[Early Gothic Column-figure Sculpture in France](#) Jan 29 2020 "Richly illustrated, Early Gothic Column-Figure Sculpture in France is a comprehensive investigation of church portal sculpture installed between the 1130s and the 1170s. At more than twenty great churches, beginning at the Royal Abbey of Saint-Denis and extending around Paris from Provins in the east, south to Bourges and Dijon, and west to Chartres and Angers, larger than life-size statues of human figures were arranged along portal jambs, many carved as if wearing the dress of the highest ranks of French society. This study takes a close look at twelfth-century human figure sculpture, describing represented clothing, defining the language of textiles and dress that would have been legible in the twelfth-century, and investigating rationale and significance. The concepts conveyed through these extraordinary visual documents and the possible motivations of the patrons of portal programs with column-figures are examined through contemporaneous historical, textual, and visual evidence in various media. Appendices include analysis of sculpture production, and the transportation and fabrication in limestone from Paris. Janet Snyder's new study considers how patrons used sculpture to express and shape perceived reality, employing images of textiles and clothing that had political, economic, and social significances."--Provided by publisher.

Vile Days Apr 06 2023 Gary Indiana's collected columns of art criticism from the Village Voice, documenting, from the front lines, the 1980s New York art scene. In 1985, the Village Voice offered me a job as senior art critic. This made my life easier and lousy at the same time. I now had to actually enter all those galleries instead of peeking in the windows. At times, the only tangible perk was having the chump

for a fifth of vodka whenever twenty more phonies had flattered my ass off in the course of a working week. —from Vile Days From March 1985 through June 1988 in The Village Voice, Gary Indiana reimaged the weekly art column. Thirty years later, Vile Days brings together for the first time all of those vivid dispatches, too long stuck in archival limbo, so that the fire of Indiana's observations can burn again. In the midst of Reaganism, the grim toll of AIDS, and the frequent jingoism of postmodern theory, Indiana found a way to be the moment's Baudelaire. He turned the art review into a chronicle of life under siege. As a critic, Indiana combines his novelistic and theatrical gifts with a startling political acumen to assess art and the unruly environments that give it context. No one was better positioned to elucidate the work of key artists at crucial junctures of their early careers, from Sherrie Levine and Richard Prince to Jeff Koons and Cindy Sherman, among others. But Indiana also remained alert to the aesthetic consequence of sumo wrestling, flower shows, public art, corporate galleries, and furniture design. Edited and prefaced by Bruce Hainley, Vile Days provides an opportunity to track Indiana's emergence as one of the most prescient writers of his generation.

My Life in a Column Feb 04 2023 An anthology of pieces artist Tracey Emin wrote for The Independent newspaper in London, a weekly column that ran between 2005 and 2009, that touch on everything from the themes behind her work to her process, inspirations, and her alternately humorous and profound observations of daily life. Moving from diatribes on contemporary art and culture to confessional pieces chronicling her travels abroad and reflecting on her private life in London, the columns bring together elements of essay and diary that present a unique perspective on life and the work of the queen of the young British artists.

The Column and the Arch Essays on Architectural History Aug 18 2021 Excerpt from The Column and the Arch Essays on Architectural History: With Illustrations Some of these essays have been already printed, and I have to thank the proprietors of the American Architect and the Architectural Record for permission to repeat them here; others of them appear now for the first time. I have brought them together with the

wish to trace in sequence the main thread that binds the successive phases of European architecture, and the evolution of the two leading features of its forms, the classic order and the arch. I have passed by the Byzantine style because it was a collateral development, and outside the cycle which, beginning with Greek architecture, returned upon itself in the Renaissance. For a like reason I have touched but lightly on the Gothic, a splendid growth that structurally was the completion of the Romanesque, but, as a matter of form, was hors de ligne, like the Byzantine, and like it had no successor; for the logical predecessor of the Renaissance was the Romanesque, and the development of the older forms was finished when that merged in the pointed Gothic. I'll Always Have Paris Dec 22 2021 "ART BUCHWALD DOES IT AGAIN. . . . A GREAT READ." --Larry King, USA Today In 1948, an American innocent named Art Buchwald set sail for Paris, France, determined to crash Hemingway's moveable feast and make himself famous. What's more, he did it. Now he remembers those golden years--when he wrote for the Paris Herald Tribune, fell in love, spoofed Hemingway, dined with gangsters, and crashed costume balls in Venice. Everything that has made Buchwald one of the world's best-loved writers is in this funny, enchanting, poignant book. "HONEST AND MOVING . . . A CONSUMMATE STORYTELLER." --The New York Times Book Review "ROLLICKING . . . The book gallops and gambols along. . . . Buchwald is a master of the anecdote." --The Baltimore Sun
