Dave Bing Mar 24 2022 What kind of person loses sight in one eye and then through practice and skill becomes one of the top 50 NBA players of all time? What kind of person, with limited business experience, builds a start-up company into a thriving corporation and is recognized as one of the world's most successful black executives? And what kind of person, instead of enjoying a well-deserved retirement, chooses to become mayor of a large city that many had written off as dead? Dave Bing, that's who. In this book, Drew Sharp chronicles the compelling story of a figure whose sheer will to succeed, refusal to make excuses for setbacks, and efforts to contribute to society set him apart as an anomaly.

*Simply by Grace* Jan 28 2020  
Grace distinguishes Christianity from all other religions. Although commonly used among Christians and non-Christians, the word is too often misunderstood or underappreciated. And yet God's grace is not only the key to becoming a Christian, but also the key to the assurance of salvation and living in freedom to serve God and others. "Simply by Grace" is an easy-to-read introduction to a core Christian belief. By looking at the major questions and issues that surround the concept of grace, Charles C. Bing helps readers understand and appreciate this God-given gift and how simple it really is.

"Because only when you understand the simplicity of His grace," writes Bing, "can you begin to understand its deep riches also."

*Immortal Life* Apr 24 2022 An ancient mogul has bought the power to live forever, but the strong young body he plans to inhabit has other ideas. The battle for immortal life begins in Stanley Bing's "stimulating, satirical and perhaps even visionary novel" (Wall Street Journal). Immortal life. A fantasy, an impossible dream—or is it? The moguls of Big Tech are pouring their mountain of wealth into finding a cure for death and they are determined to succeed. None of these titans is richer than Arthur Vogel. The inventor,

tech tycoon, and all-round monster has amassed trillions of dollars and rules over a corporate empire stretching all the way to Mars. The newest—and most expensive—life extension technology has allowed him to live to 127 years, but time is running out. His last hope to escape the inevitable lies with Gene, a human specifically created for the purpose of housing Arthur's consciousness. The plan is to discard his aged body and come to a second life in a young, strong host. But there's a problem: Gene. He may be artificial, but he is a person—and he has other ideas. As Arthur sets off to achieve his goal of world domination, Gene hatches a risky plan of his own. The forces against him are rich, determined, and used to getting what they pay for. The battle between creator and creation is heightened as the two minds wrestle for control of one body. Mixing brisk action, humor, and wicked social commentary, author

Stanley Bing has crafted “an engaging and cautionary tale about the direction in which spaceship Earth is hurtling” (USA Today). Welcome to a brave new world that is too familiar for comfort—and watch the struggle for humanity play out to the bitter end.

**A Life of Being, Having, and Doing Enough** Dec 01 2022

From the moment we are born,

we are seekers. Our culture obsessively promotes the pursuit of money, success and self-improvement. At the end of each activity-jammed day, though, we collapse into bed discouraged by everything we have not checked off on our to-do lists, in despair that whatever we have accomplished is never enough. Worse still, when our dreams become derailed by the inherent tragedies of life—job loss, financial peril, sickness, or the death of a loved one—we feel devastated by the pain and injustice of it all. Nationally renowned author, therapist, and minister Wayne Muller offers healing for the perpetually stressed in *A Life of Being, Having, and Doing Enough*. By learning compassion and mercy for ourselves and by recognizing what is most profoundly true about who we are and what we need, we can gain the self-acceptance so that whatever we choose to do, in this moment, it is wholly enough. Muller mixes the writings of great spiritual and political

leaders with inspirational anecdotes from his own life, inviting us to derive more satisfaction from less and pull gratitude out of the ashes of grief. The answer to what he describes as "authentic happiness" lies not in seeing the glass as half full instead of half empty. In reality, he writes, the glass is always half full and half empty. The world is neither broken nor whole, but eternally engaged in rhythms between joy and sorrow. With Muller's guidance, we may find ourselves on the most courageous spiritual pilgrimage of our lives.

Always Being Reformed May

14 2021 One of the most persistent slogans of Reformed theology is that it is "reformed and always being reformed." But what does this slogan mean? This volume gathers thirteen essays written by a younger generation of Reformed theologians who teach and write on five different continents, who together offer this work in Christian systematic theology. Unlike many other works of Reformed theology, however, this book is framed by pressing contextual issues and questions (instead of traditional loci). Each chapter engages classical doctrine, but does so through the lens of contemporary, lived experience in particular contexts. The result is not a theology where doctrines are "applied" to contexts, but an approach where doctrine and context mutually shape one another. The contributors take seriously the notion that theology is "always being reformed" and is always partial, ever on the way--hence it requires conversation

partners beyond the Reformed family of faith. The result is a study in Reformed theology that is thoroughly ecumenical. *Do or Die* Nov 19 2021 *Do or Die* is the first insider account of teenage gangs--the lives, loves, and battles of children who kill--from the only journalist ever allowed inside this closed and dangerous world. This is no West Side Story. Welcome to a world where teenagers wear colostomy bags and have scrapbooks filled with funeral invitations; where a young man, after being shot in the chest, drives himself to the hospital; where another youngster, caught in crossfire, uses his girlfriend as a human shield; where teenage gangsters are kidnapped, tortured, and held for six-figure ransoms; where kids hum the latest movie's theme music while killing people. It's a world of clickheads, sherns, bangers, ballers, and mummyheads; a world where the strongest feelings of family come from other gang members; a world where the

most potent feelings of self-worth come from murder.

**The Unbearable Lightness of Being** Jul 04 2020 "Far more

than a conventional novel. It is a meditation on life, on the erotic, on the nature of men and women and love . . . full of telling details, truths large and small, to which just about every reader will respond." — People In The Unbearable Lightness of Being, Milan Kundera tells the story of two couples, a young woman in love with a man torn between his love for her and his incorrigible womanizing, and one of his mistresses and her humbly faithful lover. In a world in which lives are shaped by irrevocable choices and by fortuitous events, a world in which everything occurs but once, existence seems to lose its substance, its weight.

Hence, we feel "the unbearable

lightness of being" not only as the consequence of our pristine actions but also in the public sphere, and the two inevitably intertwine. This magnificent novel is a story of passion and politics, infidelity and ideas, and encompasses the extremes of comedy and tragedy, illuminating all aspects of human existence.

*Well-Being of Youth and Emerging Adults across Cultures* Jan 22 2022 The current volume presents new empirical data on well-being of youth and emerging adults from a global international perspective. Its outstanding features are the focus on vast geographical regions (e.g., Europe, Asia, Africa, North and South America), and on strengths and resources for optimal well-being. The international and multidisciplinary contributions address the complexities of young people's life in a variety of cultural settings to explore how key developmental processes such as identity, religiosity and optimism, social networks, and social interaction in families and

society at large promote optimal and successful adaptation. The volume draws on core theoretical models of human development to highlight the applicability of these frameworks to culturally diverse youth and emerging adults as well as universalities and cultural specifics in optimal outcomes. With its innovative and cutting-edge approaches to cultural, theoretical and methodological issues, the book offers up-to-date evidence and insights for researchers, practitioners and policy makers in the fields of cross-cultural psychology, developmental science, human development, sociology, and social work.

**Book from the Ground** Sep 17 2021 A book without words, recounting a day in the life of an office worker, told completely in the symbols,

icons, and logos of modern life. Twenty years ago I made *Book from the Sky*, a book of illegible Chinese characters that no one could read. Now I have created *Book from the Ground*, a book that anyone can read. —Xu Bing Following his classic work *Book from the Sky*, the Chinese artist Xu Bing presents a new graphic novel—one composed entirely of symbols and icons that are universally understood. Xu Bing spent seven years gathering materials, experimenting, revising, and arranging thousands of pictograms to construct the narrative of *Book from the Ground*. The result is a readable story without words, an account of twenty-four hours in the life of “Mr. Black,” a typical urban white-collar worker. Our protagonist's day begins with wake-up calls from a nearby bird and his bedside alarm clock; it continues through tooth-brushing, coffee-making, TV-watching, and cat-feeding. He commutes to his job on the subway, works in his office, ponders various fast-

food options for lunch, waits in line for the bathroom, daydreams, sends flowers, socializes after work, goes home, kills a mosquito, goes to bed, sleeps, and gets up the next morning to do it all over again. His day is recounted with meticulous and intimate detail, and reads like a postmodern, post-textual riff on James Joyce's account of Bloom's peregrinations in *Ulysses*. But Xu Bing's narrative, using an exclusively visual language, could be published anywhere, without translation or explication; anyone with experience in contemporary life—anyone who has internalized the icons and logos of modernity, from smiley faces to transit maps to menus—can understand it.

Understanding Dec 21 2021

The book reveals the Reality of Life. Life's origin, life's reason for existence is answered. The personal choice for the self, self-creation, is shown. Life's eternity, life's indestructible nature is proven. The immortality of the soul is

proven. The book proves God's existence. Unlimited power is disproven. The philosophy of the book is titled the one philosophy. The One Philosophy includes all opposites, the Middle Ground between which is taken and confirmed. All that is lacking of the good is exposed.

Philosophy is the answer to knowledge of the good, not religion, not democracy. The philosopher-king is advocated.

The three main human objectives are put forth: understanding of life's laws, the creating of the good society, the need to live in peace. Only philosophy has the answers. This book marks the new human beginning. It is groundbreaking. The phony, not-so-peaceful-and-loving the real Jesus Christ is exposed.

The destruction of Jesus Christ is complete. The greatest human questions are answered. The basis of future humanity will be the One Philosophy.

*18 Holes with Bing* Feb 20

2022 In this love letter to his father, former professional

golfer Nathaniel Crosby shares memories of Bing Crosby on the golf course, and the lessons he taught him about the game and about life. With a Foreword by Jack Nicklaus. "Bing Crosby was a great ambassador for our game, as well as a great man," hails longtime friend and golf partner, Jack Nicklaus. The beloved singer and star was also an extraordinary teacher who instilled an abiding passion and mastery of the game in his youngest son, Nathaniel. Winning the US Amateur at nineteen, Nathaniel went on to compete in high-level professional tournaments for his entire life. In *18 Holes with Bing*, Nathaniel introduces us to the Bing Crosby he and his family knew—not the beloved singer who played golf, but a golfer who sang to pay his country club dues. Nathaniel shares exclusive stories about this American icon golfing, working, and playing with some of the most famous people in history—royalty, titans of industry, stars of stage

and screen, and champions of the green, including Bob Hope, Dwight Eisenhower, Ben Hogan, Jack Nicklaus, and Louis Armstrong. At the book's heart is an intimate account of a father and a son—how a mutual love of golf formed an exceptional emotional bond. Full of anecdotes, vignettes, and recollections of Bing's time on the course, the tournaments he created and later sponsored, and the constant encouragement he showed his son, *18 Holes with Bing* honors this celebrated golfer, entertainer, and father, and illuminates his life as never before.

**Being and Becoming** Oct 07 2020 *Being and Becoming* is a wide-ranging analysis of the nature of being and selfhood. The book presents an original, integrated paradigm with the aim of creating a comprehensive overview of the human condition—and finding ways to alleviate suffering. In essence, the book explores the question, "What does it mean to be?" *Being and Becoming* begins with fresh

interpretations of the work of Martin Heidegger and Buddhist, Taoist, and Christian writings as they relate to this question. Most of *Being and Becoming*, however, is about the nature of self and selfhood as a process of “I-am-this,” “my becoming” rather than “my being.” Author Franklyn Sills interweaves concepts from object relations theories, psychodynamics, pre- and perinatal psychology, and Buddhist self-psychology, along with his own rich experience as a Buddhist monk, somatic therapist, and psychotherapist, into his inquiry. The works of Fairbairn and Winnicott are

discussed in depth, as are Winnicott and Stern’s insights into the nature of the early holding environment, the infant-mother relational field, and early perceptual dynamics. A thoughtful guide for psychologists, therapists, counselors, and other health professionals, the book is also ideal for Buddhists and anyone looking for alternative therapy models.
