*The Paper Bag Principle May 02 2023 The Paper Bag  
Principle: Class, Colorism, and Rumor in the Case of Black  
Washington, D.C. considers the function of oral history in  
shaping community dynamics among African American  
residents of the nation's capitol. The only attempt to  
document rumor and legends relating to complexion in black  
communities, The Paper Bag Principle looks at the divide that  
has existed between the black elite and the black "folk." The  
Paper Bag Principle focuses on three objectives: to record*

lore related to the "paper bag principle" (the set of attitudes that granted blacks with light skin higher status in black communities); to investigate the impact that this "principle" has had on the development of black community consciousness; and to link this material to power that results from proximity to whiteness. The Paper Bag Principle is sure to appeal to scholars and historians interested in African American studies, cultural studies, oral history, folklore, and ethnic and urban studies.

*The 50 + 1 Rule: What to Consider Before Buying a Football Club* Oct 27 2022 This study analyses the legal and statutory environment for investments in football clubs in Germany, as opposed to the situation in England. Whereas German regulations limit the acquisition of shares of football clubs, the legal framework is much more liberal in England. The paper looks at the potential conflicts of interest involved with club ownership issues as well as at the arguments for and against the German '50 plus 1' rule and how this rule may cause a shortfall in competitiveness as compared to English football. Finally, the study looks at doubts over the lawfulness of the rule in relation to European antitrust legislation and doubts over its effectiveness concerning legal loopholes provided by German corporation law. The paper relied predominantly on the analysis of literature concerning the regulation of club ownership in England and Germany, whereas a significant amount of German literature was used. Essentially, the research found that there is reason for severe scepticism about both the lawfulness and the effectiveness of the '50 plus 1' rule. It would probably not bear up against a test before the European Court of Justice. There are several opportunities in German corporate law to circumvent the rule. Finally, the paper urges the German Football Association (DFB) to consider a softening of the regulations currently in place, and effective modifications of the

*underlying licensing system, respectively, as well as the introduction of supporters' trusts and fit and proper person tests. Finally, the paper claims that competitive balance on a European club level can only be restored if club ownership issues are resolved on a European level.*

human.” —Entertainment Weekly, “A” rating *The New York Times* bestselling novel: an astonishingly visionary love story that imagines the forces that drive ordinary people from their homes into the uncertain embrace of new lands, from the author of *The Reluctant Fundamentalist* and the forthcoming *The Last White Man*. In a country teetering on the brink of civil war, two young people meet—sensual, fiercely independent Nadia and gentle, restrained Saeed. They embark on a furtive love affair, and are soon cloistered in a premature intimacy by the unrest roiling their city. When it explodes, turning familiar streets into a patchwork of checkpoints and bomb blasts, they begin to hear whispers about doors—doors that can whisk people far away, if perilously and for a price. As the violence escalates, Nadia and Saeed decide that they no longer have a choice. Leaving their homeland and their old lives behind, they find a door and step through. . . . *Exit West* follows these remarkable characters as they emerge into an alien and uncertain future, struggling to hold on to each other, to their past, to the very sense of who they are. Profoundly intimate and powerfully inventive, it tells an unforgettable story of love, loyalty, and courage that is both completely of our time and for all time.

*Circle in a Box* Oct 03 2020 Math circles provide a setting in which mathematicians work with secondary school students who are interested in mathematics. This form of outreach, which has existed for decades in Russia, Bulgaria, and other countries, is now rapidly spreading across the United States as well. The first part of this book offers helpful advice on all aspects of math circle operations, culled from conversations with over a dozen directors of successful math circles. Topics include creative means for getting the word out to students,

*sound principles for selecting effective speakers, guidelines for securing financial support, and tips for designing an exciting math circle session. The purpose of this discussion is to enable math circle coordinators to establish a thriving group in which students can experience the delight of mathematical investigation. The second part of the book outlines ten independent math circle sessions, covering a variety of topics and difficulty levels. Each chapter contains detailed presentation notes along with a useful collection of problems and solutions. This book will be an indispensable resource for any individual involved with a math circle or anyone who would like to see one begin in his or her community. Sam Vandervelde teaches at St. Lawrence University. He launched the Stanford Math Circle and also writes and coordinates the Mandelbrot Competition, a math contest for high schools. In the interest of fostering a greater awareness and appreciation of mathematics and its connections to other disciplines and everyday life, MSRI and the AMS are publishing books in the Mathematical Circles Library series as a service to young people, their parents and teachers, and the mathematics profession. Titles in this series are co-published with the Mathematical Sciences Research Institute (MSRI).*

*Ending the Scandal of Complacency Jan 18 2022 Although road accident deaths have halved between 1958 and 2007 whilst the number of licensed motor vehicles and vehicle mileage covered increased by 400 per cent, the current rate of 3,000 deaths and 250,000 injuries is still an unacceptably high level. Road accidents are the largest single cause of death for people between the ages of 5 and 35 in Britain, and road accidents cost our economy some £18 billion each year. The number of deaths and injuries on roads far outweighs the deaths and injuries in other transport modes, and should be viewed as a major public health problem. The Government should establish a British Road Safety Survey to track overall casualty and safety trends, and review current methods for recording road-traffic injuries. The Committee recommends a systems approach to road safety: ensuring the vehicle, the road infrastructure, regulations and driver training are designed to similar safety and performance standards. Other recommendations include: more 20 mph speed limits; a more proactive approach to determining the safety benefits of new vehicle technologies; action on young drivers - who represent a disproportionate risk to road users - and vulnerable users: motorcyclists, elderly and child pedestrians and cyclists, horse riders; a higher priority given to enforcement of drink-drive and drug-drive offences. The Committee recommends*

*the establishment of an independent Road Safety Commission with powers to work across the whole of government, ensuring that a high priority and adequate resources are given to road safety and that all government departments and agencies give active support. The Government should also establish a road accident investigation branch, like those in aviation, rail and marine.*

*The Newspaper Club Feb 16 2022 Learn what it means to be a journalist in this fun, fast-paced new middle grade series about a club of kid reporters by an award-winning author. Nellie Murrow -- the daughter of two (former) newspaper reporters -- was named after one of the fiercest journalists who ever lived. When she moves to sleepy Bear Creek, Maine, rumors of vandalism and attacks at the only park in town are keeping her saddled to the house. Some townspeople say the attacks are gang recruitments. Others blame a vagrant spotted on the hiking trails around town. But when Nellie thinks like a reporter, none of those explanations*

*make sense. Something is happening at the park, but what? All of the fake online news and rumors are clouding the truth. Nellie wants to break the story -- and break free from the front yard -- but she can't do it alone. She needs a whole club if she's going to start the Cub Report, the town's first independent newspaper. Creating a newspaper from scratch is going to be tough; but for Nellie, making friends is even harder. Starred Kirkus Review*

*Meyer Berger's New York Dec 29 2022 Meyer ("Mike")*

*Berger was one of the greatest journalists of this century. A reporter and columnist for The New York Times for thirty years, he won a Pulitzer Prize in 1950 for his account of the murder of thirteen people by a deranged war veteran in Camden, New Jersey. Berger is best known for his "About New York" column, which appeared regularly in the Times from 1939 to 1940 and from 1953 until his death in 1959. Through lovingly detailed snapshots of ordinary New Yorkers and far corners of the city, Berger's writing deeply influenced the next generation of writers, including Gay Talese and Tom Wolfe. Originally published in 1960 and long out of print, Meyer Berger's New York is a rich collection of extraordinary journalism, selected by Berger himself, which captures the buzz, bravado, and heartbreak of New York in the fifties in the words of the best-loved reporter of his time. "Mike Berger was one of the great reporters of our day . . . he was a master of the color story, the descriptive narrative of sights and sounds-of a parade, an eclipse, a homicidal maniac running amok . . . or just a thunderstorm that broke a summer heat wave . . . ."-The New York Times, obituary, February 6, 1959 "Dip into Meyer Berger's New York, at any point, and you will find things you never knew or dreamed of knowing. . . . It has a heart, a soul, and a beauty all its own." -Phillip Hamburger, The New York Times Book Review
