Published by Times Square Press <http://www.timesquarepress.com/> Author's website:www.maximilliendelafayettebibliography.comAn authoritative book of the history of the Anunnaki, religion, names & roles of gods who created MAN from clay, as well as spirits and demons. A powerful book which explains in simple English how early humans & final "types" of humans were created genetically by the Anunnaki some 65,000 years ago in Mesopotamia. The book is solely based upon the Sumerian-Akkadian-Assyrian tablets, archaeology, history, Anunnaki Ulema, literature and linguistic sources from Babylon, Uruk, Ur, Eridu and other ancient Mesopotamian cities. In this academic, informative and entertaining book, there is no room for false/bogus translations and ridiculous interpretations of the history of the Anunaki, Sumero-Akkadian-Assyrian tablets and fabrication of stories about planets and stars which do not exist, and childish tales of expeditions of ancient aliens and Anunnaki who came to Earth to mine gold. For more than twenty-five years, All You Need to Know About the Music Business has been universally regarded as the definitive guide to the music industry. Now in its tenth edition, Donald Passman leads novices and experts alike through what has been the most profound change in the music business since the days of wax cylinders and piano rolls. For the first time in history, music is no longer monetized by selling something—it's monetized by how many times listeners stream a song. And that completely changes the ecosystem of the business, as Passman explains in detail. Since the advent of file-sharing technology in the late 1990s to the creation of the iPod, the music industry has been teetering on the

brink of a major transformation—and with the newest switch to streaming music, this change has finally come to pass. Passman's comprehensive guide offers timely, authoritative information from how to select and hire a winning team of advisors and structure their commissions and fees; navigate the ins and outs of record deals, songwriting, publishing, and copyrights; maximize concert, touring, and merchandising deals; and how the game is played in a streaming world. “If you want to be in music, you have to read this book,” says Adam Levine, lead singer and guitarist of Maroon 5. Lance Bennett's thoroughly revised tenth edition offers the most up-to-date guide to understanding how and why the media and news landscapes are being transformed. It explains the mix of old and new, and points to possible outcomes. Where areas of change are clearly established, key concepts from earlier editions have been revised. As always, *News* presents fresh evidence and arguments that invite new ways of thinking about the political information system and its place in democracy.
