

Read Book To Kill The President The Most Explosive Thriller Of The Year Pdf For Free

A Compilation of the Messages and Papers of the Presidents Jan 01 2022

The President Sep 09 2022 Originally published in 1995, *The President* reads like today's newspaper. Midway through his term, a secular humanist President becomes a Christian and has to decide how his new worldview must change his policies. His wife, children, siblings, staff and the entire nation grapple with how his new faith informs his actions. Meanwhile, terrorists are plotting to detonate a nuclear warhead in New York. The many strands of the story all come together in Manhattan as the terrorists use the World Trade Towers to launch their attack, the center of action is a place called Ground Zero and one of the characters yells, "Let's Roll" near the end. *The President* is a gripping action thriller with a strong Christian message for the individual and the nation.

Economic Report of the President Transmitted to the Congress Sep 16 2020

The President, Vice President, and Cabinet Apr 23 2021 Explains the functions of the executive branch of the United States government.

Under This Roof Mar 03 2022 "Like taking a tour of the White House with a gifted storyteller at your side!" Why, in the minutes before John F. Kennedy was murdered, was a blood-red carpet installed in the Oval Office? If Abraham Lincoln never slept in the Lincoln Bedroom, where did he sleep? Why was one president nearly killed in the White House on inauguration day—and another secretly sworn in? What really happened in the Situation Room on September 11, 2001? History leaps off the page in this "riveting," "fast-moving" and "highly entertaining" book on the presidency and White House in *Under This Roof*, from award-winning White House-based journalist Paul Brandus. Reporting from the West Wing briefing room since 2008, Brandus—the most followed White House journalist on Twitter (@WestWingReport)—weaves together stories of the presidents, their families, the events of their time—and an oft-ignored major character, the White House itself. From George Washington—who selected the winning design for the White House—to the current occupant, Barack Obama—the story of the White House is the story of America itself, Brandus writes. You'll: Walk with John Adams through the still-unfinished mansion, and watch Thomas Jefferson plot to buy the Louisiana Territory Feel the fear and panic as British invaders approach the mansion in 1814—and Dolley Madison frantically saves a painting of Washington Gaze out the window with Abraham Lincoln as Confederate flags flutter in the breeze on the other side of the Potomac Be in the room as one president is secretly sworn in, and another gambles away the White House china in a card game Stand by the presidential bed as one First Lady—covering up her husband's illness from the nation—secretly makes decisions on his behalf Learn how telephones, movies, radio, TV changed the presidency—and the nation itself Through triumph and tragedy, boom and bust, secrets and scandals, Brandus takes you to the presidential bedroom, movie theater, Situation Room, Oval Office and more. *Under This Roof* is a "sensuous account of the history of both the home of the President, and the men and women who designed, inhabited, and decorated it. Paul Brandus captivates with surprising, gloriously raw observations."

The President Jun 18 2023

A Garden for the President Aug 16 2020 Released to coincide with the centennial of the National Park Service this new and comprehensive illustrated history of the White House grounds is presented in four parts: I: An introduction to the site with a discussion of the relationship between the house and its landscape. II: A geographical survey of the grounds and gardens beginning with the North and continuing to the East, South, and West. III: The story of how the gardens have been used through time including public access; first family recreation and entertaining; agricultural uses; and wartime uses, such as the troop encampment during the Civil War. And IV: A look at what has been grown on the grounds including the history of the greenhouses, flowers and ornamental gardening, and the trees. Insets will feature commemorative trees planted by presidents and specific stories of the specimen trees.

The President, Vice President, and Cabinet Jul 27 2021 What is the executive branch? It's the part of government that's led by our president. But who else is part of the executive branch? And just what does this branch do? Read this book to find out.

The Addresses and Messages of the Presidents of the United States, Inaugural, Annual, and Special, from 1789 to 1849 Apr 04 2022

Presidents Fact Book Revised and Updated! Oct 10 2022 An All-New Edition! The *Presidents Fact Book* is a complete compendium of all things presidential and a sweeping survey of American history through the biographical lens of every president from George Washington through Donald Trump. Organized chronologically by president, each entry covers the major accomplishments and events of the presidential term; cabinet members, election results, groundbreaking legislation, and Supreme Court appointments; personality and personal habits; career before the presidency; a behind-the-scenes look at the wives, families, friends, and foes; and much more, including hobbies, odd behaviors, and outlandish penchants. Major primary documents from each administration—from the Bill of Rights to Barack Obama's speech on race in America—provide a glimpse into the crucial moments of America's storied past in the words of those who led the nation. Perfect for students, history buffs, and political junkies, *The President's Fact Book* is at once an expansive collage of our nation's 45 individual presidents and a comprehensive view of American history.

Taking Heat Nov 11 2022 The early years of the twenty-first century were a tumultuous time in America. The country faced a hotly contested presidential election, the largest terrorist attack in the nation's history, and the early stages of war. Through it all, President George W. Bush surrounded himself with a handful of close advisers. During this time the man beside the President was Ari Fleischer, his press secretary and one of his most trusted confidants. In this role, Fleischer was present for every decision and became an eyewitness to history. In this riveting account, Fleischer goes behind the scenes as he recalls his experiences in the West Wing. Through the ups and downs of this time, he took the heat, fielded the questions, and brought the President's message into living rooms around the world. In *Taking Heat*, Fleischer, for the first time, gives his perspective on: The 2000 election, from the recounts to the transition to power September 11, 2001, its aftermath, and the anthrax scare The pressure-filled buildup to the war in Iraq and the President's thoughts as the war began Life in the White House, from learning to adjust to the pace of the West Wing and his early briefings to his relationship with the press The White House press corps, who they are, and how they report the news The factors that led to his decision to leave Washington behind. This is the story of the men and women of the White House press corps and the cornerstones of democracy: freedom of speech and the freedom of the press. Fleischer presents an in-depth, insider's view on the Washington political arena from a perspective few have seen. Fleischer writes of his belief that the press has a bias in Washington. It's not a question of partisanship or press-driven ideology. Instead, it's a focus on conflict, particularly if it's a conflict they can attach to the President. It's the nature of the White House press corps, regardless of who's in power. The members of the White House press corps are masters at being devil's advocate, able to take with passion the opposite side of whatever issue the President supports. Fleischer's job

was to calmly field their questions, no matter how pointed. *Taking Heat* is an introspective exploration of the top political events in the first half of the Bush administration, as well as the candid observations of a professional who stood in the bright lights of the world stage.

The President Who Would Not Be King Oct 18 2020 Vital perspectives for the divided Trump era on what the Constitution's framers intended when they defined the extent—and limits—of presidential power One of the most vexing questions for the framers of the Constitution was how to create a vigorous and independent executive without making him king. In today's divided public square, presidential power has never been more contested. *The President Who Would Not Be King* cuts through the partisan rancor to reveal what the Constitution really tells us about the powers of the president. Michael McConnell provides a comprehensive account of the drafting of presidential powers. Because the framers met behind closed doors and left no records of their deliberations, close attention must be given to their successive drafts. McConnell shows how the framers worked from a mental list of the powers of the British monarch, and consciously decided which powers to strip from the presidency to avoid tyranny. He examines each of these powers in turn, explaining how they were understood at the time of the founding, and goes on to provide a framework for evaluating separation of powers claims, distinguishing between powers that are subject to congressional control and those in which the president has full discretion. Based on the Tanner Lectures at Princeton University, *The President Who Would Not Be King* restores the original vision of the framers, showing how the Constitution restrains the excesses of an imperial presidency while empowering the executive to govern effectively.

A Compilation of the Messages and Papers of the President, 1789-1908 May 25 2021

A Compilation of the Messages and Papers of the Presidents Feb 14 2023

The President Dec 20 2020 Explains the powers and duties of the president of the United States, and the procedure by which a new one is chosen every four years.

The President and the Assassin Jan 13 2023 A SWEEPING TALE OF TURN-OF-THE-CENTURY AMERICA AND THE IRRESISTIBLE FORCES THAT BROUGHT TWO MEN TOGETHER ONE FATEFUL DAY In 1901, as America tallied its gains from a period of unprecedented imperial expansion, an assassin's bullet shattered the nation's confidence. The shocking murder of President William McKinley threw into stark relief the emerging new world order of what would come to be known as the American Century. *The President and the Assassin* is the story of the momentous years leading up to that event, and of the very different paths that brought together two of the most compelling figures of the era: President William McKinley and Leon Czolgosz, the anarchist who murdered him. The two men seemed to live in eerily parallel Americas. McKinley was to his contemporaries an enigma, a president whose conflicted feelings about imperialism reflected the country's own. Under its popular Republican commander-in-chief, the United States was undergoing an uneasy transition from a simple agrarian society to an industrial powerhouse spreading its influence overseas by force of arms. Czolgosz was on the losing end of the economic changes taking place—a first-generation Polish immigrant and factory worker sickened by a government that seemed focused solely on making the rich richer. With a deft narrative hand, journalist Scott Miller chronicles how these two men, each pursuing what he considered the right and honorable path, collided in violence at the 1901 Pan-American Exposition in Buffalo, New York. Along the way, readers meet a veritable who's who of turn-of-the-century America: John Hay, McKinley's visionary secretary of state, whose diplomatic efforts paved the way for a half century of Western exploitation of China; Emma Goldman, the radical anarchist whose incendiary rhetoric inspired Czolgosz to dare the unthinkable; and Theodore Roosevelt, the vainglorious vice president whose 1898 charge up San Juan Hill in Cuba is but one of many thrilling military adventures recounted here. Rich with relevance to our own era, *The President and the Assassin* holds a mirror up to a fascinating period of upheaval when the titans of industry grew fat, speculators sought fortune abroad, and desperate souls turned to terrorism in a vain attempt to thwart the juggernaut of change. Praise for *The President and the Assassin* “[A] panoramic tour de force . . . Miller has a good eye, trained by years of journalism, for telling details and enriching anecdotes.”—*The Washington Independent Review of Books* “Even without the intrinsic draw of the 1901 presidential assassination that shapes its pages, Scott Miller's *The President and the Assassin* [is] absorbing reading. . . . What makes the book compelling is [that] so many circumstances and events of the earlier time have parallels in our own.”—*The Oregonian* “A marvelous work of history, wonderfully written.”—Fareed Zakaria, author of *The Post-American World* “A real triumph.”—*BookPage* “Fast-moving and richly detailed.”—*The Buffalo News* “[A] compelling read.”—*The Boston Globe* One of *Newsweek*'s 10 Must-Read Summer Books

When the President Calls Jan 21 2021 Interviews with thirty-five economic policymakers who advised presidents from Nixon to Trump. What is it like to sit in the Oval Office and discuss policy with the president? To know that the decisions made will affect hundreds of millions of people? To know that the wrong advice could be calamitous? *When the President Calls* presents interviews with thirty-five economic policymakers who served presidents from Nixon to Trump. These officials worked in the executive branch in a variety of capacities—the Council of Economic Advisers, the Office of Management and Budget, the Department of the Treasury, and the National Economic Council—but all had direct access to the policymaking process and can offer insights about the difficult tradeoffs made on economic policy. The interviews shed new light, for example, on the thinking behind the Reagan tax cuts, the economic factors that cost George H. W. Bush a second term, the constraints facing policymakers during the financial crisis of 2008, the differences in work styles between Bill Clinton and Barack Obama, and the Trump administration's early budget process. *When the President Calls* offers a unique, behind-the-scenes perspective on US economic policymaking, with specific and personal detail—the turmoil, the personality clashes, the enormous pressure of trying to do the right thing while the clock is ticking. Interviews with Nicholas F. Brady, Lael Brainard, W. Michael Blumenthal, Michael J. Boskin, Stuart E. Eizenstat, Martin S. Feldstein, Stephen Friedman, Jason Furman, Austan D. Goolsbee, Alan Greenspan, Kevin A. Hassett, R. Glenn Hubbard, Alan B. Krueger, Arthur B. Laffer, Edward P. Lazear, Jacob J. Lew, N. Gregory Mankiw, David C. Mulford, John Michael Mulvaney, Paul H. O'Neill, Peter R. Orszag, Henry M. Paulson, Alice M. Rivlin, Harvey S. Rosen, Robert E. Rubin, George P. Shultz, Charles L. Schultze, John W. Snow, Gene B. Sperling, Joseph E. Stiglitz, Lawrence H. Summers, John B. Taylor, Paul A. Volcker, Murray L. Weidenbaum, Janet L. Yellen

Presidential Messages and State Papers Oct 30 2021

The Professor and the President Apr 11 2020 What happens when a conservative president makes a liberal professor from the Ivy League his top urban affairs adviser? The president is Richard Nixon, the professor is Harvard's Daniel Patrick Moynihan. Of all the odd couples in American public life, they are probably the oddest. Add another Ivy League professor to the White House staff when Nixon appoints Columbia's Arthur Burns, a conservative economist, as domestic policy adviser. The year is 1969, and what follows behind closed doors is a passionate debate of conflicting ideologies and personalities. Who won? How? Why? Now nearly a half-century later, Stephen Hess, who was Nixon's biographer and Moynihan's deputy, recounts this fascinating story as if from his office in the West Wing. Daniel Patrick Moynihan (1927–2003) described in the *Almanac of American Politics* as "the nation's best thinker among politicians since Lincoln and its best politician among thinkers since Jefferson", served in the administrations of four presidents, was ambassador to India, and U.S. representative to the United Nations, and was four times elected to the U.S. Senate from New York. Praise for the works of Stephen Hess *Organizing the Presidency* Any president would benefit from reading Mr. Hess's analysis and any reader will enjoy the elegance with which it is written and the author's

wide knowledge and good sense. -The Economist The Presidential Campaign Hess brings not only first-rate credentials, but a cool, dispassionate perspective, an incisive analytical approach, and a willingness to stick his neck out in making judgments. -American Political Science Review From the Newwork Series It is not much in vogue to speak of things like the public trust, but thankfully Stephen Hess is old fashioned. He reminds us in this valuable and provocative book that journalism is a public trust, providing the basic information on which citizens in a democracy vote, or tune out. — Ken Auletta, The New Yorker

The Complete Book of U.S. Presidents Mar 23 2021 A ready reference guide to the presidents of the United States.

The Ordinary Presidency of Donald J. Trump Jun 25 2021 The presidency of Donald J. Trump is rather ordinary. Trump himself may be the most unusual, unorthodox and unconventional president the US has ever had. Yet, even with his extraordinary personality and approach to the job, his presidency is proving quite ordinary in its accomplishments and outcomes, both at home and abroad. Like most modern US presidents, the number and scope of Trump's achievements are rather meager. Despite dramatic claims to a revolution in US politics, Trump simply has not achieved very much. Trump's few policy achievements are also mostly mainstream Republican ones rather than the radical, anti-establishment, swamp-draining changes promised on the campaign trail. The populist insurgent who ran against Washington has followed a policy agenda largely in tune with conservative Republican traditions. *The Ordinary Presidency of Donald J. Trump* provides a detailed explanation for the discrepancy between Trump's extraordinary approach and the relative mediocrity of his achievements. Ironically, it is precisely Trump's extraordinariness as president that has helped render his presidency ordinary.

President as Leader Jul 19 2023 By analyzing the leadership skills of five recent American presidents, this book seeks to de-mystify the elements and dynamics of effective presidential leadership which our democracy has come to depend upon and value. Building on the pioneering work of political scientist Fred Greenstein and others, this book argues that leadership in the White House can be explained and assessed by using a consistent set of criteria to analyze presidential performance. Siegel shows that presidential leadership is exercised by real, flawed human beings, and not by superheroes or philosopher-kings beyond the reach of scrutiny or critique.

Public Papers of the Presidents of the United States Mar 15 2023

U.S. Presidents Homework Booklet, Grades 4 - 6 Jul 07 2022 In the *U.S. Presidents Homework Booklet* students learn fun and interesting facts about each of our 43 presidents. A profile for each president is followed by a puzzle which offers additional information about the featured leader. Additional pages about the duties of the president, the White House, and other related subjects are included to give students a comprehensive understanding of the executive office. Features: ~ A pull-out answer key in the center of the book to make checking answers quick and easy. ~ This book is intended to be completed by the student with little or no help from a parent or teacher, which makes it a great resource for use at home or school. Our extremely popular Homework Booklet series is a must have for any student! Great for reinforcing, reviewing, or teaching specific skills these booklets feature step-by-step practice drills with easy-to-understand directions and highlighted examples. With over 85 titles for children in preschool to high school and covering all key subjects including math, reading, social studies, grammar, foreign language, and more, students will find the extra practice they need to succeed in all subjects! Help your student today and collect all the titles in this amazing series

The President Is a Sick Man Sep 28 2021 An extraordinary yet almost unknown chapter in American history is revealed in this extensively researched expose. On July 1, 1893, President Grover Cleveland boarded a friend's yacht and was not heard from for five days. During that time, a team of doctors removed a cancerous tumor from the president's palate along with much of his upper jaw. When an enterprising reporter named E. J. Edwards exposed the secret operation, Cleveland denied it and Edwards was consequently dismissed as a disgrace to journalism. Twenty-four years later, one of the president's doctors finally revealed the incredible truth, but many Americans simply would not believe it. After all, Grover Cleveland's political career was built upon honesty--his most memorable quote was "Tell the truth"--so it was nearly impossible to believe he was involved in such a brazen cover-up. This is the first full account of the disappearance of Grover Cleveland during that summer more than a century ago.

The President of the Jungle Feb 02 2022 In this fabulous and funny introduction to how elections work, the animals decide they are tired of their king and that it is time to vote for a president. Lion may be King of the jungle, but lately he only seems to care about himself. His subjects are fed up, so they decide to try something new--hold an election! Once Owl explains the rules, the fun begins, and Snake, Sloth, and Monkey all announce they will be candidates. But oh no, Lion is going to run too! It's a wild campaign season as the animals hold rallies, debate, and even take a selfie or two, trying to prove why they'd make the best president of the jungle. This funny, non-partisan story features lively illustrations, a helpful glossary, and colorful characters who have an infectious enthusiasm for the election process.

The Abridgment ... Containing the Annual Message of the President of the United States to the Two Houses of Congress ... with Reports of Departments and Selections from Accompanying Papers Jun 13 2020

Selling of the President Jul 15 2020

A Staff for the President Nov 30 2021 Sander chronicles changes in the Executive Office of the President (EOP) paralleling change and expansion in the federal government, the executive branch, and the office of the president, from its inception to the end of the Truman administration. . . . In his intriguing analysis of the historical dialectic surrounding theoretical questions about EOP Sander shines, showing the multi-colored underwear of a gray-flannel organization. The EOP becomes the playing field of a dynamic contest among differing constitutional and theoretical views. Sander has written a book about what could be a dull and lifeless topic, and made it enjoyable. Choice The creation of a staff to aid the chief executive in his immense management task was a crucial element in the development of the modern presidency. Focusing on the period that witnessed the most extensive changes in the executive branch, this book traces the evolution of the executive office of the President, and looks at the complex ways in which this organization has affected both the president's role and the operation of the federal government. Sander explores the political and administrative issues raised by the creation of a separate corps of careerists serving the president and independent of the departments and concludes with an assessment of various proposals aimed at reorganizing and controlling the appointment and functions of the presidential staff. Following a historical overview of major shifts in the presidential role, the author discusses the gradual increase in presidential staff and institutional support that occurred in the 1920s. Sander next examines the evolution of Roosevelt's executive office and the important precedents that were set during his administration. The primary focus of the book is on the major expansion of the presidential staff that occurred during Truman's tenure. When Truman left office, the basic staff services that enable the president to carry out his duties were in place. These were the Bureau of the Budget, the Council of Economic Advisors, the National Security Resources Board, and the National Security Council. Providing new insights on the forces and events that have shaped the institution of the presidency, this book will be of particular interest to those in the fields of political science, American political history, American public policy and public administration.

Presidential Power and Accountability Feb 19 2021 Many analysts now believe that the growth of presidential war power relative to Congress is irreversible. This book was written to contest that view. Its purpose is to identify what would be required to restore presidential war power to constitutional specifications while leaving the president powerful enough to do what is truly necessary in the face of any

emergency. Buchanan focuses mainly on diagnosing the origins of the problem and devising practical ways to work toward restoration of the constitutional balance of power between Congress and the president. The work begins by showing the lack of clear, widely shared standards whose enforcement is needed to sustain the balance of power and draws on the thinking of the founders and political theorists to crystallize such standards. Next it details how, in the absence of standards, agents such as Congress and the Supreme Court with formal influence on presidents and informal agents such as media and public opinion have unwittingly enabled unnecessary power expansion, such as the presidential 'wars of choice'. Of course change of this magnitude cannot be expected to happen quickly. Remedies necessarily involve a reform architecture intended to unfold gradually, with the first step being simply to start a focused conversation (another purpose of this book). Buchanan moves toward specific remedies by identifying the structure and strategy for a new think tank designed to nudge the political system toward the kind of change the book recommends. Lastly, the book shows how a fictional policy trial could take a practical step toward in rebalancing the war power. This is a crucial examination of presidential power and the U.S. separation of powers system, with a focused effort on making a course correction toward the kind of power sharing envisioned in the Constitution.

The American Presidency Nov 18 2020 This is a thoroughly revised, in-depth analysis of the American presidency by a major scholar in the field. The main goal of the text is to explain how the president's ability to implement policy is circumscribed by several major factors: *the Madisonian separation of powers; *the decentralized power structure in Congress; *the number of cross-party coalitions needed to pass legislation; *a slow-moving federal bureaucracy; and *the powerful influence of special interest groups opposed to many presidential initiatives. Included in this second edition is coverage of the first two years of the Clinton presidency and a special chapter on the emergence of the presidential branch—the White House staff—and its displacement of the cabinet and the executive departments as the foremost decision-making agents in the federal government (a unique chapter not found in other texts). Since highly unstable relations between the president and congress have become the hallmark of our national government, especially in this era of divided government, a new chapter on the president and congress has been added to the text. The growing role of the vice president, an original chapter in the first edition, has been expanded and updated to include the Gore vice presidency. The chapter on proposed reforms of the presidency received wide approval in the first edition. In the second edition special attention is devoted to the proposal to abolish the Electoral College and replace it with direct election of the president. This edition focuses heavily on the activist presidential leadership of the modern presidency, but notes its perishable nature. High presidential approval ratings, as George Bush demonstrated, cannot be stockpiled or deposited in the bank, to be drawn upon later. Along the way the author makes several major points: 1. the excessive demands that the American public imposes on its presidents threaten to turn the nation's highest office into a series of one-term presidents; 2. the decline of political parties as vehicles for mobilizing presidential support has forced the nation's chief executive to go over the heads of congress and directly to the public to solicit support for his policies; and 3. the emerging dangers of electronic democracy and national referenda and the potential rise of a plebiscitary president all pose more imminent threats to our shared powers system than most presidential-watchers have been willing to concede.

American Presidents May 13 2020 *The American Presidents* covers the history of the presidents of the United States of America from George Washington to Barack Obama and contains information on the influences of our country's leaders including the people in their personal and professional lives. From birth to manhood, presidency and post-presidency, *THE AMERICAN PRESIDENTS* brings to life the men who have shaped the highest office in the land and affected the course of the United States from its founding to the present day. Beginning with George Washington, who had already refused to be made king of this country when he reluctantly accepted the office of president, this fascinating book takes the reader all the way through the 2008 election of Barack Obama. Each comprehensive yet concise portrait is written to bring the man behind the office vividly to life, including the influences of childhood, education and previous careers, style, and his successes and failures as president. Revealing anecdotes, famous (and infamous) quotes, and scholarly interpretations by historians capture each man's philosophy of leadership and his vision for America. A special section of tables at the end of the book summarizes important facts about the presidents and their terms of office, including information about first ladies, vice presidents, presidential elections, Cabinets and leading officials, political control of Congress, presidential historical sites, and much more.

Camping with the President Jun 06 2022 California Reading Association Eureka! Nonfiction Children's Silver Honor Book Imagine a U.S. president on a camping trip! It seems unlikely today, but in May 1903, President Theodore Roosevelt dismissed his Secret Service men to go camping with John Muir, the world-famous naturalist. For three glorious nights and four days in California's Yosemite National Park, the two men talked about birds, giant sequoia trees, glaciers, as well as the importance of preserving wilderness for future generations. They slept under the stars, built blazing campfires, and enjoyed the beauty and the uniqueness of the area. Setting aside new national parks and monuments became one of the cornerstones of Roosevelt's presidency and was a direct result of this camping trip. Author Ginger Wadsworth and illustrator Karen Dugan carefully researched this true story, relying on primary documents and working closely with experts in the field.

The President's Book of Secrets Aug 20 2023 Every president has had a unique and complicated relationship with the intelligence community. While some have been coolly distant, even adversarial, others have found their intelligence agencies to be among the most valuable instruments of policy and power. Since John F. Kennedy's presidency, this relationship has been distilled into a personalized daily report: a short summary of what the intelligence apparatus considers the most crucial information for the president to know that day about global threats and opportunities. This top-secret document is known as the President's Daily Brief, or, within national security circles, simply "the Book." Presidents have spent anywhere from a few moments (Richard Nixon) to a healthy part of their day (George W. Bush) consumed by its contents; some (Bill Clinton and George H. W. Bush) consider it far and away the most important document they saw on a regular basis while commander in chief. The details of most PDBs are highly classified, and will remain so for many years. But the process by which the intelligence community develops and presents the Book is a fascinating look into the operation of power at the highest levels. David Priess, a former intelligence officer and daily briefer, has interviewed every living president and vice president as well as more than one hundred others intimately involved with the production and delivery of the president's book of secrets. He offers an unprecedented window into the decision making of every president from Kennedy to Obama, with many character-rich stories revealed here for the first time.

Let the People Pick the President Apr 16 2023 "Wegman combines in-depth historical analysis and insight into contemporary politics to present a cogent argument that the Electoral College violates America's 'core democratic principles' and should be done away with..." —Publishers Weekly The framers of the Constitution battled over it. Lawmakers have tried to amend or abolish it more than 700 times. To this day, millions of voters, and even members of Congress, misunderstand how it works. It deepens our national divide and distorts the core democratic principles of political equality and majority rule. How can we tolerate the Electoral College when every vote does not count the same, and the candidate who gets the most votes can lose? Twice in the last five elections, the Electoral College has overridden the popular vote, calling the integrity of the entire system into question—and creating a false picture of a country divided into bright red and blue blocks when in fact we are purple from coast to coast. Even when the popular-vote winner becomes president, tens of millions of Americans—Republicans and Democrats alike—find that their votes didn't matter. And, with statewide winner-take-all rules, only a handful of battleground states ultimately decide who will become president. Now, as political passions reach a boiling point at the dawn of the 2020 race,

the message from the American people is clear: The way we vote for the only official whose job it is to represent all Americans is neither fair nor just. Major reform is needed—now. Isn't it time to let the people pick the president? In this thoroughly researched and engaging call to arms, Supreme Court journalist and New York Times editorial board member Jesse Wegman draws upon the history of the founding era, as well as information gleaned from campaign managers, field directors, and other officials from twenty-first-century Democratic and Republican presidential campaigns, to make a powerful case for abolishing the antiquated and antidemocratic Electoral College. In *Let the People Pick the President* he shows how we can at long last make every vote in the United States count—and restore belief in our democratic system.

The Making of the President 1960 May 17 2023 A Harper Perennial Political Classic, *The Making of the President 1960* is the groundbreaking national bestseller and Pulitzer Prize-winning account of the 1960 presidential campaign and the election of John F. Kennedy. With this narrative history of American politics in action, Theodore White revolutionized the way presidential campaigns are reported. Now back in print, freshly repackaged, and with a new foreword written by Robert Dallek, *The Making of the President 1960* remains the most influential publication about the election of John F. Kennedy.
