This book looks at the industrial policies of Southeast Asian economies in their motor vehicle industries from early import substitution to policy-making under the more liberalised WTO policy regime. The book examines how inward automotive investment, especially from Japan, has been affected by policies, and how such investment has promoted industrial development in the late-industrialising economies within ASEAN (Association of Southeast Asian Nations). It provides insights into the automotive industry of Southeast Asia in terms of production volumes, sales volumes, market structure, and trade. Through country case studies, the book is a useful reference and illustrates how industrial policies in Southeast Asia have affected the spread of automotive development in the region. It will appeal to policy-makers and researchers interested in the automobile industry, industrial policies in the industry and the spread of development from foreign investors to local firms. Singapore's best homegrown car magazine, with an editorial dream team driving it. We fuel the need for speed! Hai, Darling! Ianya adalah sebuah artikel sketsa rumah tangga khas ditujukan buat pasangan veteran atau otai seperti saya. Pasangan veteran yang bersungguh-sungguh berusaha memeriahkan dan menyuntik semula nilai-nilai romantis yang kian pupus dan menipis dalam rumah tangga. Zaman awal perkahwinan "Hai Darling!", "Sayanggg", "I love you" dan sebagainya sentiasa basah dibibir, tetapi bila dah punyai anak dan anak-anak semakin membesar, bait-bait menggetar sukma tersebut semakin menyepi dari bibir kita. Masalahnya, bila ada cubaan dari pasangan veteran ini untuk menghangatkan semula istilah ini, ianya pantas disalah ertikan pula. Buang tabiatlah, orang tua gatal lah, tak sedar dirilah dan sebagainya. Kononnya istilah tersebut hanya layak didendang oleh pasangan muda nan jelita sahaja. In every respect, this is an exact reprint of the famous Army Field Manual 31-20. are some of the major factors leading to the progressive deterioration of air quality in developing countries in Asia. And despite efforts to establish and implement air quality measurement systems, the development of infrastructure, environmental technology, and management practices continues to lag behind the rate of emission increase. Based on ten years of coordinated research, *Integrated Air Quality Management: Asian Case Studies* discusses technical and policy tools for the integrated air quality management of developing countries in Asia. The book begins with an overview of major issues of air quality management practices in developing Asia and potential approaches to reduce pollution, including opportunities for integration of air quality improvement and climate migration strategies. It covers the methodology and results of fine particulate matter monitoring using traditional filter-based and satellite monitoring techniques. It examines the applications of a 3D dispersion modeling tool for urban and regional air quality management focusing on surface ozone, fine particulate matter, and acid deposition. The final chapters discuss innovative control technologies for gaseous air pollutants and illustrate the integrated air quality management in developing Asia through case studies for target source categories including agricultural residue field burning, vehicle emissions, brick kilns, and industrial VOC emission. Illustrated with case studies, this book presents an integrated air quality management methodology that employs technical and policy tools to achieve air quality goals. It includes technical information and policy recommendations based on the outcomes of several multi-year air quality research programs coordinated by the Asian Institute of Technology. The text combines fundamental information and advanced knowledge useful to large audiences dealing with subjects of integrated air quality management.
