Writing about the Virgin Mary in the Philippines is like writing about the sunrise. You are telling the readers what they already know, appreciate, and love. So when I was asked to produce a book on the Blessed Mother, I listened, and I was grateful that my friends felt that I was capable of doing this. But I did not write the book right away because I was sure it would be a twice-told tale. But the request haunted me. I had a deep sense of guilt—a feeling that this was something I should do and I wasn't doing anything about it. I didn't know exactly how to present anything really new about this beautiful peasant woman, the mother of God. Then I remembered my grandmother whom we called "Nana." How she prayed for my Uncle Ern for thirty years! And how Uncle Ern finally came back to God—not only on his deathbed, but three full days after the doctors expected him to die. I also remembered other things that happened in my own family—stories that only I could tell and if I don't record them, no one else will. Moreover, I keep receiving letters from both friends and strangers, telling me about the beautiful adventures they experienced with the Virgin Mary and the amazing answers they received from their prayers to her. These stories are all unique. No two people's stories are exactly alike. And the way each one reacts when touched by the hand of God is unique. This reminds me of American writer William Sydney Porter, better known as O. Henry, and one of his collection of stories called *The Four Million*, based on the population of New York City at the time he published it. He felt that if you could portray the soul of any one in that four million, you would have a drama that never happened before, and will never

happen again. This gave me courage. If I could just tell the actual stories of real people and their contact with the mother of God, then every narration would be new. Spelling for Life offers lucid, accessible tools which help to reveal that, when explicitly and systematically taught, spelling is scientific, law-abiding and even elegant. It explains that spelling is the manipulation of symbols according to agreed-upon patterns that produce predictable results. Spelling errors also fall into sets of predictable patterns. Success in spelling is not a product of intelligence. Many people struggle to spell due to coping strategies developed in place of explicit instruction. What gives spelling its 'complex' veneer is the fact that different ways of thinking are required at different levels from word to word. Some words can be spelt as they sound, others have to be visually memorised and some rely on knowledge of core rules about word-structure. A lot of words require more than one strand of knowledge. This book makes clear which strand needs to be applied in different situations. Often pupils who can read and express themselves competently nevertheless find spelling difficult. False assumptions about spelling, such as believing the English language is complex and/or irregular, damage confidence and lead to reluctance to even attempt to spell correctly. Spelling For Life enables

teachers and pupils to: learn what the common spelling coping strategies are gain insights into undoing poor spelling habits work together to notice patterns not only in regular spelling, but also in words which on the surface seem to break the spelling rules practise successful spelling strategies, progressing from simple to complex words rapidly and with confidence. Using a synthesis of theory, research and teaching experience, the fascinating nature of English spelling is systematically teased out. The examples and exercises offer an encouraging, accessible way to implement the programme of study and strive to reveal the beauty of spelling.
