Fundamentals of Fire Protection for the Safety Professional provides safety managers with a guide for incorporating fire hazard awareness and protection into their safety management plans. Industrial fires pose one of the greatest threats to organizations in terms of financial, human, and property losses. Understanding fire safety basics, the physics of fire, and the properties and classes of common hazards is key to designing fire safety management programs that not only protect an organization's assets but also ensure the safe evacuation of all involved. Fundamentals of Fire Protection for the Safety Professional takes an in-depth look at fire hazards in the workplace—from the substances required to do business to the building construction itself—and provides practical fire safety principles that can be applied in any work environment. Readers will learn how to develop emergency action plans and fire prevention plans, implement effective alarm and detection systems and fire extinguishment systems, and develop a comprehensive fire program management plan that is in compliance with Federal Emergency Management Agency, Occupational Safety and Health Administration, Environmental Protection Agency, and National Fire Protection Association standards. Each chapter includes a chapter summary and sample problems, making this an ideal training tool in the workplace or the classroom. Answers to chapter questions and a comprehensive glossary and index are provided at the end of the book. In works by well-known authors like Rebecca West and Edith Wharton, as well as writers from India, Armenia, Hungary, and the Cameroons, we hear women speaking out on such issues as politics, economic justice, and social reform."--BOOK JACKET. The heir of ash and fire bows to no one. A new threat rises in the third book in the #1 bestselling Throne of Glass series by Sarah J. Maas. Celaena Sardothien has survived deadly contests and shattering heartbreak, but now she must travel to a new land to confront her darkest truth. That truth could change her life-and her future-forever. Meanwhile, monstrous forces are gathering on the horizon, intent on enslaving her world. To defeat them, Celaena will need the strength not only to fight the evil that is about to be unleashed but also to harness her inner demons. If she is to win this battle, she must find the courage to face her destiny-and burn brighter than ever before. The third book in the #1 New York Times bestselling Throne of Glass series continues Celaena's epic journey from woman to warrior. Across Canada peace officers put their lives on the line every day. From John Fisk in 1804, the first known Canadian policeman killed in the line of duty, to the four RCMP officers shot to death in Mayerthorpe, Alberta, in 2005, renowned true crime writer Edward Butts takes a hard-hitting, compassionate, probing look at some of the stories involving the hundreds of Canadian law-enforcement officers who have found themselves in harm's way. Some, like the four RCMP officers who perished in the Northwest Territories on the "Lost Patrol" of 1910, died in horrible accidents while performing their duties. Others, such as the Mounties involved in the manhunts for Almighty Voice and the Mad Trapper of Rat River, found themselves in extremely dangerous, violent situations. One thing is certain about all of these peace officers: they displayed amazing courage and never hesitated to make the ultimate sacrifice for their fellow citizens. NATIONAL BESTSELLER • "Steven Pressfield brings the battle of Thermopylae to brilliant life."—Pat Conroy At Thermopylae, a rocky mountain pass in northern Greece, the feared and admired Spartan soldiers stood three hundred strong. Theirs was a suicide mission, to hold the pass against the invading millions of the mighty Persian army. Day after bloody day they withstood the terrible onslaught, buying time for the Greeks to rally their forces. Born into a cult of spiritual courage, physical endurance, and unmatched battle skill, the Spartans would be remembered for the greatest military stand in history—one that would not end until the rocks were awash with blood, leaving only one gravely injured Spartan squire to tell the tale. . . . In the wake of disaster emergency

responders are first on the scene and last to leave. They put concern for the lives of others over concern for their own lives, and work tirelessly to recover the bodies of the missing. Their heroic actions save lives, provide comfort to and care for the wounded and inspire onlookers, but at what cost to themselves? We now know that rescue workers who are exposed to mutilated bodies, mass destruction, multiple casualties, and life-threatening situations may become the hidden victims of disaster. The traumatic consequences of exposure can profoundly impact emergency responders, radiate to their families, and permeate the emergency organization. This much-needed new book, based on the authors' original research and clinical experience, describes the consequences of trauma exposure on police officers, fire fighters, and paramedics. Weaving data collected in large-scale quantitative studies with the personal stories of responders shared in qualitative interviews, this much-needed account explores the personal, organizational, and societal factors that can ameliorate or exacerbate traumatic response. Stress theory, organizational theory, crisis theory, and trauma theory provide a framework for understanding trauma responses and guiding intervention strategies. Using an ecological perspective, the authors explore interventions spanning prevention, disaster response, and follow-up, on individual, family, group, organizational, and community levels. They provide specific suggestions for planning intervention programs, developing trauma response teams, training emergency service responders and mental health professionals, and evaluating the effectiveness of services provided. Disaster, whether large-scale or small, underscores our ongoing vulnerability and the crucial need for response plans that address the health and well being of those who confront disaster on a daily basis. In the Line of Fire speaks directly to these emergency response workers as well as to the mental health professionals who provide them with services, the administrators who support their efforts, and the family members who wonder if their loved one will return home safely from work tonight. In 2004, Erin Solaro went to Iraq to study American servicewomen — what they were doing, how well they were doing it, how they were faring in combat. In 2005, she went to Afghanistan on the same mission. Having spent time embedded with combat troops and conducting stateside interviews with numerous analysts and veterans, Solaro is convinced that the time to drop all remaining restrictions on women's full equality under arms is now. The Army, the country, the women of America — and of the world — need it. Women in the Line of Fire details why this will not be an easy task. Although 15 percent of the military is female, the Army and Marines still resist acknowledging what is, in fact, already happening — women are fighting, and fighting well. For the Religious Right and the cultural conservatives, women in combat is a hot-button issue in their campaign to "take back the culture." But for the young men and women on the lines, brought up in an America where equality between the sexes was never second guessed and where making up the rules as you go along comes with the territory, it's the new reality. Describes the experiences of a newcomer to the Yukon when he attempts to hike through the snow to reach a mining claim. Denny's father died in a fire at the chemical plant where he worked and Denny blames the owner for the tragedy. Denny, an expert marksman is so consumed with rage that he doesn't realize he too has become a target, like his father before him. It is up to Frank and Joe to solve the mystery of Mr Payson's death, before it is too late for their friend. From Syrian civilians locked in iron cages to veterans joining peaceful indigenous water protectors at the Standing Rock Sioux Reservation, from Sri Lanka to Iraq and from Yemen to the United States, human beings have been used as shields for protection, coercion, or deterrence. Over the past decade, human shields have also appeared with increasing frequency in antinuclear struggles, civil and environmental protests, and even computer games. The phenomenon, however, is by no means a new one. Describing the use of human shields in key historical and contemporary moments across the globe, Neve Gordon and Nicola Perugini demonstrate how the increasing weaponization of human beings has made the position of civilians trapped in theaters of violence more precarious and their lives more expendable. They show how the law facilitates the use of lethal violence against vulnerable people while portraying it as humane, but they also reveal how people can and do use their own vulnerability to resist violence and denounce forms of dehumanization. Ultimately, Human Shields unsettles our common ethical assumptions about violence and the law and urges us to imagine entirely new forms of humane politics. In the vein of Lisa Jackson and Julia Maynard, a dark and compulsive mystery about secrets too

big for the small town's bitches. When secrets are too big to buy, it's worth killing to bury them. Growing up, Laura Mori was constantly overshadowed by her far more successful siblings. She had a tough time appeasing her parents, and now that she's a police officer, recently promoted to detective, they still seem less than fazed. Everyone knows a cop's salary—it's meager, to say the least. But Laura has found her calling—she was born to be a detective and is determined to prove it, if not to her parents, then at least to the boys club that is Sunrise Lake PD. She sticks out like a sore thumb as the only young female minority, but she has resolved to at least seem like an unshakeable thumb. The next case file on her desk turns out to be a bank heist and it should be easy enough, but what starts off as a one-and-done job quickly begins to seem too by-the-book and oddly like a notorious series of deadly bank hits from years past dubbed Twilight. But it's a dead end—Twilight is only ever mentioned in hushed tones, and there's little to no history on it in the department. And then she receives her first sign, of many more to come, that her investigation is not welcome. Alongside her partner Z and stunningly attractive FBI agent Nick Derringer, she begins to pull on the frayed thread, and that's when she sees the bloody writing on the wall: the only other young female cop on the force was KIA during Twilight. With too much on the line to lose, including her own life, Laura must get to the bottom of the case and fast, or she, too, will become history.

One winter's morning, illustrator Barroux was walking down a street in Paris when he made an incredible discovery: the diary of a soldier from the First World War. Barroux rescued the diary from the rubbish and subsequently illustrated the soldier's words. We have no idea who our soldier is or what became of him. We just have his own words about the first two months of the war, and Barroux's accompanying images. When Wolfi, a brilliant young philosophy student, begins recounting his life - from his inquisitorial father and passionate mother, to his eccentric grandmother who paid for his sexual initiation with the beautiful Andrea - we are lured into a mysterious and erotic maze. But what in fact is fact, and what in fiction is fiction? Brilliantly seductive, *Out of the Line of Fire* was the literary sensation of the year when it was first published, in 1988. Mark Henshaw has lived in France, Germany, Yugoslavia and the USA. He currently lives in Canberra. His first novel, *Out of the Line of Fire* (1988), won the FAW Barbara Ramsden Award and the NBC New Writers Award. It was one of the biggest selling Australian literary novels of the decade and has been re-released as a Text Classic. *The Snow Kimono* won the 2014 NSW Premier's Award for Fiction and Mark Henshaw was the 2015 winner of the Copyright Agency's Author Fellowship. 'A dazzling debut. A tour de force. This book is imaginative, virtuosic, and awesomely assured. It is compulsive reading.' Don Anderson 'Experimental, extraordinary...*Out of the Line of Fire*, published in 1988, remains one of my favourite Australian novels.' Stephen Romei, Australian 'An Australian writer heads to Germany, where he gets strong doses of philosophy, violence, taboo sex, and unreliable narration...The novel feels like an id laid bare, and Henshaw keeps the story in line while constantly pointing out the limitations of words to capture reality. A remarkable and brainy work of metafiction.' STARRED Review, Kirkus 'A clever and playful text, offering both a decent story that includes quite a few sordid episodes and behaviour as well as lofty (but accessible) literary and philosophical speculation, and more than a few mysteries...It's an interesting take on the literary-philosophical novel, with a deceptively light writing touch that differentiates it from most continental novels playing with similar tricks. The scenes, the asides, and the speculation are, both separately and together, good (if sometimes somewhat creepy) fun, and *Out of the Line of Fire* is a smart and smartly twisted novel.' It is almost unprecedented for a head of state to publish a memoir while still in office. But Pervez Musharraf is no ordinary head of state. As President of Pakistan since 1999, his is one of the most dangerous jobs in the world, and he continues to play a crucial role in the global war on terror. A one-time supporter of the Taliban, a general who fought in several wars, President Musharraf took a decisive turn against militant Islam in 2001. Since then he has survived two

assassination attempts; rooted out militants in his own government; helped direct countless raids against al-Qaeda both in his cities and in the mountains; and tracked Osama bin Laden with technical and human intelligence. IN THE LINE OF FIRE is astonishingly revealing and honest about dozens of topics of intense interest to the world. Among its many revelations: exactly how Pakistani authorities tracked down and smashed three major al-Qaeda control centres in the mountains; how al-Qaeda's many-layered structure was revealed after the assassination attempts; Bin Laden's current position within the al-Qaeda hierarchy; what it has been like to deal with Bush and Blair; how Pakistan and India have avoided nuclear confrontation; and much more. The terrible earthquake of 2005, killing nearly 40,000 Pakistanis, is just one chapter in a life and career that has been filled with danger and drama. The worldwide launch of President Musharraf's memoir promises to be a sensation. "On his first mission Worf is caught between the Federation and the Klingon Empire!" front cover. "It's not like I wanted to be a hero." It was June 6, 1944 -- D-Day. That was the beginning of the largest invasion in history. Two million young men were waiting to storm Europe. Keith Taber is one of them. He has been torn from his home and family, and now he must risk his life for a cause he doesn't really understand. Watch through his eyes as he discovers what war is like. -- Cover. Line of Fire brings to life a desperate mission of World War 2 that captures the drama and courage of the men who fought it. Two Marines, reporting on Japanese air activity, are trapped on a small Coastwatcher island. A special rescue team is assembled to save them—under enemy gunsight. It is an exciting and powerful story of real heroism that only W.E.B. Griffin could tell... "In Fernanda Santos' expert hands, the story of 19 men and a raging wildfire unfolds as a riveting, pulse-pounding account of an American tragedy; and also as a meditation on manhood, brotherhood and family love. The Fire Line is a great and deeply moving book about courageous men and women." - Héctor Tobar, author of Deep Down Dark: The Untold Stories of 33 Men Buried in a Chilean Mine and the Miracle that Set Them Free. When a bolt of lightning ignited a hilltop in the sleepy town of Yarnell, Arizona, in June of 2013, setting off a blaze that would grow into one of the deadliest fires in American history, the twenty men who made up the Granite Mountain Hotshots sprang into action. An elite crew trained to combat the most challenging wildfires, the Granite Mountain Hotshots were a ragtag family, crisscrossing the American West and wherever else the fires took them. The Hotshots were loyal to one another and dedicated to the tough job they had. There's Eric Marsh, their devoted and demanding superintendent who turned his own personal demons into lessons he used to mold, train and guide his crew; Jesse Steed, their captain, a former Marine, a beast on the fire line and a family man who wasn't afraid to say "I love you" to the firemen he led; Andrew Ashcraft, a team leader still in his 20s who struggled to balance his love for his beautiful wife and four children and his passion for fighting wildfires. We see this band of brothers at work, at play and at home, until a fire that burned in their own backyards leads to a national tragedy. Impeccably researched, drawing upon more than a hundred hours of interviews with the firefighters' families, colleagues, state and federal officials, and fire historians and researchers, New York Times Phoenix Bureau Chief Fernanda Santos has written a riveting, pulse-pounding narrative of an unthinkable disaster, a remarkable group of men and the raging wildfires that threaten our country's treasured wild lands. The Fire Line is the winner of the 2017 Spur Award for Best First Nonfiction Book, and Spur Award Finalist for Best Western Contemporary Nonfiction. The India-Pakistan border in Jammu & Kashmir has witnessed repeated ceasefire violations (CFVs) over the past decade. As relations between India and Pakistan have deteriorated, CFVs have increased exponentially. It is imperative to gain a deeper understanding of these violations owing to their potential to not only cause a crisis but also escalate an ongoing one. Line on Fire, part of the Oxford International Relations in South Asia series, postulates that the incorrect diagnosis of the reasons behind CFVs has led to wrong policies being adopted by both India and Pakistan to deal with the recurrent violations. Using fresh empirical data and first-hand accounts, the volume attempts to understand the reason why CFVs continue to take place between India and Pakistan despite consistent efforts to reduce the tension between the two nations. In doing so, it recontextualizes and enriches the prevailing arguments in contemporary literature on escalating dynamics and unending ceasefire agreements between the two South Asian nuclear rivals. How to deal with brutal questions in front of an audience. From New York Times bestselling author Sayantani DasGupta comes the story of a demon who must embrace her bad to serve the greater good. Pinki hails from a long line of rakkhosh resistors, demons who have spent years building interspecies relationships, working together to achieve their goal of overthrowing the snakey oppressors and taking back their rights. But she has more important things to worry about, like maintaining her status as fiercest rakkhosh in her class and looking after her little cousins. There is also the teeny tiny detail of not yet being able to control her fire breathing and accidentally burning up school property. Then Sessa, the charming son of the Serpentine Governor, calls on Pinki for help in defeating the resistance, promising to give her what she most desires in return -- the ability to control her fire. First she'll have to protect the Moon Maiden, pretend to be a human (ick), and survive a family reunion. But it's all worth it for the control of her powers . . . right?

stardom. The little known and intriguing WWII story of an eleven-year-old Australian schoolboy who was shot by the Japanese in Rabaul in 1942 as a suspected spy - a compelling story of spies, volcanoes, history and war. In May 1942, in the town of Rabaul in the Australian territory of New Guinea, five Australian civilians were taken by Japanese soldiers to a pit at the base of a volcano and executed as spies. A mother, her brother, her husband and her friend. And her 11-year-old son. Who were these people and what had led them to this terrible end, under the shadow of a volcano? Acclaimed 4th Estate author and award-winning science journalist Ian Townsend has uncovered a fascinating story that sheds new light on a largely forgotten but desperate battle fought on Australian territory. The Australian Government, unable to reinforce its small garrison, abandoned more than 1500 Australian soldiers and civilians as 'hostages to fortune' in the face of the irresistible Japanese advance. Set against the romantic, dramatic and ultimately tragic backdrop of Rabaul in WWII, this is a wholly intriguing narrative of Australian history, military conflict and volcanology, woven together with the story of one ordinary but doomed Australian family.
