding New World Order that was instituted in America via the stock-market crash of 1929 and the bankruptcy of the United States in 1933. The setting of this allegory is in Kansas - the "heartland" of America; the geographical center of the U.S.A. In came the twister - the whirling confusion of the Great Depression, the stock-market crash, the U.S. bankruptcy, and the theft of America's gold - that whisked Dorothy and Toto up into the New Order of the World; an artificial new dimension "somewhere, over the rainbow," above the solid ground of Kansas. When they landed in Oz, Dorothy commented to her little dog Toto: "Toto? I have a feeling we're not in Kansas anymore . . ." Exactly!. I believe there is another realm of possibilities, a gateway to true human potentials and power. The book says that each human being is capable of achieving and living a life of fulfillment and happiness. I present in this book some few ideology, leaving you, the reader, to make your own final conclusions.. This book is about the mind of God, the mind of man, and the mind of robot. The mind of God is what I call the Universal Server (Uninet), and the mind of man the Global Server (Internet). God created man in his own image to carry out his will. Man also created the robot in his own image to carry out his will. The mind of the robot is the computer, and it connects to the mind of his creator, the mind of man, the global server (Internet) for information. While man connects to the mind of his creator, the mind of God, the Universal Server (Uninet) for information. While man is the son of God, the robot is the son of man. What you can do on the Internet, you can do on the Uninet. Just like man was created in the image of God, the Internet was created in the image of the Uninet. To connect to the Internet, one needs a service provider like AOL, Comcast, Starcomms, MTN, etc. And to connect to the Uninet, one also needs a service provider—Jesus Christ for the Christians, Mohamed for the Muslims, Buddha for the Buddhists, Krasner for the Indus, etc. This book is a fitting rendition of our simple day-to-day thoughts on inspiration and hope. Yet, the book excels as a lasting memorial for my husband, Martin Freier, and as a fourth sequel to the historical, biographical series, which begins with the first book, The Grayling Hidden Truth Poems. Originally written to express heartfelt interest in Martin's struggle for survival as a young man in Nazi Slovakia, the four books evolved into a mystical expression of fear, hope, and inspiration. Even though this truth is uniquely Martin's story, the composite effect of all of the books enlightens us to think what if I were Martin. This to me is the therapeutic, soothing effects of the powerful message of hope for peace and faith in oneself that is beaded into the wonder of words of these books. It has been my pleasure to relate these journeys of life to you. Excerpt from The Hidden Truth In placing before my thousands of Science friends the right thought series, my greatest motive and desire is to enlighten and help the honest seekers for Truth. Our great leader, Mary Baker Eddy, in defining the word Wilderness, wrote on page 597 of Science and Health as follows: Wilderness: Doubt, darkness. Spontaneity of thought and idea; the vestibule in which a material sense of things disappears, and spiritual sense unfolds the great facts of existence. We have all been in this same wilderness of doubt and mental darkness. Those of us who have emerged into the vestibule where spiritual sense unfolds the great facts of existence can, if we choose, light the way for our friends and thereby, perhaps, save them many heartaches. Millions of people each year decide to participate in clinical trials--medical research studies involving an innovative treatment for a medical problem. For the patient, such participation can sometimes be a life-saving choice. But it can also be just the opposite. Our country years ago adopted rules designed to assure that people are making informed choices about participation. This book explains the reality behind those rules: that our current system of clinical trials hides much of the information patients need to make the right choices. Witness the following scenarios: -Hundreds of patients with colon cancer undergo a new form of keyhole surgery at leading cancer centers--never being told that 85% of colorectal surgeons, worried that it increases the risk of the cancer returning, would not themselves undergo that procedure. -Tens of thousands of women at high risk of developing breast cancer are asked to participate in a major research study. They are told about the option of having both breasts surgically removed--but not told about the option of taking a standard osteoporosis pill that might cut the risk of getting breast cancer by one-half or more. What The Doctor Didn't Say, principally written by a nationally prominent expert, is the first book to reveal many heretofore hidden aspects about the true nature of participation in clinical trials. It shows why options not commonly known--including getting a new treatment outside of a research study--can often be the best choice. It explains how patients can make good decisions even if there is only limited information about a treatment's effect. And it does this through the eye-opening stories of what is happening daily to thousands of people. This book ends up confronting the fundamental dilemma of medical research: Participation in clinical trials plays a vital role in advancing knowledge, and many experts fear that if the information provided herein became widely known, fewer people would participate. But the authors demonstrate that there is no need to deceive people into participating in research. We can have a system that promotes participation while still providing truthful information to participants. They'll do anything to hide the truth. This inspiring book begins with a review of the most scientifically sound evidence from the fields of quantum physics, near death experiences, out of body experiences, reincarnation, and hypnosis-type contributions, including inter-life sessions, spirit guide interviews, and channeling. The evidence is presented in a convincing fashion, moving in a deliberate step-by-step tempo to show evidential agreement and substantial overlap between these separate fields of study. A skeptic himself, Wilson sought to present this overlapping, conclusive evidence in a logical flow so that fellow skeptics might reach the same conclusions concerning the nature of reality and the meaning of life.
