Quicksand Apr 04 2021 Born to a white mother and an absent black father, and despised for her dark skin, Helga Crane has long had to fend for herself. As a young woman, Helga teaches at an all-black school in the South, but even here she feels different. Moving to Harlem and eventually to Denmark, she attempts to carve out a comfortable life and place for herself, but ends up back where she started, choosing emotional freedom that

quickly translates into a narrow existence. Quicksand, Nella Larsen's powerful first novel, has intriguing autobiographical parallels and at the same time invokes the international dimension of African American culture of the 1920s. It also evocatively portrays the racial and gender restrictions that can mark a life. "Fine, thoughtful and courageous. It is, on the whole, the best piece of fiction that Negro America has produced since the heyday of [Charles] Chesnutt." (W. E. B. Du Bois)

The Art of Mixing Jan 01 2021 David Gibson uses 3D visual representations of sounds in a mix as a tool to explain the dynamics that can be created in a mix. This book provides an in-depth exploration into the aesthetics of what makes a great mix. Gibson's unique approach explains how to map sounds to visuals in order to create a visual framework that can be used to analyze what is going on in any mix. Once you have the framework down, Gibson then uses it to explain the traditions that have been developed over time by great recording engineers for different styles of music and songs. You will come to understand everything that can be done in a mix to create dynamics that affect people in really deep ways. Once you understand what engineers are doing to create the great mixes they do, you can then use this framework to develop your own values as to what you feel is a good mix. Once you have a perspective on what all can be done, you have the power to be truly creative on your own - to create whole new mixing possibilities. It is all about creating art out of technology. This book goes beyond explaining what the equipment does - it explains what to do with the equipment to make the best possible mixes.
