Alexander Fleming was not the first person to discover penicillin. The adorable-looking duck-billed platypus is actually a poisonous killer. We don't really swallow eight spiders a year in our sleep. And a zombie apocalypse could happen. From the extremely popular humour website Cracked.com, these punchy articles, written with its typical irreverent humour, will enlighten, fascinate and terrify you in equal measure. Packed with a huge range of intriguing facts about horrifying bugs, mythological beasts, illegal cheeses and deadly trampolines, You Might Be a Zombie will make you question what you thought you knew and fill you in on the facts that were too disturbing to teach you in school. This witty collection of trivia is perfect for those who hate to be wrong and love to shock their friends with their knowledge of hilarious and astounding facts. We believers are to be ambassadors of Christ, representing Him in whatsoever we eat, drink, and do to the glory of the Father, regardless of denomination or worldly, flesh-dominated traditions man has contrived. God the Father has not only paid the price for our salvation through the innocent shed blood of His Son Jesus Christ of Nazareth, but He has also given us the power and authority for each of us to accomplish our destiny and receive complete restoration through the baptism of the third person of the Trinity, the Holy Spirit. This path is outlined only in the written word of the living God in the Bible, from the written account of Moses in Genesis to the Revelation of the Apostle John on the isle of Patmos in Revelation. Your newly "saved" temple is protected by your restored and rehabilitated soul walls, and they alone determine your eternal rewards—not your salvation, but your rewards. Let us now travel together through this life journey as we examine our soul walls for restoration, deliverance, and spiritual healing that only the Bible explains. A screaming snowman plummets from the top floor of Cleveland Mercy Hospital—a decaying relic built before the first pandemic—and disappears into the snow drifts below. By the time his thawed corpse is discovered the following spring, a body count of incompetents, frauds, and

crooks who call this chamber of horrors home, has snowballed. Could these "disappearances" have anything to do with the bogus—and disastrous—spine operation performed on local hero Nick Glass, a former ballplayer? Or the wrongful termination of Nick's fiancé, Dr. Julie Toffoli, an idealistic intern not afraid to speak truth to power? It's up to celebrity Homicide cop, Artemas Sikorski, working his careercapping case, to find out. Hysterically funny, troubling, and finally moving, *YOU MIGHT FEEL A LITTLE PRICK* answers the question we've all been asked by someone in a white coat: Just what is your level of pain? Your fondest dreams are about to come true. Imagine talking with Christ, face to face, and hearing His reassuring voice ringing in your mind and heart. David Alfred Tetley has been there and can lead you to an inner peace perhaps you have never known. Follow the simple steps outlined in this book to gain greater health and well-being in all areas of your life. From Jill Charlotte Stanford, author of the *Cowgirl's Cookbook* and *Wild Women and Tricky Ladies*, this is the thinking girl's guide to living like a cowgirl. It's not all sequins and silver buckles—but following the way of Dale Evans and Rodeo Queens and finding your inner cowgirl, you can achieve your own cowgirl style, find the cowgirl way, and fit it to your life in the city or on the range. Designed to generate impulse sales, titles in this line are carefully balanced for gift giving, self-purchase, or collecting. Little Books may be small in size, but they're big in titles and sales. Dr. Seuss's wonderfully wise *Oh, the Places You'll Go!* is the perfect gift to celebrate all of our special milestones—from graduations to birthdays and beyond! From soaring to high heights and seeing great sights to being left in a Lurch on a prickly perch, Dr. Seuss addresses life's ups and downs with his trademark humorous verse and whimsical illustrations. The inspiring and timeless message encourages readers to find the success that lies within, no matter what challenges they face. A perennial favorite and a perfect gift for anyone starting a new phase in their life! I began teaching in 1964 and am still at it. Thanks to the values of my parents and my maternal grandmother (Beba), as well as to their high expectations for me, I learned at a young age that no matter how old I got, I would always be a student. Later I learned that I would always be a teacher. Not only is that combination of student and teacher an unbeatable one, it is a necessary one if by a "successful" teacher we mean a person whose humanity is expressed through what is both a calling and a career. (Geoffrey Chaucer put it more poetically in *The Canterbury Tales*: "And gladly would he learn, and gladly teach.") This is a book about answering the call to become a teacher and working to be an effective one (whatever your subject but generally on the secondary school level). So *You Think You Might Like to Teach* features the classroom experiences of 23 fictional teachers and the practical lessons they learned from their successes and failures about what happens of value on both sides of the teachers desk. This book's 23 "novel" role models (from contemporary and classic works of literature) may not be actual but they are quite real (flaws and all); and although some of them may be larger than life, all are true to life both in and out of the classroom. I've chosen these particular fictional teachers for you to learn from because "you think you might like to teach." I suspect, and hope, that you want to become the best possible teacher you can be and never have to worry about burnout. Your joy in your career and your students' joy in your joy will depend on it. And so I wish you the best should you decide to profoundly affect the lives of, let's say, 151 very special human beings in the next school year: 150 students and you, their teacher. Robert Eidelberg A fiercely original and propulsive debut novel about the unexpected turns in life that ultimately determine who we become. It's the late nineties—the dawn of the internet—and Judy and Meghan have lied to their mothers and run away for the weekend, to see a girl they've met in a chat room. Meanwhile, twelve-year-old Cassie, desperately clinging to childhood hopes, travels deep into the Nevada desert to reunite with her real mother at a strange and isolated compound. And, across the country, Caleb, an entitled teenager, is miserable following his family's move from upper-crust San Francisco to boring Ann Arbor—until, emboldened by privilege, his tours of blighted Detroit become graffiti-writing escapades, with his faithful little brother in tow. Each of these adventures derails in severe, alarming ways, only to resurface and collide two decades later in an unforgettable finale that explores the power—and limits—of the narratives that come to define us. Deftly written and peopled with precisely drawn, indelible characters pushed to great extremes, *Who You Might Be*

considers the ramifications of life's most trying encounters and the resilience it takes to determine for ourselves who we might be. Now You Too Can Use This Softback Writer's Notebook For The Office Or Home. Whether you are looking for a diary or daily planner this versatile journal is the perfect fit for your needs. In short, this notebook can be used formally or informally to secure your thoughts or bits of information or detailed notes. Just scroll up, click the buy button now to grab your personal copy of this first-rate notebook today. Bestselling author Marisa Silver takes Dorothea Lange's Migrant Mother photograph as inspiration for a story of two women—one famous and one forgotten—and their remarkable chance encounter. In 1936, a young mother resting by the side of the road in central California is spontaneously photographed by a woman documenting migrant laborers in search of work. Few personal details are exchanged and neither woman has any way of knowing that they have produced one of the most iconic images of the Great Depression. In present day, Walker Dodge, a professor of cultural history, stumbles upon a family secret embedded in the now-famous picture. In luminous prose, Silver creates an extraordinary tale from a brief event in history and its repercussions throughout the decades that follow—a reminder that a great photograph captures the essence of a moment yet only scratches the surface of a life. Most everyone know what insurance means. But there a untold info that you might want to know before purchasing any insurance policy. Young Angola Chevalier thought life would be perfect once she graduated high school to attend one of Louisiana's top colleges. That changed when love became her mother's drug, leaving Angola to step in the real world without her. With a taste of street knowledge and her best friend at her side, Angola is down to do whatever for the scrilla! With unsolved problems and reality kicking in, that slowly fades away when Angola meets General Gradney, a young entrepreneur on the rise with an illegal side hustle. Being the perfect prince charming and financial crutch Angola wished for, how will she embrace the pure love General gives her? For years, the Chicago Tribune's "10 Things You Might Not Know" column has been informing and entertaining readers on a diverse range of fascinating subjects. 10 Things You Might Not Know About Nearly Everything is a collection of the best of these columns, presented in a fun and easy-to-read format. This book gives readers well-researched, obscure facts on universal topics—including arts and culture, food and leisure, history, politics, science and technology, sports, holidays and religion, lifestyle, language, and more. 10 Things You Might Not Know About Nearly Everything contains a plethora of surprising trivia and pertinent tidbits on so many different areas that will appeal to everyone from history buffs to sports fans to foodies, with an especially riveting look into Chicago-area history and facts. For example, in Zion, Illinois it was once not only illegal to gamble, curse, and sell alcohol and tobacco, but also to whistle on Sundays, put on plays, eat pork or oysters, spit, or wear tan-colored shoes. Some facts will make readers laugh and some will make jaws drop. This collection is a kaleidoscope of the absurd, the outrageous, and the sometimes-gruesome, making a highly entertaining mix of people, places, and things. 10 Things You Might Not Know About Nearly Everything will leave readers brighter, wittier, and curious to learn more about myriad worlds they never encountered before and will never forget. Find out if the stress in your relationships with family, friends, or at work is unknowingly caused from narcissism in yourself or others... Narcissism is actually much more common than we may think and, in reality, most of us have some of these characteristics. "You Might Be a Narcissist If..." was written by two psychotherapists and a psychiatrist with decades of both personal and professional experience with narcissism. It is filled with many interesting to read stories taken from the authors' or their clients' lives that clearly demonstrate examples of narcissism. A

Narcissism Questionnaire and practical suggestions are given for dealing with narcissism whether it's in your spouse, a co-worker, or even yourself. We all have a little bit of Pharisaism in us. Pharisaism is one of the sins that angered Jesus the most. Yet we are often in bondage to it without realizing it. How can we recognize the warning signs in our own hearts and lives and be set free? Do you consider yourself a better Christian than others? Do you enjoy pointing out others' faults while ignoring your own? Do you fail to practice what you preach? If so, you might be a Pharisee--a modern-day version of the religious leaders in Jesus' day whom He condemned for their legalism and self-righteousness. It's time to take a hard look at your attitudes and behavior and allow the Holy Spirit to set you free. You will learn the following: Twenty-five signs that indicate you might be a Pharisee Why the sin of pharisaism angered Jesus The opposite character trait Jesus modeled Steps to take to rid pharisaism from your heart and mind This book will help you recognize the signs of pharisaism--that is, legalism and self-righteousness--in your own heart and know the steps to avoid this sin. The first time Moses Murphy's granddaughter killed on his orders, she was six years old. For twenty years, she was a prisoner of an organized crime syndicate, forced to use her magic to make Moses the most powerful and feared man on the East Coast. To escape his cruelty, she faked her own death and started a new life as Alice Worth. As a private investigator specializing in cases involving the supernatural, Alice walks a precarious line between atoning for the sins of her grandfather's cabal and keeping her true identity hidden. Hired to investigate the disappearance of a mysterious object of power, Alice enlists the help of Malcolm, a ghost running from a past as nightmarish as her own. It soon becomes clear the missing object was taken by someone with a dangerous secret and an unknown agenda. When her client is kidnapped, Alice must find her and the object of power before a vengeful killer destroys the city and slaughters thousands--starting with Alice. From best selling author W. Winters, comes a collection dark romance readers have been begging for... He'll burn the world for me. He's shown me that truth more than once. His dark gaze holds a secret that filled with turmoil and regret. And his lips on mine, his hands on my body... There's nothing I want more. Even if he is bad for me. The standalone novels included are: It's Our Secret, Possessive and A Kiss to Tell. These three dark romance novels gently pull you into the merciless world most know as All He'll Ever Be. It is dark, seductive and addictive. Enjoy this bingeable collection. This book is about you. Who you really are, in all of your majesty and grandeur. It introduces you to yourself in a way that you haven't known you before. It acknowledges your position as co-creator of the world you experience, eternal in your nature, playing your role in determining what the Ultimate Creator is, whether you believe in one or not. If a lot of it makes sense to you, and it strikes a responsive chord, then you're going to feel better about yourself, your life, and the world, regardless of what you achieve or don't achieve. That's the reason it was written. You are going to understand that right now, you are involved in millions of worlds, many of them far more exciting and fun-filled than the one you know at this moment. But because you're not aware of them in your everyday waking consciousness, you group all of them into a term you call "death." By that you mean everything that might be beyond this world we know, and all the experiences that anyone who isn't "living" might be having. Until now, it's likely you haven't thought much about them. But once you've read this book, you may want to start, because it will help you become aware of the you who exists beyond this little world. Coming to a greater appreciation of the many worlds in which you are currently active, you'll also come to a greater appreciation of this world. You'll begin to comprehend all the advances you can make in it, and all the joy and love you can create, here and in other places at the same time, with very little effort. And that holds true whether you are rich or poor, whether or not you've achieved a lot, and regardless of what the rest of the world thinks about you. Now that's quite a lot to promise, but it really isn't all that difficult to deliver. The reason is, we're living in a strange and unusual time. We are the exception. Most cultures throughout time have had a much clearer notion of what existed beyond this world, and they experienced a much closer connection to that reality. We know that we live for a period of 70 to 100 years or so on this planet, but for the most part, we have very little idea of what comes before or after our time here. The infants who come to join us aren't capable of telling us much, and many of us are suspicious of

any information that is claimed to come from those of us who have died. The result? The majority of us have vague, fuzzy notions about what might exist beyond this life. Some of us like to believe there is a blissful heaven, and we're afraid there may be a hell, a place of horrible punishment for misdeeds committed here on earth. Some of us agree with those scientists who claim that consciousness as we know it arose by accident, from the mixing together of certain particles, and that once we experience physical death, we no longer exist. Many hold to some notion between those two. Regardless of where we might be on that spectrum, many of us are largely ignorant about what might exist beyond these 70 to 100 years. We haven't studied it in depth or thought that much about it, as we go about the business of making a living and trying to live as productive and happy a life as we can. Not knowing causes many of us a lot of anxiety. We're afraid to die. We don't know how we'll be spending the next 50 billion years, but we suspect it will be quite different from this life. If there were an easily understandable idea of what existence was really like after we die and before we are born, most of us would want to know about it. We'd feel reassured. This book is written to those of you who fit that description those of you who, at some level, are seeking greater understanding of the significance of our lives and our world, and how it fits into a "bigger picture." In our strange and unusual time, we experience isolation to a far greater degree than many civilizations have, with the attendant anxieties about what happens to us when we're not here. The positive news is, we have wonderful A young girl learns a valuable lesson about disappointment, acceptance, silver linings, and unexpected opportunities. Sometimes in life, children (and adults!) want something so badly that they can't let go of the idea that what they want is "meant to be." This story, based on a real-life experience, follows a young girl named Macey through the process of losing something that she thought was meant for her. On the other side of disappointment and heartache, Macey learns that sometimes losing out on what we thought we wanted opens the door for something just as good-or even better! Is It Meant to Be? is based on a true story that happened to the author, Kristina, and her family. One night, at their ranch in Idaho, a dog showed up out of nowhere. The family all fell in love with him and felt that he had come to them for a reason. It seemed like he was meant to be their dog. The events that happened after that and the lessons they learned in the process inspired Kristina to write this book. Drawing on interviews, letters, recordings, and police records, an investigative journalist chronicles the life of "Saturday Night Live" star Phil Hartman, focusing especially on the years and moments leading up to the comedian's murder. From the most-read humor site on the internet, Cracked.com YOU MIGHT BE A ZOMBIE... You're going to wish you never picked up this book. Some facts are too terrifying to teach in school. Unfortunately, Cracked.com is more than happy to fill you in: * A zombie apocalypse? It could happen. 50% of humans are infected with a parasite that can take over your brain. * The FDA wouldn't let you eat bugs, right? Actually, you might want to put down those jelly beans. And that apple. And that strawberry yogurt. * Think dolphins are our friends? Then these sex-crazed thrill killers of the sea have you right where they want you. * The most important discovery in the history of genetics? Francis Crick came up with it while on LSD. * Think you're going to choose whether or not to buy this book? Scientists say your brain secretly makes all your decisions 10 seconds before you even know what they are. If you're a fan of The Oatmeal or Frak.com and hate being wrong about stuff, you'll love what you find in YOU MIGHT BE A ZOMBIE from the twisted minds at Cracked. This book details the immense impact that Jorge Luis Borges has had on the thinking and writing of the twentieth century and how many have misunderstood that impact. It highlights how his symbols, techniques, parody, irony, and artful ambiguity in his fiction, essays, and poems force us to question what we can know with certainty, what is real and what is dream, and who we are, and thus define what has become the core of the postmodern vision. The book explores Borges's distinctly Latin American postmodern pluralism. It details how this pluralism has informed the postmodern discussions of the self, love, history, feminism, and politics, and has influenced writers in the U.S. and Latin America. Throughout, it argues that the Argentine writer avoids the nihilism and chaos of a radical relativism that many have come to associate with postmodernism. Rather, his vision affirms values and a search for positive knowledge. Mark Frisch is Associate Professor in the Department of

Modern Languages and Literatures at Duquesne University. A young girl stops to call out all the sights and sounds on her morning trip to pre-school, but that's not what makes her late—it is her dad's goodbye hug. Kate was late for preschool, but not for the reasons you might expect. It wasn't because her daddy brushed her hair into poofs, or because they slowed to say hello to neighbors on the way to the bus stop. It wasn't even because she had to wave to all the trucks, cars, and street cleaners on the road. No, Kate was late because just after they arrived at school, her daddy swooped in to give her a great big goodbye hug that lasted a very long time. Janice N. Harrington is the Ezra Jack Keats Award winning author of *Going North*. With *Hurry Kate or You'll be Late*, she has teamed up with illustrator Tiffany Rose to create a delightful picture book about a vehicle obsessed girl and her very patient father. Beloved TV comedic actor Phil Hartman is best known for his eight brilliant seasons on *Saturday Night Live*, where his versatility and comedic timing resulted in some of the funniest and most famous sketches in the television show's history. Besides his hilarious impersonations of Phil Donahue, Frank Sinatra and Bill Clinton, Hartman's other indelible characters included Cirroc the Unfrozen Caveman Lawyer, Eugene the Anal Retentive Chef and, of course, *Frankenstein*. He also starred as pompous radio broadcaster Bill McNeal in the NBC sitcom *NewsRadio* and voiced numerous classic roles — most memorably washed-up actor and commercial pitchman Troy McClure — on Fox's long-running animated hit *The Simpsons*. But Hartman's seemingly charmed life was cut tragically short when he was fatally shot by his troubled third wife, Brynn, who turned a gun on herself several hours later. The shocking and headline-generating turn of events stunned those closest to the couple as well as countless fans who knew Phil only from afar. Now, for the first time ever, the years and moments leading up to his untimely end are described in illuminating detail through information gleaned from exclusive interviews with scores of famous cast mates, close friends and family members as well as private letters, audio/video recordings, extensive police records, and more. Both joyous tribute and serious biography, Mike Thomas' *You Might Remember Me* is a celebration of Phil Hartman's multi-faceted career and an exhaustively reported, warts-and-all examination of his often intriguing and sometimes complicated life—a powerful, humor-filled and disquieting portrait of a man who was loved by many, admired by millions and taken from them far too early. The tropical state of Porta Bella is *Bling*, where nubile wannabees kick start their career against the visual bliss of the coral-beached mecca of television and fashion shoots. Gainesville City provides international tourists and commercial traffic a backdrop of thousands of kilometres of dangerous, inaccessible alligator infested wetlands. *Hemmed In*, a fast moving adult action thriller with loads of satirical humour, tells of glitz and glamour which involves a psychopath preying on beautiful models. *Homicide Detectives Keeley Harrington and Barney Corvette* are troubled keepers of the peace, following the trail of senseless murder and mayhem that is grotesquely exhibited around the city and wetlands. Keeley Harrington takes exception to the commissioning of an international profiler Victoria Ambrose, and resigns. Now unarmed, unwittingly placing her on the shopping list of a mass murderer. Who is the killing machine, and how does he access a harvest of beautiful womenstrangely, keeping more of his collection alive than dead.so, where does he keep his butterflies? A gripping and disturbing trip through the mind of a demented predator a mix of madness, unexpected adult humour, confusion and evil. Youd be advised to turn on your alarm! *So If You Cant Breathe..You Might Be Hemmed In! You Might Be From Minnesota If..* is a delightful, illustrated romp through the State of Minnesota. From one of the most celebrated cartoonists in the US, Kirk Anderson delivers his unique take on America's most unique state, tickling the funny bone on every page. As Anderson proves, Minnesota is proud of who it is and likes nothing better than a good laugh. Presents the title poem, about a boy named Gustav Delite who tries to turn himself into a monster, plus ten other silly poems featuring such characters as a boy who attracts socks and a cactus that wants a hug. This is book 2 of the Evelina series. Things get even hot. Raised stakes and a matter of life or death. Mankind's existence rest on the shoulders of one woman. The Omega. The first woman has become the last woman. The only true seal. What if it was all planned before this world was created? To save all humanity, mankind must find the only true key; the Omega. On the other hand, to restore the lost kingdom of darkness, the

devil must find the most wanted catalyst; The Omega. When everyone's fate is in your hands what are the risks to yourself? It is a dash against time as total obliteration of the losing team is imminent and inevitable. It is a story of courage, steadfast and honor in the face of death. When loyalty is tested to breaking points. When the person you are to protect is the same person you must kill to save humanity from extinction? Some choices are meant for gods as humans are too weak and unequipped to handle such traumatic experiences. One man's quest to solve God's Dilemma, but at what cost? One lady's quest to clear her name and enjoy life like every woman out there, but with what is at stake will the evil regime turn a blind eye? And at what expense? On the edge of the seat from the word go. A MUST READ. A funny interactive "quiz" identifies the most special creature of all — you! Do you ever feel like you're different from everyone else? Like there's no one quite like you? Then you might be special! Take this quiz to find out! This playful "quiz" first asks conventional Yes! questions, like: "Do you like to stay up late? Are you sometimes wild and crazy?" Then, "Do people run away when they see your furry face and pointy teeth?" No? Then you're not a werewolf! This pattern repeats for several fantastical creatures — unicorns, dragons, mermaids — until finally children are reassured: they are special, "because you're YOU!" A one-of-a-kind book for every one-of-a-kind kid! You Might Be A Redneck if... You use a fishing license as a form of I.D. Your screen door has no screen. You've been on TV more than once describing what the tornado sounded like. You have a black eye and a hickey at the same time. You ever waved at traffic from your front porch wearing just your underwear. Containing more than 2,000 entries with more than 200 illustrations, You Might Be A Redneck if... This Is The Biggest Book You've Ever Read will be a must-own book for die-hard fans of Jeff Foxworthy. Creatively packaged and attractively priced, this book also features more than 1,500 entries that have never been published in book form. Just like the back half of the Walmart parking lot this book is made just for RVers. A collection of some of the funniest RV jokes ever put in to print you will now have an even better excuse to spend more time on the commode! You might be a RVer If... roughing it is only water and electric. a toad is not an amphibian. you know what a "dump" really is. going out for drinks means sitting under the awning with a beer. your spouse is now referred to as the GPS. your idea of a "well manicured lawn" is a clean patio mat. If you can drive better in reverse than most people drive forward. If after buying a new bigger truck you decide that now you can buy a new bigger trailer... and the cycle keeps repeating! If you buy things you will never need simply because they are collapsible. and hundreds more! The perfect book to bring along on the next trip or to pass out at the book exchange. Order your copy today! Sand Kahn Shelton is a humor columnist for Working Mother magazine. The book contains selected columns plus some original material. Some facts are too terrifying to teach in school. Unfortunately, Cracked.com is more than happy to fill you in with this hilarious tome of trivia. • A zombie apocalypse? It could happen. 50% of humans are infected with a parasite that can take over your brain. • The FDA wouldn't let you eat bugs, right? Actually, you might want to put down those jelly beans. And that apple. And that strawberry yogurt. • Think dolphins are our friends? Then these sex-crazed thrill killers of the sea have you right where they want you. • The most important discovery in the history of genetics? Francis Crick came up with it while on LSD. • Think you're going to choose whether or not to buy this book? Scientists say your brain secretly makes all your decisions 10 seconds before you even know what they are. If you're a fan of The Oatmeal or Frak.com and hate being wrong about stuff, you'll love what you find in You Might Be a Zombie from the twisted minds at Cracked. A fascinating guide to strange-but-true jobs. Are you, or someone you laugh with, drink with, pray with or sing sad songs with Irish? If so, 100 SIGNS YOU MIGHT BE IRISH; OBSERVATIONS, WIT & WISDOM ABOUT THE WAYS OF THE IRISH is the perfect gift book, even if the gift is to yourself. Humorist, poet and most importantly, Irish-American Brian Patrick Cleary has wedged more than a wee bit of laughter in the 100 funny "bits," all containing tiny truths about folks who come from the land of Erin. Irish humor abounds! Pretend it's St. Patrick's Day every day with little bits of wit and wisdom. What are some signs that you might be Irish? You own what non-Irish folks would call a vegetable peeler that you use exclusively for potatoes. One family member in the past three generations was named Mary. One of your relatives lived with his "ma" till

he was 54. Sound familiar? The Irish love laughter, poetry and truth, and you'll find all three in Cleary's book. Send a copy and you'll have someone's Irish eyes smiling in no time. DescriptionIt is about the journey R takes on her partial escape from the mental hospital. It looks at her fleeting relationships and the importance of her cat to her recovery. About the AuthorRuth Carter had a happy childhood, she walked the fields on the small farm. Her father pointed out wild strawberries, violets and early purple orchids. Her mother had ample arms with which she cuddled her four children. It was only when the eldest daughter died that her mother suffered severe depression and became aggressive towards the other three. The picture of the lost one was placed on the mantelpiece with fresh flowers placed at the side. Even though the girl did not even like her older sister she wrote letters to her. She wrote to the angels and left them where her mother might find them in the hope that she could be loved again.
