*Sales Closing For Dummies* May 26 2022 Without the close, there is no sale. Pretty obvious, right? Yet, for many salespeople, closing is the most baffling and elusive part of the selling process. All too often, salespeople meet qualified clients and charm them with an eloquent presentation, only to see the sale mysteriously slip from between their fingers in the end. Which is sad when you consider all the hard work - the prospecting, preparation, planning, and practice - done for the sake of a moment of truth that never arrives. Fortunately, closing is an art that can be mastered, and now Sales Closing For Dummies shows you how. Packed with powerful principles that can help you become a top-producing salesperson, Sales Closing For Dummies is the ultimate guide to mastering that most mysterious part of the selling equation. Tom Hopkins, the legendary sales genius who, by age 30 was the nation's leading real-estate trainer, demystifies closing and shows what it takes to be a champion closer, including how to: Lead a sale without being pushy Read the signs of an interested potential buyer Use questioning methods that close sales, time and again Help clients feel good about their buying decisions Keep your clients' business and build their loyalty Build long-term relationships and watch your sales grow With the help of dozens of real-life examples from a wide cross section of industries, Tom shows why professional selling is about communication, not coercion. And he shares his considerable insight and experience on: Verbal and visual buying cues and how to recognize them Choosing the best location for closing Addressing concerns and creating a sense of urgency Time-tested tactics and strategies for ending customer procrastination, overcoming their fear, closing from a distance, and more The ten biggest closing mistakes and how to avoid them Add-on selling and other ways of getting your clients to help you to build your business Featuring Tom's Hopkins' trademark "Red Flag" key points and situation scripts,

this fun, easy-to-understand guide arms you with the hands-on tools and techniques you'll need to become a world-class closer.

**Betraying Our Troops** Jun 14 2021 In this shocking exposé, two government fraud experts reveal how private contractors have put the lives of countless American soldiers on the line while damaging our strategic interests and our image abroad. From the shameful war profiteering of companies like Halliburton/KBR to the sinister influence that corporate lobbyists have on American foreign policy, Dina Rasor and Robert H. Bauman paint a disturbing picture. Here they give the inside story on troops forced to subsist on little food and contaminated water, on officers afraid to lodge complaints because of Halliburton's political clout, on millions of dollars in contractors' bogus claims that are funded by American taxpayers. Drawing on exclusive sources within government and the military, the authors show how money and power have conspired to undermine our fighting forces and threaten the security of our country.

*Feel-Bad Education* Aug 17 2021 Mind-opening writing on what kids need from school, from one of education’s most outspoken voices Almost no writer on schools asks us to question our fundamental assumptions about education and motivation as boldly as Alfie Kohn. The Washington Post says that “teachers and parents who encounter Kohn and his thoughts come away transfixed, ready to change their schools.” And Time magazine has called him “perhaps the country’s most outspoken critic of education’s fixation on grades [and] test scores.” Here is challenging and entertaining writing on where we should go in American education, in Alfie Kohn’s unmistakable voice. He argues in the title essay with those who think that high standards mean joylessness in the classroom. He reflects thoughtfully on the question “Why Self-Discipline Is Overrated.” And in an essay for the New York Times, which generated enormous response, he warns against the dangers of both punishing and praising children for what they do instead of parenting “unconditionally.” Whether he’s talking about school policy or the psychology of motivation, Kohn gives us wonderfully provocative—and utterly serious—food for thought. This new book will be greeted with enthusiasm by his many readers, and by teachers and parents seeking a refreshing perspective on today’s debates about kids and schools.

**Quantum Gods** Jun 02 2020 Foreword by Michael Shermer, Publisher of Skeptic Magazine and Monthly Columnist for Scientific American Stenger

confronts mainstream theologians and New Age gurus-anyone who tries to link physics to mysticism. He takes their theories seriously enough to examine them in detail and he finds that, so far, none of them live up to the standards of scientific truth. As we accompany him on his investigation, he guides us through the most important concepts in modern physics from relativity to string theory. The world has needed a book like this for a long time. If you care about scientific literacy, Quantum Gods is not optional.-GEOFF GILPIN, Author of *The Maharishi Effect: A Personal Journey Through the Movement That Transformed American Spirituality* Physics has developed a reputation of providing support for all sorts of supernatural beliefs, from old-fashioned religions to New Age ideas. Quantum physics, especially, seems to mean 'magic' for too many people. ... Be grateful for the work of Victor Stenger, who is one of the best for diligently separating real physics from popular misconceptions.... Everyone interested in debates over physics and the supernatural should read this book.-TANER EDIS, Associate Professor of Physics, Truman State University; Author of *The Ghost in the Universe and Science and Nonbelief* Does quantum mechanics show a connection between the human mind and the cosmos? Are our brains tuned into a cosmic consciousness that pervades the universe enabling us to make our own reality? Do quantum mechanics and chaos theory provide a place for God to act in the world without violating natural laws? Many popular books make such claims and argue that key developments in twentieth-century physics, such as the uncertainty principle and the butterfly effect, support the notion that God or a universal mind acts upon material reality. Physicist Victor J. Stenger examines these contentions in this carefully reasoned and incisive analysis of popular theories that seek to link spirituality to physics. Throughout the book Stenger alternates his discussions of popular spirituality with a survey of what the findings of twentieth-century physics actually mean. Thus he offers the reader a useful synopsis of contemporary religious ideas as well as basic but sophisticated physics presented in layperson's terms (without equations). Of particular interest in this book is Stenger's discussion of a new kind of deism, which proposes a God who creates a universe with many possible pathways determined by chance, but otherwise does not interfere with the physical world or the lives of humans. Although it is possible, says Stenger, to conceive of such a God who plays dice with the universe and leaves no trace of his role as prime mover, such a God is a far cry from traditional religious ideas of God and, in effect, may as well not exist. Like his bestselling book, *God: The Failed Hypothesis*, this new work presents a rigorously argued challenge to many popular notions of God and spirituality. Victor Stenger (Lafayette, CO) is adjunct professor of philosophy at the University of Colorado and emeritus professor of physics and astronomy at the University of Hawaii. He is the author of the New York Times bestseller *God: The Failed Hypothesis*, and many other books, including *Has Science Found God?*, *The Comprehensible Cosmos*, *Timeless Reality*, *The Unconscious Quantum*, and *Physics and Psychics*.

*A Purrfect Match* Apr 05 2023 When a bad day at work culminates in losing out on a promotion, Jim Sanders shifts into his animal form to let off steam. Then his bad day turns into a bad night-while prowling his Atlantic City neighborhood as a large gray house cat, he's caught in a torrential downpour. What little luck he has washes down the gutter when his new boss, Andrew Wright, catches him taking shelter on his porch, brings him

inside, and starts calling him Mr. Frosty. As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future-not with his bizarre secret-yet suddenly he finds himself navigating that minefield anyway. But not everything is easy, especially for an interracial gay couple dealing with prejudice in the workplace, at Tony's school, and even within their own families.

Glorified Fasting Apr 12 2021 "STAND FAST, AND hold the traditions which ye have been taught, whether by word, or our epistle .... Comfort your hearts; and stablish you in every good word and work .... Finally, brethren, pray for us, that the word; of the Lord may have free course, and be GLORIFIED, even as it is with you." II Thess. 2:15, 17; 3:1. FASTING, like PRAYER, is a part of the word of God. To dispute this would be as foolish as denying water is wet. Shall we "STAND FAST" on this IRREVOCABLE "TRADITION," which we have been taught in the WORD, since it is indisputably a part of the WORD of God? Let us pray that it will "have free course, AND BE GLORIFIED," in its proper place in order that JESUS may receive more glory and honor from His children. The purpose of this volume is to popularize, perhaps one of the most downtrodden of all Biblical subjects, and assist in the author's small way to reestablish this part of the Gospel, bringing it out in all its glorious aspects. We are dealing with a tremendous portion of the Word—able to open up an avenue to tremendous power and glory with JESUS for the mutual welfare of His body, and the bringing of a mighty last day revival. By the proper utilization of fasting, praying, crying and mourning for souls, and by going into the FASTING-PRAYER without a selfish motive, many pillars of the FAITH can pull together in this travail to such an extent that when tragedy, destruction, persecution, and the rest of the last-day signs approach us more closely, we will have at our disposal a most effective weapon to carry us through for the glory of Jesus. It is NOT the purpose of this book, or any of the other articles on the subject of fasting, to leave an impression that this practice is the Scriptural cure-all for spiritual, moral and bodily complaints. Emphasis is given the subject for the purpose of quickly enlightening God's people who seem to be "falling away" from the old-time faith, and to prevent the unhappy drift towards modernism that is so sweeping the land. We do not emphasize fasting for the purpose of bragging, or for such great merit that it would be boasting before our God, but we are pressing it forward with such tempo so that the children of the Bridegroom will become more quickly and fully prepared for the closing of this Holy Spirit dispensation. This work has grown to such an extent, we have had to give up the revival auditorium. The author is devoting his entire time to the work of fasting, even discontinuing most of the traveling speaking engagements, in order to assure it greater success and promotion over the world for the mutual welfare of Christendom and the Kingdom of God. To make it even easier to grasp, the author has gone to additional expense in constructing drawings, diagrams and charts for numerous cuts to bring forth quickly through the eye-gate, this precious vital truth of orthodox Christianity. May the reader be blessed by them. This was done solely for the purpose of glorifying our most lovable Jesus. In the name of Father, and of the Son, and of the Holy Ghost, we, therefore, dedicate this work to Jesus. May it bring praise and honor of Him. Revelation 22:17-21.

**Millionaire by Thirty** May 06 2023 Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

**Gene Control, Second Edition** Aug 29 2022 The new edition of Gene Control has been updated to include significant advances in the roles of the epigenome and regulatory RNAs in gene regulation. The chapter structure remains the same: the first part consists of pairs of chapters that explain the mechanisms involved and how they regulate gene expression, and the second part deals with specific biological processes (including diseases) and how they are controlled by genes. Coverage of methodology has been strengthened by the inclusion more explanation and diagrams. The significant revision and updating will allow Gene Control to continue to be of value to students, scientists and clinicians interested in the topic of gene control.
