Marriage in the Early Republic Mar 10 2021 Jabour's book has the advantage of giving us a microhistorical look at a single, well-documented marriage, allowing her to trace the evolving tensions between ideals and realities over the course of their entire marriage and parenting experience.

Triumphant: How to Write a Winning Blog Nov 17 2021 Are you thinking about starting a blog? Do you already have a blog but you're just not quite sure what to do with it? If the answer is yes, then this book is for you. What exactly will you find in this book? Well, how about I start by telling you what you won't find. In this book you're not going to find cheap blogging philosophy. You know, the kinds of tips and tricks people try to sell you even when they themselves have never had any blogging success. In this book you're not going to find a "Blogging 101" type of course on the technical details of how to start a blog. In today's world, blog creation platforms are so intuitive and easy to use that it wouldn't even be worth your time to read a book like that. So if that's the kind of thing you're looking for, I'd recommend you check out one of the many "How to create a blog" tutorials that you can find on YouTube, among other places. Another thing you won't find in this book is a magic formula for "how to become a blogging millionaire in two weeks." Believe me, if anyone offers you anything that sounds like that, run away...immediately. What you will find in this book is a short summary of what I've written in my personal blog (El Último Blog) over the last ten years. In these ten years I have not only maintained my own personal blog, but I have also directed a blogging network with over 50 other writers, I've given conferences and taught classes on blogging, I've contributed to various book publications, etc. What I hope to share with you in this book, as a summary of these past ten years of blogging, is a selection of 15 articles which I believe reflect, in a clear and concise way, everything you'll need in order to write a winning blog. These articles will be just 15 out of the 2,000 plus articles that I have published over the years. I've taken the original versions and touched them up a bit, so that while the

Mexico Aug 03 2020 * Mexico was named an Outstanding Academic Title of 2010 by Choice Magazine.Bloodshed connected with Mexican drug cartels, how they emerged, and their impact on the United States is the subject of this frightening book. Savage narcotics-related decapitations, castrations, and other murders have destroyed tourism in many Mexican communities and such savagery is now cascading across the border into the United States. Grayson explores how this spiral of violence emerged in Mexico, its impact on the country and its northern neighbor, and the prospects for managing it.Mexico's Institutional Revolutionary Party (PRI) ruled in Tammany Hall fashion for seventy-nine years before losing the presidency in 2000 to the center-right National Action Party (PAN). Grayson focuses on drug wars, prohibition, corruption, and other antecedents that occurred during the PRI's hegemony. He illuminates the diaspora of drug cartels and their fragmentation, analyzes the emergence of new gangs, sets forth President Felipe Calderón's strategy against vicious criminal organizations, and assesses its relative success. Grayson reviews the effect of narcotics-focused issues in U.S.-Mexican relations. He considers the possibility that Mexico may become a failed state, as feared by opinion-leaders, even as it pursues an aggressive but thus far unsuccessful crusade against the importation, processing, and sale of illegal substances.Becoming a failed state involves two dimensions of state power: its scope, or the different functions and goals taken on by governments, and its strength, or the government's ability to plan and execute policies. The Mexican state boasts an extensive scope evidenced by its monopoly over the petroleum industry, its role as the major supplier of electricity, its financing of public education, its numerous retirement and health-care programs, its control of public universities, and its dominance

Muted Modernists Dec 07 2020 Analysis of both official and opposition Saudi divine politics is often monolithic, conjuring images of conservatism, radicalism, misogyny and resistance to democracy. Madawi Al-Rasheed challenges this stereotype as she examines a long tradition of engaging with modernism that gathered momentum with the Arab uprisings and incurred the wrath of both the regime and its Wahhabi supporters. With this nascent modernism, constructions of new divine politics, anchored in a rigorous reinterpretation of foundational Islamic texts and civil society activism are emerging in a context where authoritarian rule prefers its advocates to remain muted. The author challenges scholarly wisdom on Islamism in general and blurs the boundaries between secular and religious politics.

Jewish "Junior League" Feb 18 2022 From its founding in 1901 through the second half of the twentieth century, the Fort Worth section of the National Council of Jewish Women fostered the integration of its members into the social and cultural fabric of the greater community. Along the way, it championed important social causes, including an Americanization school for immigrants and literacy initiatives. But by 1999, facing declining membership and—according to some—decreased relevance to the lives of Jewish women, the Council's national and local leaders found themselves confronting the end of the group's existence. Hollace Ava Weiner has mined the records of this organization at both the local and national levels, interviewed surviving members, and examined Fort Worth newspapers and other local historical documents. Her lively and careful study reveals that the Fort Worth Council of Jewish Women was, in fact, so successful that it prepared the way for its own obsolescence. By century's end, the members and the times had changed more rapidly than the Council. While Jewish "Junior League" focuses on a particular organization in a particular city, it simultaneously serves as a case study for the exploration of important themes of women's and Jewish history throughout the twentieth century.

Color for Architects (Architecture Brief) Dec 19 2021 As far back as the earliest Greek temples, color has been an integral part of architecture but also one of its least understood elements. Color theory is rarely taught in architecture schools, leaving architects to puzzle out the hows and whys of which colors to select and how they interact, complement, or clash. Color for Architects is profusely illustrated and provides a clear, concise primer on color for designers of every kind. This latest volume in our Architecture Briefs series combines the theoretical and practical, providing the basics on which to build a fuller mastery of this essential component of design. A wealth of built examples, exercises, and activities allows students to apply their learning of color to real-world situations.

North Alabama Beer Sep 27 2022 North Alabama built its first commercial brewery in Huntsville in 1819, three months before the state joined the Union. Before Prohibition in 1915, the region was peppered with numerous saloons, taverns and dance halls. Locals still found ways to get their booze during Prohibition using Tennessee River steamboats and secret tunnels for smuggling. Alabama re-legalized beer in 1937, but it wasn't until 2004, when the grass-roots organization Free the Hops took on the state's harsh beer laws, that the craft beer scene really began to flourish. Authors Sarah Bélanger and Kamara Bowling Davis trace the history of beer in North Alabama from the early saloon days to the craft beer explosion.

Illicit Tactical Progress Dec 31 2022 This book is an eye-opener that may be an appalling representation of current events in Mexico, but it is based on factual reports of the strength, manner, and frequency of the cartel violence that occurs every day in Mexico. ... As long as the cartels continue to keep their wars inside Mexico and as long as Mexico does not ask for US help, the status quo will continue, and we will see this level and scope of violence incrementally increase in that nation.

Tensor Voting Jul 02 2020 This lecture presents research on a general framework for perceptual organization that was contacted mainly at the Institute for Robotics and Intelligent Systems of the University of Southern California. It is not written as a historical recount of the work, since the sequence of the presentation is not in chronological order. It aims at presenting an approach to a wide range of problems in computer vision and machine learning that is data-driven, local and requires a minimal number of assumptions. The tensor voting framework combines these properties and provides a unified perceptual organization methodology applicable in situations that may seem heterogeneous initially. Authors Philippos Mordohai and Gerard Medioni show how several problems can be posed as the organization of the inputs into salient perceptual structures, which are inferred via tensor voting. The book extends the original tensor voting framework with the addition of boundary inference capabilities, a novel re-formulation of the framework applicable to high-dimensional spaces and the development of algorithms for computer vision and machine learning problems. The authors provide complete analysis for some problems and briefly outline the approach for other applications and provide references to relevant sources.

Blogging in Beirut Aug 15 2021 Unlike previous media-analytic research, Sarah Jurkiewicz's anthropological study understands blogging as a social field and a domain of practice. This approach underlines the significance of blogging in practitioners' daily lives and for their self-understanding. In this context, the notion of publicness enables a consideration of publics not as static 'spheres' that actors merely enter, but as produced and constituted by social practices. The vibrant media landscape of Beirut serves as a selection of samples for an ethnographic exploration of blogging.

Género y diversidad sexual en el blog "Boquitas pintadas" Aug 27 2022 En un contexto posterior a la sanción de la Ley Nacional N° 26.618/10, que permite que dos cónyuges contraigan matrimonio y adopten hijos sin importar su identidad de género, Magalí Pérez Riedel realiza una investigación que busca entender cómo los sujetos intervinieron en ese blog en octubre y noviembre de 2011, meses próximos a las Marchas anuales del Orgullo LGBT en Argentina. Para ello analiza 3.085 intervenciones de los usuarios, que incluyen 699 comentarios. En el libro Género y diversidad sexual en el blog "Boquitas pintadas", el lector encontrará teorías, herramientas metodológicas, explicaciones y conclusiones, pero también hallará estereotipos e insultos que dan cuenta de cómo se participa en un sitio gay-friendly del multimedio La Nación. Desde luego, una vez que lea este texto se separará con algo más: no todo es violencia en la World Wide Web, pero sí en muchos de los casos. Pero, ¿por qué hablamos de violencia? La respuesta está adentro (y también por fuera) de este libro.

A War that Can't Be Won May 24 2022 More than forty years have passed since President Richard Nixon described illegal drugs as "public enemy number one" and declared a "War on Drugs." Recently the United Nations Global Commission on Drug Policy declared that "the global war on drugs has failed with devastating consequences for individuals and societies around the world." Arguably, no other country has suffered as much from the War on Drugs as Mexico. From 2006 to 2012 alone, at least sixty thousand people have died. Some experts have said that the actual number is more than one hundred thousand. Because the war was conceived and structured by US policymakers and officials, many commentators believe that the United States is deeply implicated in the bloodshed. A War that Can't Be Won is the first book to include contributions from scholars on both sides of the US-Mexico border. It provides a unique breadth of perspective on the many dimensions of the societal crisis that affects residents of both nations—particularly those who live and work in the borderlands. It also proposes practical steps toward solving a crisis that shows no signs of abating under current policies. Each chapter is based on well-documented data, including previously unavailable evidence that was obtained through freedom-of-information inquiries in Mexico. By bringing together views from both sides of the border, as well as from various academic disciplines, this volume offers a much wider view of a complex problem—and possible solutions.

El Blog en la Empresa Feb 01 2023 Un blog es un sitio web generado por el usuario que recoge los mensajes en orden cronológico inverso, donde siempre lista el mensaje más reciente en primer lugar. Pero la verdadera belleza de los blogs reside en su simplicidad. No es necesario llevar a cabo el tedioso proceso de aprender HTML, diseño web o codificación, al contrario de lo que ocurre para utilizar un sitio web funcional. Puede actualizar un blog a través de cualquier conexión a Internet, incluso actualizarlo usando un teléfono móvil. La creación de un blog puede llevar tan poco tiempo como tan sólo cinco minutos (y eso si no está seguro de lo que está haciendo) y ya está listo para publicar su contenido. Es así de fácil. Si usted puede enviar un correo electrónico, usted está más que listo y capacitado para iniciarse en los blogs.

American Lazarus Oct 17 2021 This book explores the means by which the very first Black and Indian authors rose up to transform their communities and the course of American literary history. It argues that the origins of modern African-American and American Indian literatures emerged at the revolutionary crossroads of religion and racial formation.

Cyberactivism and Citizen Journalism in Egypt Apr 30 2020 This compelling book explores how Egyptian bloggers used citizen journalism and cyberactivism to chip away at the state's monopoly on information and recalibrate the power dynamics between an authoritarian regime and its citizens. When the Arab uprisings broke out in early 2011 and ousted entrenched leaders across the region, social media and the Internet were widely credited with playing a role, particularly when the Egyptian government shut down the Internet and mobile phone networks in an attempt to stave off the unrest there. But what these reports missed were the years of grassroots organizing, digital activism, and political awareness-raising that laid the groundwork for this revolutionary change. Radsch argues that Egyptian bloggers created new social movements using blogging and social media, often at significant personal risk, so that less than a decade after the information revolution came to Egypt they successfully mobilized the overthrow of the state and its president.

New Light on Luke Feb 27 2020 This radical new interpretation reveals many connections between Luke and Johannine traditions. Comparison of pericopae shared by Luke and John suggests that the usual assumptions of Lukan priority may be mistaken; instead his may be chronologically the fourth gospel. Luke nevertheless treats his sources in different ways, his response being both critical and creative. He aims to give security to Christians by including as much as possible and reconciling conflicting traditions, while firmly excluding heretical misinterpretation. Shellard also includes a consideration of Luke's use of possible sources, both canonical and extra-canonical, and places Luke-Acts in its literary context, noting among other things the presentation of Rome as a facilitator of evangelization and a promoter of co-existence.>

Sustainable Approaches in Textiles and Fashion Jan 08 2021 This second volume in this set of books discusses various sustainable approaches in textiles and the fashion sector with a focus on consumerism and the supply chain. Sustainability is one of the important aspects in today's industrial context, and is no exception to textiles and fashion. Sustainability and strict adherence to the principles of sustainability has become as one of the essential needs again for any industrial sector including textiles and fashion. There are countless measures in terms of various approaches to make the textiles and fashion sector sustainable. These measures, but not limited to, ranging from innovating and implementing new fibres and raw materials, introducing innovative manufacturing methods, chemicals, processes to focus on all the possible stages of a textile product's life cycle from cradle to grave. These approaches include making the textiles and fashion sector circular and also development of new products from sustainable raw materials/processes or combination of both.

The News Media in Puerto Rico May 04 2023 The News Media in Puerto Rico offers a synopsis as well as a critical analysis of the Island's news media system, with emphasis on the political and economic factors that most influence how the media operate. The authors also document the impact of Hurricane Maria on the media structures and the changing media landscape given the political, economic and colonial strictures. Building on interviews with news media professionals, the book further presents detailed insights about journalism and journalism education in these times of crises. The final chapters include theoretical frameworks and methodological guidelines for the analysis of other colonial, post-colonial and neo-colonial media systems, with research recommendations valuable for future studies of the Island's media as well as for cross-national comparisons. This book will be an essential read for students and scholars interested in learning not only about the Puerto Rican and Latin American mass media, but also the media systems of other colonial/neo-colonial countries.

Perspectives on Human-Computer Interaction Research with Older People Jul 14 2021 This book promotes a critical reflection about the research conducted so far in Human-Computer Interaction (HCI) with older people, whose predominant perspective focuses on decline, health, and help. It introduces a new (or different) perspective, which is grounded in interdisciplinary research on older people and digital technologies. Key elements are to (i) address topics that include, but also go beyond decline, health, and help, such as leisure, fun, creativity and culture, to delve more deeply into the role of digital technologies in multiple facets of older people's lives; (ii) focus on doing research and designing technologies with and for older adults, and their communities, to avoid and fight against negative social conceptions of ageing; and (iii) examine older people's life course, strengths, interests, and values, as well as their limitations and needs, to design technologies that not only help but also empower them, extending their abilities and acquiring new knowledge, beyond technology use. This perspective aims to help us better understand, design, and evaluate older people's interactions with digital technologies in the early 21st century.

1 Cor 12-14 Oct 05 2020 The present book establishes the literary structure of 1 Cor 12-14 through the consideration of a multiplicity of literary indications and their convergence. The determination of the structure constitutes an important step in understanding both the logic of Paul's argumentation in general and the function of chap. 13 in particular, moreover, this approach sheds light on questions related to the authenticity of some sections of 1 cor 12-14. After a critical review of how recent scholars have construed the structure of 1 cor 12-14 (chaps. 1-2), the study examines those literary features of 1 Cor 12-14 that suggest a new way of viewing the structural organization of the text (chap. 3). Finally, the theological consequences to be derived from the adoption of the proposed structure are presented (chap. 4). The method employed here for uncovering the literary structure of the text through an objective and rigorous examination of its literary indications is that of Fr. Albert Vanhoye S.J. The present work is therefore offered as a practical and detailed example of the method in question. Jose Enrique Aguilar Chiu born in 1960 in Acapulco, Mexico,, obtained his doctorate in sacred scripture at the Pontifical Biblical Institute in Rome, Italy. He has taught at the seminary of New York and the Seminary of Philadelphia.

Experiencias May 31 2020 Follow Daniel around the Spanish-speaking world as he guides students through this innovative new language course Experiencias: Beginning Spanish is a dynamic and innovative introductory Spanish course that builds students' language competency and offers realistic language encounters, so they can begin communicating in Spanish as early as possible. In Experiencias: Beginning Spanish, students meet Daniel, a native Spanish speaker who guides them through the learning process. For each chapter, there is a video episode of Daniel's "how to" show, where he interviews his Spanish-speaking friends about authentic topics of interest to today's students. The Experiencias course focuses on connecting language with culture,

engaging students with content related to the perspectives of native speakers. Each chapter focuses on a different country, integrating grammar and vocabulary into real-world units that will give students a sense of excitement and wonder. Additional pedagogical features include an emphasis on metacognitive learning strategies, a reduced grammatical syllabus that leaves room for extra work on challenging areas, and content recycling throughout the text for enhanced language mastery. Takes students on a journey through the Spanish-speaking world, featuring a different country in each chapter Offers innovative pedagogical techniques and activities drawn from the authors' own classroom research Engages students with a focus on culture, practical communication, and video interviews with native Spanish speakers Develops oral and written communication skills through authentic tasks structured by the ACTFL Proficiency Guidelines With WileyPLUS for Experiencias: Beginning Spanish, students have access to an enhanced e-text featuring videos, audio recordings, interactive vocabulary exercises, educational animations, links to additional resources, and more. This text is an excellent choice for today's beginning Spanish speakers, whether in traditional or online classroom environments.

Trafficking Mar 02 2023 In Trafficking Hector Amaya examines how the dramatic escalation of drug violence in Mexico in 2008 prompted new forms of participation in public culture in Mexico and the United States. He contends that, by becoming a site of national and transnational debate about the role of the state, this violence altered the forms publicness could take, transforming assumptions about freedom of expression and the rules of public participation. Amaya examines the practices of narcocorrido musicians who take advantage of digital production and distribution technologies to escape Mexican censors and to share music across the US-Mexico border, as well as anonymous bloggers whose coverage of trafficking and violence from a place of relative safety made them public heroes. These new forms of being in the public sphere, Amaya demonstrates, evolved to exceed the bounds of the state and traditional media sources, signaling the inadequacy of democratic theories of freedom and publicness to understand how violence shapes public discourse.

Collecting and the Internet Mar 29 2020 The Internet has had a profound effect on collecting—because of the Web, collectibles are now more readily available, collections more easily displayed for a wider audience, and collectors' online communities are larger and often quite intimate. In addition, the Web has added new items to the pantheon of collectibles, including digital bits that, whether considered virtual or material, are nevertheless collectible. In this work, essays discuss the age-old habit of collecting and its modern relationship with the Internet. Topics include individually authored websites, online auctions, watches, eyewear, Kelly dolls, the gambler's rush of online acquisition, mp3s, collecting friends via online social networking sites, and online museums, among others.
