This is the first extensive study of Old English to utilise the insights and methodologies of sociolinguistics. Building on previous philological and historical work, it takes into account the sociology and social dialectology of Old English and offers a description of its speech communities informed by the theory of social networks and communities of practice. Specifically, this book uses data from historical narratives and legal documents and examines the interplay of linguistic innovation, variation, and change with such sociolinguistic parameters as region, scribal office, gender, and social status. Special attention is given to the processes of supralocalisation and their correlation with periods of political centralisation in the history of Anglo-Saxon England. On March 4, 1865, the day Abraham Lincoln delivered his second inaugural address, Reverend Doctor George Peck put the finishing touches on a collection of his sermons that he intended to send to the president. Although the politically moderate Peck had long opposed slavery, he, along with many other northern evangelicals, was not an abolitionist. During the Civil War he had come to support emancipation, but, like Lincoln, the conflict remained first and foremost about preserving the Union. Believing their devotion to the Union was an act of faithfulness to God first and the Founding Fathers second, *Our Country* explores how many northern white evangelical Protestants sacrificed racial justice on behalf of four million African-American slaves (and then ex-slaves) for the Union's persistence and continued flourishing as a Christian nation. By examining Civil War-era Protestantism in terms of the Union, author Grant Brodrecht adds to the understanding of northern motivation and the eventual "failure" of Reconstruction to provide a secure basis for African American's equal place in society. Complementing recent scholarship that gives primacy to the Union, *Our Country* contends that non-radical Protestants consistently subordinated concern for racial justice for what they perceived to be the greater good. Mainstream evangelicals did not enter Reconstruction with the primary aim of achieving racial justice. Rather they expected to see the emergence of a speedily restored, prosperous, and culturally homogenous Union, a Union strengthened by God through the defeat of secession and the removal of slavery as secession's cause. Brodrecht eloquently addresses this so-called "proprietary" regard for Christian America, considered within the context of crises surrounding the Union's existence and its nature from the Civil War to the 1880s. Including sources from major Protestant denominations, the book rests on a selection of sermons, denominational newspapers and journals, autobiographies, archival personal papers of several individuals, and the published and unpublished papers of Abraham Lincoln, Andrew Johnson, and Ulysses S. Grant. The author examines these sources as they address the period's evangelical sense of responsibility for America, while keyed to issues of national and presidential politics. Northern evangelicals' love of the Union arguably contributed to its preservation and the slaves' emancipation, but in subsuming the ex-slaves to their vision for Christian America, northern evangelicals contributed to a Reconstruction that failed to ensure the ex-slaves' full freedom and equality as Americans. The twelve essays that make up *Reflections on Native-Newcomer Relations* illustrate the development in thought by one of Canada's leading scholars in the field of Native history - J.R. Miller. The collection, comprising pieces that were written over a period spanning nearly two decades, deals with the evolution of historical writing on First Nations and Métis, methodological issues in the writing of Native-newcomer history, policy matters including residential schools, and linkages between the study of Native-newcomer relations and academic governance and curricular matters. Half of the essays appear here in print for the first time, and all use archival, published, and oral history evidence to throw light on Native-Newcomer relations. Miller argues that the nature of the relationship between Native peoples and newcomers in Canada has varied over time, based on the reasons the two parties have had for interacting. The relationship deteriorates into attempts to control and coerce Natives during periods in which newcomers do not perceive them as directly useful, and it improves when the two parties have positive reasons for cooperation. *Reflections on Native-Newcomer Relations* opens up for discussion a series of issues in Native-newcomer history. It addresses all the trends in the discipline of the past two decades and never shies from showing their contradictions, as well as those in the author's own thinking as he matured as a scholar. This fully revised version includes important updates on articles and books as well as information on a crucial new topic: how to create transparencies and computer projections, both for classrooms and professional meetings. The text maintains its user-friendly, example-based, visual approach, gently easing readers into the secrets of Latex with The Short Course. Then it introduces basic ideas through sample articles and documents. It includes a visual guide and detailed exposition of multiline math formulas, and even provides instructions on preparing books for publishers. During the 1980s and 1990s, aging Baby Boomer parents constructed a particular type of memory as they attempted to laud their own parents' wartime accomplishments with the label "The Greatest Generation." This book is the first to tell the entire story of this particular type of U.S. World War II memory begun by U.S. President Ronald Reagan in 1984, and promoted the same year by newscaster Tom Brokaw. The story continues in 1994, when it was given academic credence by historian Stephen E. Ambrose, a sensory realism and ideal American character by director Steven Spielberg and actor Tom Hanks, sloganized by Tom Brokaw in 1998, and later interpreted in light of 9/11 and new wars. How can we transmit a living, personal Catholic faith to future generations? By coming to know Jesus Christ, and following him as his disciples. These are times of immense challenge and immense opportunity for the Catholic Church. Consider these statistics for the United States. Only 30 percent of Americans who were raised Catholic are still practicing. Fully 10 percent of all adults in America are ex-Catholics. The number of marriages celebrated in the Church decreased dramatically, by nearly 60 percent, between 1972 and 2010. Only 60 percent of Catholics believe in a personal God. If the Church is to reverse these trends, the evangelizers must first be evangelized—in other words, Catholics-in-the-pew must make a conscious choice to know and follow Jesus before they can draw others to him. This work of discipleship lies at the heart of *Forming Intentional Disciples*, a book designed to help Church leaders, parish staff and all Catholics transform parish life from within. Drawing upon her fifteen years of experience with the Catherine of Siena Institute, Sherry Weddell leads readers through steps that will help Catholics enter more deeply into a relationship with God and the river of apostolic creativity, charisms, and vocation that flow from that relationship for the sake of the Church and the world. Learn about the five thresholds of postmodern conversion, how to open a conversation about faith and belief, how to ask thought-provoking questions and establish an atmosphere of trust, when to tell the Great Story of Jesus, how to help someone respond to God's call to intentional discipleship, and much more. And be prepared for conversion because when life at the parish level changes, the life of the whole Church will change. Across eighteenth-century China a wide range of common people forged government documents or pretended to be officials or other agents of the state. This examination of case records and law codes traces the legal meanings and social and political contexts of small-time swindles that were punished as grave political transgressions. In the United States, the early years of the war on terror were marked by the primacy of affects like fear and insecurity. These aligned neatly with the state's drive toward intensive securitization and an aggressive foreign policy. But for the broader citizenry, such affects were tolerable at best and unbearable at worst; they were not sustainable. *Figuring Violence* catalogs the affects that define the latter stages of this war and the imaginative work that underpins them. These affects—apprehension, affection, admiration, gratitude, pity, and righteous anger—are far more subtle and durable than their predecessors, rendering them deeply compatible with the ambitions of a state embroiling itself in a perpetual and unwinnable war. Surveying the cultural landscape of this sprawling conflict, *Figuring Violence* reveals the varied mechanisms by which these affects have been militarized. Rebecca Adelman tracks their convergences around six types of beings: civilian children, military children, military spouses, veterans with PTSD and TBI, Guantánamo detainees, and military dogs. All of these groups have become preferred objects of sentiment in wartime public culture, but they also have in common their status as political subjects who are partially or fully unknowable. They become visible to outsiders through a range of mediated and imaginative practices that are ostensibly motivated by concern or compassion. However, these practices actually function to reduce these beings to abstracted figures, silencing their political subjectivities and obscuring their suffering. As a result, they are erased and rendered hypervisible at once. *Figuring Violence* demonstrates that this dynamic ultimately propagates the very militarism that begets their victimization. Now an Apple TV+ documentary, *Lincoln's Dilemma*, airing February 18, 2022. One of the Wall Street Journal's Ten Best Books of the Year | A Washington Post Notable Book | A Christian Science Monitor and Kirkus Reviews Best Book of 2020 Winner of the Gilder Lehrman Abraham Lincoln Prize and the Abraham Lincoln Institute Book Award "A

marvelous cultural biography that captures Lincoln in all his historical fullness. . . . using popular culture in this way, to fill out the context surrounding Lincoln, is what makes Mr. Reynolds's biography so different and so compelling . . . Where did the sympathy and compassion expressed in [Lincoln's] Second Inaugural—"With malice toward none; with charity for all"—come from? This big, wonderful book provides the richest cultural context to explain that, and everything else, about Lincoln." —Gordon Wood, Wall Street Journal

From one of the great historians of nineteenth-century America, a revelatory and enthralling new biography of Lincoln, many years in the making, that brings him to life within his turbulent age David S. Reynolds, author of the Bancroft Prize-winning cultural biography of Walt Whitman and many other iconic works of nineteenth century American history, understands the currents in which Abraham Lincoln swam as well as anyone alive. His magisterial biography *Abe* is the product of full-body immersion into the riotous tumult of American life in the decades before the Civil War. It was a country growing up and being pulled apart at the same time, with a democratic popular culture that reflected the country's contradictions. Lincoln's lineage was considered auspicious by Emerson, Whitman, and others who prophesied that a new man from the West would emerge to balance North and South. From New England Puritan stock on his father's side and Virginia Cavalier gentry on his mother's, Lincoln was linked by blood to the central conflict of the age. And an enduring theme of his life, Reynolds shows, was his genius for striking a balance between opposing forces. Lacking formal schooling but with an unquenchable thirst for self-improvement, Lincoln had a talent for wrestling and bawdy jokes that made him popular with his peers, even as his appetite for poetry and prodigious gifts for memorization set him apart from them through his childhood, his years as a lawyer, and his entrance into politics. No one can transcend the limitations of their time, and Lincoln was no exception. But what emerges from Reynolds's masterful reckoning is a man who at each stage in his life managed to arrive at a broader view of things than all but his most enlightened peers. As a politician, he moved too slowly for some and too swiftly for many, but he always pushed toward justice while keeping the whole nation in mind. *Abe* culminates, of course, in the Civil War, the defining test of Lincoln and his beloved country. Reynolds shows us the extraordinary range of cultural knowledge Lincoln drew from as he shaped a vision of true union, transforming, in Martin Luther King Jr.'s words, "the jangling discords of our nation into a beautiful symphony of brotherhood." Abraham Lincoln did not come out of nowhere. But if he was shaped by his times, he also managed at his life's fateful hour to shape them to an extent few could have foreseen. Ultimately, this is the great drama that astonishes us still, and that *Abe* brings to fresh and vivid life. The measure of that life will always be part of our American education. *Redemption and Resistance* brings together an eminent cast of contributors to provide a state-of-the-art discussion of Messianism as a topic of political and religious commitment and controversy. By surveying this motif over nearly a thousand years with the help of a focused historical and political searchlight, this volume is sure to break fresh ground. It will serve as an attractive contribution to the history of ancient Judaism and Christianity, of the complex and often problematic relationship between them, and of the conflicting loyalties their hopes for redemption created vis-à-vis a public order that was at first pagan and later Christian. Although each chapter is designed to stand on its own as an introduction to the topic at hand, the overall argument unfolds a coherent history. The first two parts, on pre-Christian Jewish and primitive Christian Messianism, set the stage by identifying two entities that in Part III are then addressed in the development of their explicit relationship in a Graeco-Roman world marked by violent persecution of Jewish and Christian hopes and loyalties. The story is then explored beyond the Constantinian turn and its abortive reversal under Julian, to the Christian Empire up to the rise of Islam. This title explores why Christians have different ways of looking at time, at how the life of the church is ordered and organized by days, weeks, seasons, and years. It provides detailed information about Sundays and festivals, the lectionary and propers, seasons and commemorations, as well as guidance about leading the church's services of daily prayer. Includes unique indexes to Evangelical Lutheran Worship contents. This collection of essays by Carol A. Newsom explores the indispensable role that rhetoric and hermeneutics play in the production and reception of biblical and Second Temple literature. Some of the essays are methodological and programmatic, while others provide extended case studies. Because rhetoric is, as Kenneth Burke put it, "a strategy for encompassing a situation," the analysis of rhetoric illumines the ways in which texts engage particular historical moments, shape and reshape communities, and even construct new models of self and agency. The essays in this book not only explore how ancient texts hermeneutically engage existing traditions but also how they themselves have become the objects of hermeneutical transformation in contexts ranging from ancient sectarian Judaism to the politics of post-

World War I and II Germany and America to modern film criticism and feminist re-reading. The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873) Making Your Way to the Pulpit is a book for beginning preachers, for preachers who will never have a seminary course called "homiletics" (the art of preaching), for preachers who studied homiletics with William Hethcock and want a review, and for all preachers who are looking for a tested, reliable approach to sermon preparation. In short, this is a book for those who preach regularly or occasionally and would like a clear guide for making their way to the pulpit. At the School of Theology (SofT), University of the South, Sewanee, Tennessee, the Rev. Dr. William H. Hethcock directed field education from 1979 to 1985 and taught homiletics from 1985 until his retirement in 1997. After retiring, he continued to teach homiletics on semester contracts at the SofT and the Virginia Theological Seminary (VTS). He remains active as a teacher, speaker on the subject of preaching, and preacher. Assimilating the work of other scholars, Hethcock developed his own process for approaching sermon preparation on a weekly basis. This book summarizes and describes the Hethcock method. When followed, his process reliably gets the preacher to the pulpit with a biblical proclamation that resonates with individuals in today's congregations. Pastors are often ill-equipped in preparing churches to be sacred advocates and activists in the communities most affected by social injustice and neglect. Sacred Anthropology aims to inform and equip pastors in discipling the body of Christ to effect social transformation in times of social crisis. Tyshawn Gardner envisions the pastor as a "sacred anthropologist," as one who understands the cultures of other image-bearers for the sake of promoting the justice of God in the world. As a pastoral mandate, the sacred anthropologist challenges churches to be engaged in the political and social transformation of their community. The social anthropologist employs both secular and theological tools for an effective contextualized ministry. This book posits prophetic radicalism as a pastoral theology and the pastoral office as the center of prophetic radicalism, yet it does not limit prophetic radicalism to the pastoral office. Sacred Anthropology is written with pastors and parishioners from any ethnic group in mind but draws heavily on the prophetic pastoral and preaching tradition of African American pastors and churches. Using this foundation and tradition, sacred anthropologists can lead their congregations in a way that challenges them to be involved, engaged, and transformative. A practical and insightful guide, Holistic Healing investigates the practices, theories, research, and history of holistic approaches as it relates to a wide range of health care and human service professionals. This text offers a uniquely comparative and integrated understanding of both ancient and modern Indigenous, Eastern, and Western traditional practices, including bodywork, expressive arts, energy medicine, eco-psychology, transpersonal psychology, naturopathy, homeopathy, Ayurveda, traditional Chinese medicine, and Indigenous healing practices. Practitioners and scholars in health, nutrition, psychology, and social work contribute to research that focuses on individual, organizational, national, and global holistic intervention applications. Chapters in this collection address critical issues such as colonization, human rights, the environment, peace and conflict, and equity and inclusion. This collection is a timely and practical resource for students of undergraduate health, social work, sociology, holistic healing, and psychology programs and is also a great resource for professional practitioners. A sweeping history of the Lower Mississippi Valley and its central role in abolishing slavery in the American South. In Delivering the Sermon Teresa Fry Brown introduces preachers to the effective use of voice and body in the animation of the word in the preaching moment. Combining the latest research in communications, speech pathology, and homiletics with her own experience as a speech-language pathologist, Fry Brown creatively empowers preachers to improve their effectiveness in proclamation. Practical suggestions and exercises for enhancing voice, diction, and nonverbal engagement of the listener, useable by groups or individuals, are included in each chapter. Again and again in the nation's history, presidents of the United States have faced the dramatic challenge of domestic insurrection and sought ways to reconcile with the rebels afterward. This book is the first comprehensive study of how presidential mass pardons have helped put such conflicts to rest. Graham G. Dodds examines when and why presidents have issued mass pardons and amnesties to deal with domestic rebellion and attempt to reunite the country. He analyzes how presidents have used both deeds and words—proclamations of mass pardons and persuasive rhetoric—in order to foster political reconciliation. The book features in-depth case studies of the key instances of mass pardons in U.S.

history, beginning with George Washington's and John Adams's pardoning participants in armed insurrections in Pennsylvania in the 1790s. In the nineteenth century, James Buchanan, Benjamin Harrison, and Grover Cleveland issued pardons to Mormon insurrectionists and polygamists, and Abraham Lincoln and Andrew Johnson pardoned Confederates both during and after the Civil War. Most recently, Dodds considers Gerald Ford's clemency and Jimmy Carter's amnesty of Vietnam War resisters. Beyond exploring these events, *Mass Pardons in America* offers new perspectives on the president's pardon power, unilateral presidential actions, and presidential rhetoric more broadly. Its implications span fields including political history, presidential studies, and legal history. An inventive story collection that spans the globe as it explores love, childhood, and parenthood with an electric mix of humor and emotion. Acclaimed for the grace, wit, and magic of her novels, Ramona Ausubel introduces us to a geography both fantastic and familiar in eleven new stories, some of them previously published in *The New Yorker* and *The Paris Review*. Elegantly structured, these stories span the globe and beyond, from small-town America and sunny Caribbean islands to the Arctic Ocean and the very gates of Heaven itself. And though some of the stories are steeped in mythology, they remain grounded in universal experiences: loss of identity, leaving home, parenthood, joy, and longing. Crisscrossing the pages of *Awayland* are travelers and expats, shadows and ghosts. A girl watches as her homesick mother slowly dissolves into literal mist. The mayor of a small Midwestern town offers a strange prize, for stranger reasons, to the parents of any baby born on Lenin's birthday. A chef bound for Mars begins an even more treacherous journey much closer to home. And a lonely heart searches for love online--never mind that he's a Cyclops. With her signature tenderness, Ramona Ausubel applies a mapmaker's eye to landscapes both real and imagined, all the while providing a keen guide to the wild, uncharted terrain of the human heart. This volume considers the transmission of interpretive traditions and the details of scribal practices. The essays explore the variety of ways that texts are interpreted at Qumran and also re-evaluates sectarian categorizations of texts along with distinctive scribal practices. Aimed at students of public relations, this fourth edition provides practical writing instruction for those preparing to enter the public relations profession. It uses a process approach to address a variety of writing formats and circumstances. For most of its history, the remote and near-Arctic nation of Norway has eked out a marginal existence from fishing, forestry and shipping. That is, until Christmas Eve 1969, when oil was discovered off its southern coast. Rather than squandering the profits (as the UK did with its North Sea oil), when the revenue began flowing, Norway put in place the most robust and visionary framework for extracting maximum benefit from non-renewable resources found anywhere in the world. Less than twenty years after the country began investing in what is now called the Government Pension Fund, Norway has the largest sovereign wealth fund in the world, with assets of US\$870 billion. What's more, the fund is on track to hit the US\$1 trillion mark by 2020. Not only is every Norwegian now a (krone) millionaire and enjoying the highest standard of living in the world, they will be able to hand down this endowment to their children and grandchildren. Norway's savings strategy means that it has taken a non-renewable resource and turned it into a financial asset that can last long after the oil wealth has been completely exhausted. This is the story of how they did it. *How the English Reformation was Named* analyses the shifting semantics of 'reformation' in England between the fifteenth and seventeenth centuries. Originally denoting the intended aim of church councils, 'reformation' was subsequently redefined to denote violent revolt, and ultimately a series of past episodes in religious history. But despite referring to sixteenth-century religious change, the proper noun 'English Reformation' entered the historical lexicon only during the British civil wars of the 1640s. Anglican apologists coined this term to defend the Church of England against proponents of the Scottish Reformation, an event that contemporaries singled out for its violence and illegality. Using their neologism to denote select events from the mid-Tudor era, Anglicans crafted a historical narrative that enabled them to present a pristine vision of the English past, one that endeavoured to preserve amidst civil war, regicide, and political oppression. With the restoration of the monarchy and the Church of England in 1660, apologetic narrative became historiographical habit and, eventually, historical certainty. We all know the story of Thanksgiving. Or do we? This uniquely American holiday has a rich and little known history beyond the famous feast of 1621. In *Thanksgiving*, award-winning author Melanie Kirkpatrick journeys through four centuries of history, giving us a vivid portrait of our nation's best-loved holiday. Drawing on newspaper accounts, private correspondence, historical documents, and cookbooks, *Thanksgiving* brings to life the full history of the holiday and what it has meant to generations of Americans. Many famous figures walk these pages—Washington, who proclaimed our first Thanksgiving as a nation amid controversy about his

Constitutional power to do so; Lincoln, who wanted to heal a divided nation sick of war when he called for all Americans—North and South—to mark a Thanksgiving Day; FDR, who set off a debate on state's rights when he changed the traditional date of Thanksgiving. Ordinary Americans also play key roles in the Thanksgiving story—the New England Indians who boycott Thanksgiving as a Day of Mourning; Sarah Josepha Hale, the nineteenth-century editor and feminist who successfully campaigned for Thanksgiving to be a national holiday; the 92nd Street Y in New York City, which founded Giving Tuesday, an online charity established in the long tradition of Thanksgiving generosity. Kirkpatrick also examines the history of Thanksgiving football and, of course, Thanksgiving dinner. While the rites and rituals of the holiday have evolved over the centuries, its essence remains the same: family and friends feasting together in a spirit of gratitude to God, neighborliness, and hospitality. Thanksgiving is Americans' oldest tradition. Kirkpatrick's enlightening exploration offers a fascinating look at the meaning of the holiday that we gather together to celebrate on the fourth Thursday of November. With Readings for Thanksgiving Day designed to be read aloud around the table. Are you looking for a fresh, new, engaging idea, for you or your women's group? Even better the workbook can be used alone or with a group! This ministry focus paper examines the "3Story" evangelism model through an evaluative template to establish if the model considers the theological, historical, developmental, and environmental factors of the task of peer-to-peer evangelism. While the language and methodology of evangelism seem to have remained unaltered within Christendom, the surrounding culture continues to change. Expectations and techniques that existed in the past now are being placed on an adolescent culture that neither understands nor connects with them. The result of this evaluation will be a greater awareness of the issues facing both models and practitioners when approaching the task of adolescent peer-to-peer evangelism. This study will be divided into four sections. The first section will examine the historical approaches to evangelism in North America and the efforts made to adapt these strategies for the task of adolescent peer-to-peer evangelism. This information will create evaluation markers for the evaluative template. The second section will explore the theology of peer-to-peer evangelism along with the dynamic of human relationships in both the Old and New Testament; the dynamics of how Jesus, His disciples, and the early Church shared the Good News in an interpersonal context; and, the role of the Church. This information will create evaluation markers for the theological measure of the evaluative template. The third section will explore the psychosocial development, spiritual development, and environmental issues of peer relationships and their implication to the task of peer-to-peer evangelism in a North American context. This information will create additional markers for the evaluative template. Finally, the last section will examine the "3Story" model through the template presented. It will discuss if the model is a viable strategy for adolescent peer-to-peer evangelism. Hardwood buyers' guide included as a section in each no. 1932-May 1940.
