Niche Tourism Apr 24 2020 Examining a fast-growing area of tourism, this book provides an integrated picture of speciality/niche tourism as a whole, looking both at the 'macro' and 'micro' niche sectors. It has a comprehensive theoretical framework, and discusses initiatives, policies and strategies that have been adopted internationally.

Guida per lo mondo Apr 05 2021

The Family Tree Italian Genealogy Guide Feb 15 2022 Discover your Italian roots! Say "ciao" to your Italian ancestors! This in-depth guide will walk you through the exciting journey of researching your Italian famiglia both here and in Italy. Inside, you'll find tips for every phase of Italian genealogy research, from identifying your immigrant ancestor and pinpointing his hometown to uncovering records of him in Italian archives. In this book, you'll find: • Basic information on starting your family history research, including how to trace your immigrant ancestor back to Italy • Strategies for uncovering genealogy records (including passenger lists, draft cards, and birth, marriage, and death records) from both the United States and Italy, with annotated sample records • Crash-course guides to Italian history, geography, and names • Helpful Italian genealogical word lists • Sample letters for requesting records from Italian archives Whether your ancestors hail from the island of Sicily or the hills of Piedmont, The Family Tree Italian Genealogy Guide will give you the tools you need to track your family in Italy.

Bioclimatic Approaches in Urban and Building Design Sep 29 2020 This book explores the bioclimatic approach to building design. Constant innovations in the field are evident, including the need to face climate changes and increase the local resilience at different scales (regional, urban, architectural). Differently from other contributions, this book provides a definition of the bioclimatic design approach following a technological and performance-driven vision. It includes one of the largest collection of research voices on the topic, becoming also a critical reference work for bioclimatic theory. It is intended for architects, engineers, researchers, and technicians who have professional and research interests in bioclimatic and in sustainable and technological design issues.

Computational Science and Its Applications – ICCSA 2022 Workshops Jan 22 2020 The eight-volume set LNCS 13375 – 13382 constitutes the proceedings of the 22nd International Conference on Computational Science and Its Applications, ICCSA 2022, which was held in Malaga, Spain during July 4 – 7, 2022. The first two volumes contain the proceedings from ICCSA 2022, which are the 57 full and 24 short papers presented in these books were carefully reviewed and selected from 279 submissions. The other six volumes present the workshop proceedings, containing 285 papers out of 815 submissions. These six volumes includes the proceedings of the following workshops: ? Advances in Artificial Intelligence Learning Technologies: Blended Learning, STEM, Computational Thinking and Coding (AAILT 2022); Workshop on Advancements in Applied Machine-learning and Data Analytics (AAMDA 2022); Advances in information Systems and Technologies for Emergency management, risk assessment and mitigation based on the Resilience (ASTER 2022); Advances in Web Based Learning (AWBL 2022); Blockchain and Distributed Ledgers: Technologies and Applications (BDLTA 2022); Bio and Neuro inspired Computing and Applications (BIONCA 2022); Configurational Analysis For Cities (CA Cities 2022); Computational and Applied Mathematics (CAM 2022), Computational and Applied Statistics (CAS 2022); Computational Mathematics, Statistics and Information Management (CMSIM); Computational Optimization and Applications (COA 2022); Computational Astrochemistry (CompAstro 2022); Computational methods for porous geomaterials (CompPor 2022); Computational Approaches for Smart, Conscious Cities (CASCC 2022); Cities, Technologies and Planning (CTP 2022); Digital Sustainability and Circular Economy (DiSCE 2022); Econometrics and Multidimensional Evaluation in Urban Environment (EMEUE 2022); Ethical AI applications for a human-centered cyber society (EthicAI 2022); Future Computing System Technologies and Applications (FiSTA 2022); Geographical Computing and Remote Sensing for Archaeology (GCRSArcheo 2022); Geodesign in Decision Making: meta planning and collaborative design for sustainable and inclusive development (GDM 2022); Geomatics in Agriculture and Forestry: new advances and perspectives (GeoForAgr 2022); Geographical Analysis, Urban Modeling, Spatial Statistics (Geog-An-Mod 2022); Geomatics for Resource Monitoring and Management (GRMM 2022); International Workshop on Information and Knowledge in the Internet of Things (IKIT 2022); 13th International Symposium on Software Quality (ISSQ 2022); Land Use monitoring for Sustainability (LUMS 2022); Machine Learning for Space and Earth Observation Data (MALSEOD 2022); Building multi-dimensional models for assessing complex environmental systems (MES 2022); MODEls and indicators for assessing and measuring the urban settlement deVELOPMENT in the view of ZERO net land take by 2050 (MOVEto0 2022); Modelling Post-Covid cities (MPCC 2022); Ecosystem Services: nature's contribution to people in practice. Assessment frameworks, models, mapping, and implications (NC2P 2022); New Mobility Choices For Sustainable and Alternative Scenarios (NEMOB 2022); 2nd Workshop on Privacy in the Cloud/Edge/IoT World (PCEIoT 2022); Psycho-Social Analysis of Sustainable Mobility in The Pre- and Post-Pandemic Phase (PSYCHE 2022); Processes, methods and tools towards RESilient cities and cultural heritage prone to SOD and ROD disasters (RES 2022); Scientific Computing Infrastructure (SCI 2022); Socio-Economic and Environmental Models for Land Use Management (SEMLUM 2022); 14th International Symposium on Software Engineering Processes and Applications (SEPA 2022); Ports of the future - smartness and sustainability (SmartPorts 2022); Smart Tourism (SmartTourism 2022); Sustainability Performance Assessment: models, approaches and applications toward interdisciplinary and integrated solutions (SPA 2022); Specifics of smart cities development in Europe (SPEED 2022); Smart and Sustainable Island Communities (SSIC 2022); Theoretical and Computational Chemistry and its Applications (TCCMA 2022); Transport Infrastructures for Smart Cities (TISC 2022); 14th International Workshop on Tools and Techniques in Software Development Process (TTSDP 2022); International Workshop on Urban Form Studies (UForm 2022); Urban Regeneration: Innovative Tools and Evaluation Model (URITEM 2022); International Workshop on Urban Space and Mobilities (USAM 2022); Virtual and Augmented Reality and Applications (VRA 2022); Advanced and Computational Methods for Earth Science Applications (WACM4ES 2022); Advanced Mathematics and Computing Methods in Complex Computational Systems (WAMCM 2022).

Intercultural Education in the European Context Jan 02 2021 This book offers a comparative analysis of the intercultural theories and practices developed in the European context. Bringing together work on the United Kingdom, France, Germany, Italy, Spain, Greece, The Netherlands and Sweden, it examines specific approaches to intercultural education. Structured around a series of core questions concerning the main features of diverse groups of migrants present within a country and within schools, the major issues raised by scientific research on the presence of migrant students, and the adoption of relevant

educational policies and practices to address these issues - together with examples of best practice in each case - Intercultural Education in the European Context explores the strengths and weaknesses of the intercultural education approach adopted in each context. Offering a broad framework for the study of intercultural education as adopted in European settings, the book highlights the contribution of education to the development of a fair, democratic and pluralistic Europe. As such, it will appeal to scholars and policy makers in the field of sociology, migration, education and intercultural relations.

Studi sul Poema sacro di Dante Allighieri. (Appendice ... Il Canto primo della Monarchia di Dio [i.e. the Divina Commedia] ... col commento di F. Torricelli). May 06 2021

Clinical Management of Overweight and Obesity Dec 13 2021 These guidelines make recommendations regarding the management of individuals with a body mass index greater than 25.0 kg/m² and cover all age groups, from children to the elderly, as well as various patient subsets. A range of measures to yield health benefits are set out, including healthy eating plans, increased physical activity, and behavioral modifications to help patients to manage obesity. In addition, recommendations are made on the use of bariatric surgery and the new antiobesity drugs. Throughout the process of developing the recommendations, every attempt was made to ensure use of a rigorous, evidence-based approach. The guidelines are promoted by the Italian Society of Obesity (SIO) and were formulated in compliance with a prespecified process overseen by a steering committee. They are intended for use by a wide range of clinicians, including general practitioners, primary health care nurses, and primary health care professionals, and will hopefully prove of value in combating the obesity epidemic not only in Italy but across Europe and elsewhere in the world.

Bi- and multilingual universities: European perspectives and beyond Feb 21 2020 This collection of the proceedings of the 3rd conference on bi- and multilingual universities, held at the Free University of Bozen-Bolzano from 20 to 22 September 2007, tries to give a state-of-the-art insight into theoretical and practical approaches towards implementing bi- and multilingual models and policies in higher education institutions in various parts of the world.

Flood Early Warning Systems Jun 26 2020 Presenting the results of an ambitious research activity this book intends to understand why Early Warning Systems (EWSs) fail. However, from the beginning, the objective turned out to be challenging; first, because, so far, there is not a shared understanding of what an EWS is (among both researchers and practitioners communities); second, as a consequence, because it is equally unclear when an EWS can be considered successful or not. Due to this, the research needed first to face some “open questions” instead of going straight to the point under investigation.

Specifically, it was first necessary to define EWS, identify its components and functions, peculiarities, and weak points. Only at that point, a first attempt to evaluate EWS performance was possible. Flood Early Warning Systems Performance is organised according to the conceptual steps required by the research. In part I the “open questions” about the definition and the role of EWSs are handled, the aim being the identification of how to evaluate their effectiveness/performance. Part II focuses on the real aim of the research, providing concepts and tools to assess EWS performance; suggested tools are also implemented in a case study to describe how they can be applied in practice. Focusing specifically on the topic of flood risk in mountainous regions, the book can be viewed as a sort of manual for EWS designers, managers, and users. It is organised into different independent sections which will appeal both to experts as well as those with an interest in the subject. Most of results can also be exported to other hazards.

The Messina Strait Bridge Feb 03 2021 This book describes the enormous depth of work carried out since the early 1970s on the Messina Strait Bridge, up to the recent award of the detailed design and construction contract. This important work has included extensive studies, concepts and design developments, with far reaching applications, which have all confirmed the feasibility of this

The Soils of Italy Nov 12 2021 The Soils of Italy is the first comprehensive book on Italian pedology in seventy years. Taking advantage of the authors' large experience and of the most up-to-date information and technology, this book treats the main soil types of Italy, their diffusion, their functions, ecological use, and the threats to which they are subjected during centuries of intensive management. It also deals with future scenarios of the relationships between soil science and other disciplines, such as urban development, medicine, economics, sociology, and archaeology. The description of the soils is accompanied by a complete set of data, pictures and maps, including benchmark profiles. Factors of soil formation are also treated, making use of new, unpublished data and elaborations. The book also includes a history of pedological research in Italy, spanning over a century.

Guida per lo Real museo Borbonico, di L. Giustiniani e del cav. F. de Licteriis Apr 29 2023

Virgil the Blind Guide Jun 07 2021 Using hidden linguistic configurations, explores the issue of Virgil's authority in the Divine comedy as compared to other poets, guides, and demons.

Food Products Evolution: Innovation Drivers and Market Trends Aug 21 2022 Modern awareness of nutrition issues can be understood correctly if considered the destination of a historic journey, the critical aspects and outcomes of which have led to the current situation. In fact, over time there have been changes to scientific knowledge, food availability and processing and preservation methods. Commercial exchange has increased considerably between the countries of the world – so much so that it has defined a completely different scenario to the past and has influenced food availability, distribution models, preservation methods and the composition of individual foodstuffs. The products consumed on a daily basis throughout the world in industrialised countries have undergone review by the food industry, incorporating great aspects of innovation that make them highly different in their structure, content and even the packaging that protects and contains them. After covering the subject of innovation in the food sector, this Brief of work will discuss the various first- and second-generation product categories distributed in Europe starting from the period of post-war reconstruction, in order to illustrate the reasons that led to their birth and development on the market. Specific examples are shown for each proposed class, including highlights of their properties, technologies, innovation potential, related regulations, and distinctive features.

Singers of Italian Opera Mar 04 2021 Adelina Patti was the most highly regarded singer in history. She earned nearly \$5,000 a night and had her own railway carriage. Yet a minor comic singer would perform for the cost of his food and a pair of shoes to wear on stage. John Rosselli's wide-ranging study introduces all those singers, members of the chorus as well as stars, who have sung Italian opera from 1600 to the twentieth century. Singers are shown slowly emancipating themselves from dependence on great patrons and entering the dangerous freedom of the market. Rosselli also examines the sexist prejudices against the castrati of the eighteenth century and against women singers. Securely rooted in painstaking scholarship and sprinkled with amusing anecdote, this is a book to fascinate and inform opera fans at all levels.

Sacra Rituum Congregatione ... Cardinali Galleffi ... relatore Neapolitana beatificationis, et canonizationis ... Sor. Mariæ Franciscæ a Vulneribus D.N.J.C. ... Summarium super virtutibus Sep 22 2022

Javascript Aug 29 2020 JavaScript è il motore di quasi tutte le applicazioni web più moderne, dalle app social ai giochi per browser più all'avanguardia. Facile da usare, anche per i principianti, JavaScript è tuttavia un linguaggio flessibile e complesso, che consente di realizzare applicazioni davvero potenti. Questa guida completa a JavaScript scava nel profondo del linguaggio per mostrare come scrivere un

codice elegante ed efficiente. L'autore vi guida fin dall'inizio con esempi, esercizi e interi capitoli su progetti specifici, facendovi fare esperienza sulla realizzazione di programmi completi. L'opera riflette lo stato attuale di JavaScript e dei browser web, ed è arricchita di nuovi materiali, come un capitolo dedicato al rendimento del codice in JavaScript e una descrizione dettagliata di concetti come la ricorsività e le chiusure. Tutti i sorgenti sono disponibili online in uno spazio protetto interattivo, dove è possibile modificare, eseguire e verificare istantaneamente i risultati del codice.

Computational Science and Its Applications – ICCSA 2021 Mar 24 2020 ?The ten-volume set LNCS 12949 – 12958 constitutes the proceedings of the 21st International Conference on Computational Science and Its Applications, ICCSA 2021, which was held in Cagliari, Italy, during September 13 – 16, 2021. The event was organized in a hybrid mode due to the Covid-19 pandemic. The 466 full and 18 short papers presented in these books were carefully reviewed and selected from 1588 submissions. Part X of the set includes the proceedings of the following workshops: ?International Workshop on Smart and Sustainable Island Communities (SSIC 2021); International Workshop on Science, Technologies and Policies to Innovate Spatial Planning (STP4P 2021); International Workshop on Sustainable Urban Energy Systems (SUREN-SYS 2021); International Workshop on Ports of the future - smartness and sustainability (SmartPorts 2021); International Workshop on Smart Tourism (SmartTourism 2021); International Workshop on Space Syntax for Cities in Theory and Practice (Syntax_City 2021); International Workshop on Theoretical and Computational Chemistry and its Applications (TCCMA 2021); International Workshop on Urban Form Studies (UForm 2021); International Workshop on Urban Space Accessibility and Safety (USAS2021); International Workshop on Virtual and Augmented Reality and Applications (VRA 2021); International Workshop on Advanced and Computational Methods for Earth Science applications (WACM4ES 2021).

Il primo libro delle storie sanesi, di M. Bellarmati. Due narrazioni sulla sconfitta di Montaperto. Cenni sulla zecca sanese Jul 08 2021

Law Enforcement by EU Authorities Oct 31 2020 EU law and governance have faced a new development – the proliferation of EU enforcement authorities, which have grown in number over the last 15 years. These entities, either acting alone or together with national enforcement authorities, have been investigating and sanctioning private actors on their compliance with EU law. Law Enforcement by EU Authorities investigates whether the system of control (in terms of both judicial and political accountability) has evolved to support the new system of law enforcement in the EU.

Changing Landscapes Mar 16 2022

A Field Guide to the Birds of Brazil Jan 26 2023 Brazil's bird diversity is one of the richest in the world. And yet there has never been a comprehensive field guide to this splendid and elusive avifauna. Until now. The carefully vetted text and images are the first to cover the full range of bird life in this vast and varied country. The more than 1800 up-to-date accounts treat the Yellow-nosed Albatross to the Sombre Hummingbird, the Ash-throated Gnat-eater to the Black-bellied Whistling-Duck, Nighthawks and Jacamars to Motmots, Puffbirds, and Peppershrikes. They are all here--every species and many subspecies found in each region of Brazil--with special attention given to the 218 Brazilian endemics. The book is laid out so that the illustrations sit across from the commentary and the distribution maps, so it is easy to use. Also, the author uses short-hand notation throughout, to make the book compact and easy to carry when in the field. For each bird, the scientific, English, and Portuguese name are given as well as detailed information on measurement; identifying features; habitat; voice, song, and call. Distribution maps show the range for each species, also indicating seasonality and occurrence, essential for finding and identifying specific birds. From the equatorial North to the tropics, the introductory paragraphs set the stage in describing Brazil's varied biogeography, climate, geomorphology, and natural vegetation. A list of protected areas of Brazil, information on relevant national and international organizations, a bibliography and further references, and an English-Portuguese dictionary of frequently used terms enhance the user-friendly qualities. Anyone wishing to fully explore the fabulously varied bird life of Brazil will find this light-weight, easy-to-use, attractive guide an invaluable field companion.

Social Capital and Urban Networks of Trust Jan 14 2022 This is the first book on social capital and trust informed by a critical geographical perspective. The authors examine the role of social capital in the constitution and reproduction of urban networks of trust in different places and contexts. They explore how social capital and trust are reflected in the capacity of these networks to achieve their goals and to deliver specific forms of urban development in a number of Finnish and Italian cities. Finland and Italy present, in many ways, two almost paradigmatic cases of how social capital and trust can work in extremely different and yet very effective ways in the production of the urban. They are two almost ideal laboratories for experimenting new definitions and new understandings of the concepts in question.

Risks Challenging Publics, Scientists and Governments Apr 17 2022 The contributions in *Risks Challenging Publics, Scientists and Governments* looks at risks not just as a technical, social, political or economic matter, but as originating and challenging the various disciplines. Contextual aspects, usually defined by engineers as "margin conditions", are generally not looked at, but deserve much more attention, pa

Rethinking Sustainability Towards a Regenerative Economy Dec 21 2019 This open access book is based on work from the COST Action RESTORE - REthinking Sustainability TOwards a Regenerative Economy, and highlights how sustainability in buildings, facilities and urban governance is crucial for a future that is socially just, ecologically restorative, and economically viable, for Europe and the whole planet. In light of the search for fair solutions to the climate crisis, the authors outline the urgency for the built environment sector to implement adaptation and mitigation strategies, as well as a just transition. As shown in the chapters, this can be done by applying a broader framework that enriches places, people, ecology, culture, and climate, at the core of the design task - with a particular emphasis on the benefits towards health and resilient business practices. This book is one step on the way to a paradigm shift towards restorative sustainability for new and existing buildings. The authors want to promote forward thinking and multidisciplinary knowledge, leading to solutions that celebrate the richness of design creativity. In this vision, cities of the future will enhance users' experience, health and wellbeing inside and outside of buildings, while reconciling anthropic ecosystems and nature. A valuable resource for scientists and students in environmental sciences and architecture, as well as policy makers, practitioners and investors in urban and regional development.

Smart and Sustainable Planning for Cities and Regions Dec 01 2020 This book offers a selection of research papers and case studies presented at the 3rd international conference "Smart and Sustainable Planning for Cities and Regions", held in December 2019 in Bolzano, Italy, and explores the concept of smart and sustainable planning, including top contributions from academics, policy makers, consultants and other professionals. Innovation processes such as co-design and co-creation help establish collaborations that engage with stakeholders in a trustworthy and transparent environment while answering the need for new value propositions. The importance of an integrated, holistic approach is widely recognized to break down silos in local government, in particular, when aimed at achieving a better integration of climate-energy planning. Despite the ongoing urbanization and polarization processes, new synergies between urban and rural areas emerge, linking development opportunities to intrinsic cultural, natural and man-made landscape values. The increasing availability of big, real-time urban data and advanced ICT facilitates frequent assessment and continuous monitoring of performances, while allowing fine-tuning as needed. This is valid not only for individual projects but also on a wider scale. In addition, and circling back to the first point, (big) urban data and ICT can be of enormous help in

facilitating engagement and co-creation by raising awareness and by providing insight into the local consequences of specific plans. However, this potential is not yet fully exploited in standard processes and procedures, which can therefore lack the agility and flexibility to keep up with the pulse of the city and dynamics of society. The book provides a multi-disciplinary outlook based on experience to orient the reader in the giant galaxy of smart and sustainable planning, support the transposition of research into practice, scale up visionary approaches and design groundbreaking planning policies and tools.

Android 6 Dec 25 2022 Android, il sistema operativo creato da Google, e Google Play, l'app store dedicato, sono ormai la piattaforma mobile più utilizzata. La versione 6, Marshmallow, apre agli sviluppatori nuove possibilità che integrano e accentuano le potenzialità delle interfacce Material Design, ormai al centro dell'esperienza d'uso di Google. Questo manuale insegna a lavorare con Android 6 attraverso un approccio pratico che guida il lettore nella realizzazione di un'applicazione completa e funzionante, approfondendo capitolo dopo capitolo i temi che le diverse fasi dello sviluppo implicano. Gli argomenti trattati spaziano dalla creazione di un progetto con Android Studio al design dell'interfaccia, dal controllo del flusso di navigazione alla programmazione multithreading, dalla gestione dei dati all'amministrazione dei permessi. L'obiettivo ultimo è creare applicazioni per smartphone e tablet, ma in potenza anche dispositivi wearable.

All'ombra dei Lumi: Jacques-André Naigeon philosophe May 26 2020 [Italiano]: Il presente lavoro costituisce una biografia intellettuale di Jacques-André Naigeon (1735-1810), importante figura del secolo dei Lumi francese. Biografo e primo editore di Diderot, Naigeon fu testimone privilegiato delle innumerevoli vicende politiche, sociali e culturali che sconvolsero la società francese. Ateo convinto, editore infaticabile, fine conoscitore della letteratura clandestina, il giovane Naigeon fece in tempo a collaborare agli ultimi volumi dell'Encyclopédie e a partecipare, con il barone d'Holbach, alla propagazione di numerosi scritti eterodossi, materialisti e ferocemente anti-clericali; dopo la Rivoluzione – la quale lo spinse alla riflessione ma non ad un'attività politica propriamente detta – fu integrato dalla cultura “ufficiale” tramite l'elezione presso l'Institut de France: ma nonostante alcuni lavori editoriali di grande pregio, Naigeon resterà esclusivamente la testimonianza vivente di una stagione culturale ormai irripetibile. /[English]: This work aims at being an intellectual biography of Jacques-André Naigeon (1735-1810), an important figure of French Enlightenment. Not only was he very close to Diderot - of whom he was biographer and editor - but he was also a privileged witness of the countless political, social and cultural events that led to the French Revolution. Besides being a convinced atheist, a tireless publisher, a fine connoisseur of Clandestine literature, Naigeon had the opportunity to collaborate in writing the last volumes of the Encyclopédie and to participate in the propagation of heterodox, materialistic and fiercely anti-clerical writings. After the Revolution - at the beginning of which he tried in vain to make himself heard by the Assemblée Nationale - he was then integrated into the "official" culture through the election at the Institut de France: however, even if he is the author of some prestigious works, Naigeon remains exclusively the living testimony of a now unrepeatable cultural season.

Van Perlo's Endgame Tactics Mar 28 2023 New and substantially expanded edition of a modern chess classic. By chance, in 2013 publisher New In Chess discovered a previously unnoticed and unpublished extra batch of endgame tactics collected by the legendary Dutch correspondence grandmaster Ger van Perlo (1932-2010). More than 250 fresh examples have been added, making this fourth edition 25% BIGGER than its predecessors. For casual players and club players. Why is it that most amateur chess players love opening and middlegame tactics but hate endgames? Why do you usually look at only a couple of pages in any endgame theory book you see? Sit back, forget about theoretical endgames, and enjoy the entertainment of real life chess in Endgame Tactics! There is no substitute for hard work in getting better at chess, as a wise grandmaster once said. But you always work harder at something you enjoy. Make the first step towards improving your endgame play (and beating more opponents) by learning to love the endgame. Endgames are fun, and the examples from everyday practice in Endgame Tactics prove it. • New (4th) and 25% expanded edition of a best-selling modern classic • More than 1,300 Sparkling Tricks and Traps • WINNER of the ECF Book of the Year Award • WINNER of the ChessCafe Book of the Year Award • Makes regular players discover the fun in endgame

Guide to Geographical Indications Sep 10 2021 The guide is a reference book that provides a comprehensive view of all aspects of the cotton value chain from a market perspective, and an overview of the world cotton market. It outlines factors influencing supply and demand, and market trends; considers major issues of the sector, including trade policy and WTO issues; deals with textile processing of cotton, cotton quality and its determinants, and cotton contamination; covers various aspects of cotton trading and export marketing; looks at e-commerce, the ICE Futures U.S. and other futures markets for cotton; reviews the market for different types of cotton, including organic cotton; presents market profiles of the main importing countries in Asia (Bangladesh, China, India, Indonesia, Pakistan, Thailand) and Turkey, with recommendations on how to approach their cotton-consuming textile industries. Annexes contain a list of international cotton associations, as well as lists of useful addresses and web resources.

GUIDA ALLE ALPI APUANE COMPILATA DAL PROFESSORE CESARE ZOLFANELLI E DAL CAV. Jun 19 2022

Regeneration of the Built Environment from a Circular Economy Perspective Oct 23 2022 This open access book explores the strategic importance and advantages of adopting multidisciplinary and multiscale approaches of inquiry and intervention with respect to the built environment, based on principles of sustainability and circular economy strategies. A series of key challenges are considered in depth from a multidisciplinary perspective, spanning engineering, architecture, and regional and urban economics. These challenges include strategies to relaunch socioeconomic development through regenerative processes, the regeneration of urban spaces from the perspective of resilience, the development and deployment of innovative products and processes in the construction sector in order to comply more fully with the principles of sustainability and circularity, and the development of multiscale approaches to enhance the performance of both the existing building stock and new buildings. The book offers a rich selection of conceptual, empirical, methodological, technical, and case study/project-based research. It will be of value for all who have an interest in regeneration of the built environment from a circular economy perspective.
