A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Seventh Edition and The Standard for Project Management (BRAZILIAN PORTUGUESE) Oct 20 2021

PMBOK® Guide is the go-to resource for project management practitioners. The project management profession has significantly evolved due to emerging technology, new approaches and rapid market changes. Reflecting this evolution, The Standard for Project Management enumerates 12 principles of project management and the PMBOK® Guide &– Seventh Edition is structured around eight project performance domains. This edition is designed to address practitioners' current and future needs and to help them be more proactive, innovative and nimble in enabling desired project outcomes. This edition of the PMBOK® Guide: • Reflects the full range of development approaches (predictive, adaptive, hybrid, etc.); • Provides an entire section devoted to tailoring the development approach and processes; • Includes an expanded list of models, methods, and artifacts; • Focuses on not just delivering project outputs but also enabling outcomes; and • Integrates with PMI standards+™ for information and standards application content based on project type, development approach, and industry sector.

**The Tokyo Trial** Apr 01 2020 Overshadowed for many years by the Nuremberg trials, the Tokyo Trial--one of the major events in the aftermath of World War II--has elicited renewed interest since the 50th anniversary of the war's end. Revelations of previously hidden war crimes, including comfort women and biological warfare, and the establishment of international courts to try Yugoslav and Rwandan war criminals have added to the interest. This bibliography addresses the renewed interest in the Tokyo Trial, providing over 700 citations to official publications, scholarly monographs and journal articles, contemporaneous accounts, manuscript collections, and Web sites. Also included are sources on the Trial's influence on international law and military law and unresolved issues being debated to this day. Defining war crimes after the fact, practicing victor's justice to punish enemies, holding military commanders accountable for their troops' actions--these were issues confronted in the Tokyo Trial and other Asia-Pacific war crimes trials. They are still being investigated, researched, and debated today. This bibliography helps to illuminate these issues from different perspectives, providing a variety of ways to locate relevant English-language sources. The volume also includes citations to contemporary issues stemming from the Asia-Pacific war crimes trials--comfort women, biological warfare, and unresolved issues of reparations and official apologies. The book is a useful guide to sources on all aspects of the Tokyo Trial.

**Project Plans, Vol. 1** Dec 02 2022 Excerpt from Project Plans, Vol. 1: Grades I, II and III Dr. S. B. Leslie, President, Dr. W. M. Cott, Vice President. Mr. D. W. Grier, Rev. R. W. Clymer, Mr. J. M. Robe, who have made the work possible financially. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. **Cross-border Water Trade: Legal and Interdisciplinary Perspectives** Jul 17 2021 Cross-border Water Trade: Legal and Interdisciplinary Perspectives is a critical assessment of one of the growing problems faced by the international community - the global water deficit. Apart from theoretical considerations it has very practical consequences, as cross-border water trade appears to

constitute one of the most effective ways of balancing water deficits worldwide.

*Technical Abstract Bulletin* Jun 27 2022

Britain's Glorious Aircraft Industry Mar 01 2020 “The rich and diverse history of the British aircraft industry is captured in superb detail by the author in this weighty tome.” —Aviation News Great Britain’s aircraft industry started in 1908, with the first formally registered organization in the world to offer to design and build an aeroplane “for commercial gain.” This book tells the complete story of the 110 years since the start, all the companies formed and the aircraft they produced, highlighting the advances in aeronautical ambition and technology. It is the story of the creation, survival and decline of all one hundred and twenty-three of the aircraft design and construction companies formed between 1908 and 2018. The exhilaration of success and the magic of aviation technology are vividly illustrated by the technical and political birth stories of iconic projects, such as the Cirrus/Gypsy Moths, the Tiger Moth, the flying boats of Imperial Airways, Spitfire, Lancaster, Viscount, Vulcan, Harrier, Buccaneer and many more. The rotary wing industry is not forgotten. The birth of the jet turbine engine and the quest for supersonic speed is included. The stories of the disappointments of failure and disaster, such as the Brabazon, Comet, Princess, Rotodyne and TSR-2, and the growth of international collaboration in Concorde, Tornado, Airbus, Eurofighter Typhoon and other projects are included, in the context of the international scene and domestic politics. The conclusion highlights the prominent reminiscences and speculates on the future of the aircraft industry in Britain. “An outstanding reference book and a thoroughly enjoyable canter through the decades, from the days of wood and fabric to the modern composite structure of the wings of the A400 Atlas.” —RAF Historical Society

*I Was a Third Grade Science Project* Jan 11 2021 Teaming up with Brian, Josh is sure he will win the big prize, yet when Brian's plan is to hypnotize the family dog into thinking he is a cat, Josh is very doubtful . . . until he sees the final results with his very own eyes. Reprint.

**The Economic Development of Libya** Dec 22 2021 Libya has been one of the most remarkable of the Arab oil producers. It has combined an aggressive foreign policy, a domestic political revolution and extraordinary economic growth over the last decade. This book focuses on the development of the Libyan economy over this period. In the boom years of the oil market Libya’s revenues exploded. With the current decline of Arab oil revenues many of the projects undertaken then now look less realistic. The book surveys both the structural developments in the Libyan economy and the experience of individual sectors. It considers the potential for industrial development and the prospects for agriculture both in terms of natural resources and political commitments. The book also examines developments in the service sector, especially banking. Although it recognises the acute problems of the Libyan economy, the book is broadly optimistic for prospects through to the year 2000. First published in 1987.

**The Project of Autonomy** Nov 20 2021 "The Project of Autonomy radically rediscusses the concept of autonomy in politics and architecture by tracing a concise and polemical argument about its history in Italy in the 1960's and early 1970's. Architect and educator Pier Vittorio Aureli analyzes the position of the Operaism movement, formed by a group of intellectuals that produced a powerful and rigorous critique of capitalism and its intersections with two of the most radical architectural-urban theories of the day: Aldo Rossi's redefinition of the architecture of the city and Archizoom's No-stop City. Readers are introduced to major figures like Mario Tronti and Raniero Panzieri who have previously been little known in the English-speaking world, especially in an architectural context, and to the political motivations behind the theories of Rossi and Archizoom. The book draws on significant new source material, including recent interviews by the author and untranslated documents."--PUBLISHER'S WEBSITE.

**Georgia's Blind, 1930** Mar 05 2023 Excerpt from Georgia's Blind, 1930: Official Project Number 465-34-3-289 In April, 1938, after having been in operation only nine months, the State Department of Public Welfare was giving direct assistance to 986 blind persons. The Department was justly proud of its record, yet it was not satisfied; too little was known about the blind. There were no records available that would show even the approximate number of blind persons in Georgia; where they lived; their employment problems; their conditions of health; or their educational status. Confronted with these problems, the Department applied to the Works Progress Administration of Georgia for a survey.
