Dr. Psenka's Seasonal Allergy Solution Sep 09 2021 Recent studies show that the number of people suffering with seasonal allergies has been skyrocketing and is expected to continue increasing into the foreseeable future. And in the United States alone, 65 million people suffer with seasonal allergies on a regular basis. In *Dr. Psenka's Seasonal Allergy Solution*, author and naturopathic physician Dr. Jonathan Psenka tells readers they can—and should—aim for a cure. Readers will discover how people often attempt to manage the symptoms of their seasonal allergies with pills, sprays, drops, and even painful shots. But very few of these medications treat the cause, so symptoms are likely to return year after year. Dr. Psenka has developed a highly detailed, fourstep plan, so readers will finally target the root cause of their seasonal allergies and be free of allergy medication. By following Dr. Psenka's advice on how to use natural remedies before, during, and after allergy season, readers can finally wave good-bye to their pesky runny noses and scratchy throats.

Curing my Incurable Eczema Apr 16 2022 Imagine waiting over ten years to find the answer that was there all along. A story of one woman's battle to regain her health, both in body and mind, with surprising results. Cara found Topical Steroid Withdrawal and changed her life, and wrote a book about it so others might, too ... From the writer of the popular blog on TSW and Trichotillomania, and author of *Stuff I'll Tell You To Do That I Won't Do*

Myself, Curing my Incurable Eczema is a book not to be missed.

Black Swan Start-ups Aug 20 2022 This book explores startups that have thrived against the odds in places where startup success was deemed to be unlikely. Discussing a number of technology startups from around the world that have succeeded without state backing nor local venture and seed capital, Black Swan Start Ups provides unique insights into unsung models of success beyond the two dominant narratives of Asia's 'Tiger Economies' and America's Silicon Valley miracle. The author describes these stories of success as 'black swan events' and ascribes their achievements to the ability of entrepreneurs to leverage the 'place surplus' of their locations, while building connections to support networks outside their immediate

geographies. Including case studies such as Skype in Estonia, SoundCloud in Germany and Bayt.Com in Dubai, this insightful book gives a holistic and wide-ranging view of how technology startups have, and can, succeed in less likely places.

Interactive Storytelling Aug 28 2020 This book constitutes the refereed proceedings of the 6th International Conference on Interactive Storytelling, ICIDS 2013, Istanbul, Turkey, November 2013. The 14 revised full papers presented together with 10 short papers were carefully reviewed and selected from 51 submissions. The papers are organized in topical sections on theory and aesthetics; authoring tools and applications; evaluation and user experience reports; virtual characters and agents; new storytelling modes; workshops.

The Routledge International Handbook of Dyscalculia and Mathematical Learning Difficulties Dec 24 2022 Mathematics plays an important part in every person's life, so why isn't everyone good at it? The Routledge International Handbook of Dyscalculia and Mathematical Learning Difficulties brings together commissioned pieces by a range of hand-picked influential, international authors from a variety of disciplines, all of whom share a high public profile. More than fifty experts write about mathematics learning difficulties and disabilities from a range of perspectives and answer questions such as: What are mathematics learning difficulties and disabilities? What are the key skills and concepts for learning mathematics? How will IT help, now and in the future? What is the role of language and vocabulary? How should we teach mathematics? By posing notoriously difficult questions such as these and studying the answers The Routledge International Handbook of Dyscalculia and Mathematical Learning Difficulties is the authoritative volume and is essential reading for academics in the field of mathematics. It is an incredibly important contribution to the study of dyscalculia and mathematical difficulties in children and young adults.

United Nations Juridical Yearbook 2013 Feb 14 2022 The Yearbook contains documentary materials of a legal character concerning the United Nations and related intergovernmental organizations (IGOs). The present volume covers activities in 2013 and contains: legislative texts and treaties, or

provisions thereof, concerning the legal status of the UN and related IGOs; a general overview of the legal activities of the UN and related IGOs; selected treaties concerning international law concluded under the auspices of the organizations concerned; selected decisions of administrative tribunals of the UN and related IGOs; selected legal opinions of the UN and related IGOs; a list of judgments, advisory opinions and selected decisions rendered by international tribunals; selected decisions of national tribunals relating to the work of the UN and related IGOs.

Defying doom Jun 18 2022 This book is a call to action. If you need to know what it takes to break through to a new layer of oxygen in an organization that has been flying high in the past, you will swoop down to remove your challenges, but the Framework explained in this book carves a clear path toward transforming an organization, as opposed to sinking into decline. This Framework is grouped around three simple steps: What's the story? Who's on board? Getting things done.

Agricultural Law and Economics in Sub-Saharan Africa Oct 30 2020

Agricultural Law in Sub-Saharan Africa: Cases and Comments introduces the subject of agricultural law and economics to researchers, practitioners, and students in common law countries in Sub-Saharan Africa, and presents information from the legal system in Botswana, Gambia, Ghana, Lesotho, Malawi, Nigeria, Sierra Leone, South Africa, Swaziland, Tanzania, Zambia, and Zimbabwe. The law and economics approach entails the use of quantitative methods in research. This is consistent with the expectations in an applied economics field such as agricultural economics. Covering the general traditional law topics in contracts, torts, and property, the book goes further to introduce cutting-edge and region-relevant topics, including contracts with illiterate parties, contract farming, climate change, and transboundary water issues. The book is supported by an extensive list of reference materials, as well as study and enrichment exercises, to deepen readers' understanding of the principles discussed in the book. It is a learning tool, first and foremost, and can be used as a stand-alone resource to teach the subject matter of agricultural law and economics to professionals new to the subject area as well as to students in law school, agricultural economics, economics, and inter-disciplinary classes. Offers research findings on such topics as food safety, climate change, transboundary natural resources, international sale of goods, patents, and trademarks to highlight the future sources of pressure on the agriculture industry Uses case-studies to provide real-world insights into the challenges and considerations of appropriate agricultural law development Challenges readers to carry out their own research in their areas of study, and to gain some understanding of the relationship between law, economics, and statistics Includes extensive resources, such as chapter summaries, study questions, and challenge questions at the end of each chapter to assist instructors and students in gaining full benefits from using the book Provides separate instructor and student study guides, a test bank, and test bank answers, in hardcopy and electronic formats

Mutual Recognition of Judicial Decisions in European Criminal Law Jun 06 2021 This book examines the mutual recognition of judicial decisions in

European criminal law as a cornerstone of judicial co-operation in criminal matters in the European Union. Providing comprehensive content and combining theoretical and practical aspects, it covers all of the major issues surrounding mutual recognition. The book analyses its definition, genesis, principles, case law, implementation and evaluation. Special attention is given to mutual recognition measures, namely European arrest warrant (i.e. surrender procedure), mutual recognition of custodial sentences, and measures involving deprivation of liberty, mutual recognition of probation measures and alternative sanctions, mutual recognition of financial penalties, mutual recognition of confiscation orders, the European supervision order in pre-trial procedures (i.e. mutual recognition of supervision measures as an alternative to provisional detention), the European investigation order (i.e. free movement of evidence), and the European protection order (i.e. mutual recognition of protection orders). Instead of focusing solely on a criminal law approach, the book also considers the subject from the perspectives of European Union law and International criminal law.

Confronting Corruption Oct 10 2021 Corruption undermines nearly all key legal and developmental priorities today, including the effective functioning of democratic institutions and honest elections; environmental protection; human rights and human security; international development programs; and fair competition for global trade and investment. This book chronicles the global anticorruption steps taken since the movement advanced after the end of the Cold War. It provides a realistic assessment of the present state of affairs by critically evaluating what existing anticorruption programs and treaties have accomplished and documenting their shortcomings, while developing an action agenda for the next decade. The authors argue that reformative action is imperative, and the forces of globalization and digital communication will level the playing field and erode the secrecy corruption requires. They define corruption, document its effects, discuss the initiatives that changed public perception, analyze the lessons learned, and then evaluate how to move forward with existing initiatives charting a new path with new, differentiated strategies.

Peace as a Global Language Oct 22 2022 This book is comprised of a collection of essays compiled by presenters who attended the annual Peace as a Global Language Conference at Rikkyo University in 2013, which took as its theme Peace and Welfare in the Local and Global Community. From civil and community conflict, media literacy and music to middle-east peacemaking, there is something here for all scholars and educators with an

interest in peace studies and education.
