In his bestselling book *The Case for Christ*, Lee Strobel retraced his spiritual journey from atheism to faith by showing how the evidence he obtained from experts in the field of history, archaeology, and ancient manuscripts led him to the verdict that Jesus truly was the Son of God. Now, in this four-week study for Easter (DVD/digital downloads sold separately), Lee investigates the story surrounding the resurrection of Jesus—and how we can know that it is true. In each session, he will explore the following aspects of the Easter

story: What the Gospel accounts actually say about Jesus' death and resurrection, how we can reconcile the discrepancies between the accounts, and how we can know the biblical accounts are accurate How we can use a technique known as "five minimal facts"—facts on which even skeptical scholars agree are true—and medical evidence to build a strong case for Jesus' resurrection What the evidence in the Gospels reveals about the Jesus' tomb being empty, why the Gospel writers are credible when they make this claim, and what this evidence leads us to conclude Who the Bible states witnessed Jesus being alive after the crucifixion, how early creeds emerged that stated Jesus was alive, and how it's clear the early church carried on this teaching The Case for Easter invites participants to examine the evidence for themselves and consider whether the story of Jesus' resurrection makes sense. It will point them to the inescapable conclusion that led Lee from atheism to Christianity: Jesus was the Son of God who conquered the grave. In this volume of The New Church's Teaching Series, Stephen Holmgren introduces us to the world of Anglican ethics and moral theology. He focuses on questions all people of faith must ask: How will I keep my baptismal promises? How am I meant to live "after Easter?" In developing a distinctively Anglican approach to ethics, with its emphasis on holiness, sanctification, and the need for spiritual disciplines, Holmgren identifies clear axioms for Anglican moral theology and the ethos required for moral decision-making on the part of individuals and church bodies. He explains why ethical reflection is not the same as church governance, and why the institution cannot "make" its moral theology. Holmgren also discusses the role of conscience and reason, the work of moral discernment, the difference between moral knowledge and saving knowledge, the meaning of natural law, and the high value Anglicans place on consensus. The final chapter provides a methodology for building a moral case in Christian ethics, specifically on Christian involvement with war and violence. As with each book in The New Church's Teaching Series, recommended resources for further reading and questions for discussion are included.
