Comme les autres années, le Rapport examine par le menu les quatre grands marchés des drogues dans sa première section. En outre, pour marquer le 100e anniversaire de la Commission de Shanghai sur l'opium et célébrer cent années de contrôle international des drogues, le Rapport contient une analyse en profondeur du développement du système de contrôle international des drogues. Il contient également une courte annexe statistique qui fournit des données détaillées sur la production, les prix et la consommation. À l'instar des années précédentes, le présent Rapport se fonde principalement sur les données tirées des réponses au Questionnaire destiné à l'élaboration des rapports annuels envoyé par l'ONUDC aux gouvernements en 2007, complétées en tant que de besoin par d'autres sources, lorsqu'elles existent. Signalons à ce sujet deux limitations : i) les États n'envoient pas toujours leur réponse au questionnaire de façon assez systématique □ cette remarque concerne aussi bien le nombre des États ayant répondu que l'exhaustivité de leur réponse, et ii) la plupart des pays ne disposent pas de systèmes de contrôle suffisants pour fournir des données fiables, complètes et comparables au plan international. Toutefois, les système nationaux de surveillance progressent et l'ONUDC a contribué à leur amélioration. The tragic events aboard United Airlines Flight 93 on September 11, 2001, are seen as an example of extreme heroism. When they realized their plane had been hijacked, passengers aboard flight 93 fought the hijackers and brought the plane down in a field in Shanksville, Pennsylvania, in an attempt to save the lives of people on the ground. This book examines the events leading up to the hijacking, the heroic actions of passengers and crew, and the country's response to this tragedy. The World Health Organization (WHO) has published an annual report on global control of tuberculosis (TB) every year since 1997. The main purpose of the report is to provide a comprehensive and up-to-date assessment of the TB epidemic and progress made in TB care and control at global, regional and country levels. This fifteenth annual report contains more up-to-date information than any previous report in the series, following earlier data collection and the completion of the production cycle within a calendar year. This report includes the same wealth of information as previous reports in the series, but three new features are worth highlighting. First, the data are more up-to-date than those included in previous reports. Data up to and including 2009 are presented for almost all key indicators; financial data extend to 2011. Second, results from several analyses undertaken for the first time in 2010 are included. Examples are: (i) for each of the 22 high-burden countries (HBCs), trends in rates of TB incidence and mortality since 1990 combined with projections of whether the target of halving the 1990 mortality rate by 2015 will be achieved; (ii) estimates of the lives saved by TB control between 1995 and 2009 and projections of the additional lives that could be saved up to 2015, including separate estimates for women and children; (iii) assessment of progress in implementing and financing TB care and control against the targets included in a just-released and updated version of the Global Plan to Stop TB; and (iv) a new and compelling compilation of data showing the contribution that PP PP M can make to case detection. Third, country profiles are available for all countries (rather than the 22 HBCs only) and can be downloaded online at [www.who.int/tb/data](http://www.who.int/tb/data), always drawing on the latest data available in WHO's global TB database. Annex 1 explains the methods that were used to produce estimates of disease burden. Annex 2 contains summary tables that provide global, regional and country-specific data for the main indicators of interest. Country profiles for all countries are available online at [www.who.int/tb/data](http://www.who.int/tb/data); their content is advertised in Annex 3. The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873) Hurricanes Katrina and Rita made landfall less than four weeks apart in 2005. Months later, much of New Orleans and the Gulf Coast remained in tatters. As the region faded from national headlines, its residents faced a dire future. Emmanuel David chronicles how one activist group confronted the crisis. Founded by a few elite white women in New Orleans, Women of the Storm quickly formed a broad coalition that sought to represent Louisiana's diverse population. From its early lobbying of Congress through its response to the 2010 BP oil spill, David shows how members' actions were shaped by gender, race, class, and geography. Drawing on in-depth interviews, ethnographic observation, and archival research, David tells a compelling story of collective action and personal transformation that expands our understanding of the aftermath of an historic American catastrophe. El objetivo del Informe Mundial sobre las Drogas es ayudar a los Estados Miembros a comprender mejor las tendencias mundiales de las drogas ilícitas y a los gobiernos a reconocer la necesidad de recopilar y comunicar la información sobre drogas más sistemáticamente. La UNODC depende de que los Estados Miembros le aporten datos, principalmente mediante el cuestionario para los informes anuales. Este año se distribuyeron 200 cuestionarios y la UNODC recibió 118 respuestas sobre el uso indebido de drogas y 116 respuestas sobre la oferta ilícita de drogas. En general la posibilidad que tienen los Estados Miembros de suministrar información sobre la oferta ilícita de drogas es mucho mayor que su posibilidad de aportar datos relacionados con la demanda. Pese a un meritorio avance, por ejemplo en materia de estimaciones de prevalencia, queda mucho por hacer antes de poder contar con una base sólida y confiable para un análisis de las tendencias y las políticas. Este Libro en un enfoque diferente critica a las instituciones y gobiernos que hicieron posible que este conflicto empezara. Además es un sincero homenaje al valor y el sacrificio de los honorables soldados norteamericanos y miembros de la coalición que perdieron sus vidas; al pueblo de Iraq que sufrió las horribles consecuencias de la guerra en forma directa. This paper analyzes the monetary policy response to

rising inflation in emerging and developing countries associated with the food and oil price shocks in 2007 and the first half of 2008. It reviews inflation developments in a sample of countries covering all regions and a broad range of monetary and exchange rate policy regimes; discusses the underlying causes of inflation; provides a synthesis of policy responses taken against the background of the conflicting objectives and trade-offs, the uncertainties regarding the nature of the shocks, and the additional challenges brought on by the global financial turmoil; and presents considerations for policy. Foreword TAKE 2016 is a dream that came true. In about six months, a group of friends and colleagues put together in an upcoming and very dynamic university a conference with 9 streams, 3 keynotes, and 3 special sessions. 60 papers presented, 6 posters and around 80 participants from 20 countries. This is awesome! I would like to deeply thank Aveiro University, the GOVCOPP research centre, the conference committee, the keynote speakers, the special session convenors, the stream leaders, the reviewers, the authors, and the administrative people for all their work and support. I want to have two special words one for Blazenka Knezevic without whom the website would not have been possible, the other for Gaby Neumann for work in these Proceedings. Scientifically, TAKE seems to be as important and new and far reaching. We don't have shortage of models regarding the knowledge economy but we decisively lack to explore the relation between theory and practice. TAKE is a step in exploring that difference. We know that "Exact sciences find the best answers and social sciences give the best questions" (J.C. Spender) and we also know that "Knowledge Management is more preached by scholars than done by practitioners" (Aino Kianto). We assume the first idea and try to overcome the second. Hopefully TAKE 2016 will be a great success. Thank you for everything. The Kenya Gazette is an official publication of the government of the Republic of Kenya. This up-to-date fourth edition of the most important and interesting data—on a day by day basis—throughout American history includes more than 1,400 new entries with information on a wide variety of subjects—both the "important" matters (Supreme Court decisions, war events, scientific breakthroughs, etc.) and the lesser known but thought provoking incidents and phenomena (societal changes, unexpected events) that add richness and depth to American history. "Mandatory reading for anyone who cares about lesbians and gay men." Patricia A. Cain, Inez Mabie Professor of Law, Santa Clara University Everyday Law for Gays and Lesbians and Those Who Care about Them accessibly explains the myriad ways the law applies to and affects lesbian and gay lives. Written both concretely and clearly, each chapter opens with a vivid story about actual experiences of lesbians and gay men and then uses those experiences as a springboard for discussing the law. Using his personal and expert professional experience, Anthony Infanti makes complicated legal issues approachable, including marriage and its alternatives, bias crimes, the military, education, employment, housing, medical and tax planning, and parenting. Going beyond a mere summary of the law, this book provides both legal and nonlegal strategies for coping with and effecting positive change in the law as it affects the lives of lesbians and gay men. The book also contains an appendix with a list of useful resources for lesbians, gay men, and those who care about them.
