Four vastly different girls from four different nations are united by one thing. Their spirit animals. Eight madcap tales of unpredictable dragons — including one made of ice and another that takes refuge in the General Post Office. 24 illustrations. With fuel costs and parking charges it's no wonder the consumer is looking for less expensive forms of travel. This book is aimed at the rider who wants to do his or her own basic scooter maintenance and servicing without the need for in-depth mechanical knowledge, or a technical manual. It covers areas such as oil, brakes, tyres, transmission, electrics, etc, allowing the owner to address the most regularly serviced items without forking out for additional costs. Illustrated with full colour photographs throughout, and featuring clear, easy-to-follow instructions, this book is a must-have for scooter users. DigiCat Publishing presents to you this special edition of "The Age of Shakespeare" by Algernon Charles Swinburne. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature. Lavishly illustrated throughout with photographs, 'Boas and Pythons of the World' provides comprehensive and authoritative information in a lively and accessible format - a fitting celebration of one of the most fascinating yet little-known groups in the reptile world. THE NEW DIETARY SCIENCE FOR WOMEN OVER 40 Science has revealed that most women are drawn to carbs, or "Sugar Calories," due to a biological imperative to balance hormones. The irony is that you must cut Sugar Calories to lose weight, but you must also eat Sugar Calories to balance hormones. With Happy Hormones, Slim Belly™, you will discover the newest dietary science for women over 40: Women's Carb Cycling™. It balances your hormones so you can lose up to 7 lbs. in a week, and then 2 lbs. weekly—guaranteed! Graph Theory is a branch of discrete mathematics. It has many applications to many different areas of Science and Engineering. This book provides the most up-to-date research findings and applications in Graph Theory. This book focuses on the latest research in Graph Theory. It provides recent findings that are occurring in the field, offers insights on an international and transnational levels, identifies the gaps in the results, and includes forthcoming international studies and research, along with its applications in Networking, Computer Science, Chemistry, and Biological Sciences, etc. The book is written with researchers and post graduate students in mind. This book provides practical and buildable solutions for the design of foundations for housing and other low-rise buildings, especially those on abnormal or poor ground. A wealth of expert information and advice is brought together dealing with the key aspects a designer must consider in order to achieve effective and economic foundation designs. This second edition of Structural Foundations Manual for Low-Rise Buildings has been completely updated in line with the new government

guidelines on contaminated land and brown-field sites. The book includes well-detailed design solutions and calculations, actual case histories, illustrations, design charts and check lists, making it a user-friendly reference for contractors, structural engineers, architects and students who have to deal with foundations for low-rise buildings on sites with difficult ground conditions. Demonstrating how Turkey's politics have developed, this book focuses on the causes and consequences of the failed coup d'état of 15 July 2016. The momentous event and its aftermath challenges us to ask if the coup was the cause of Turkey's present crisis, or simply an accelerant of trends already in motion, and thus a catalyst for the realization of Erdoğan's latent authoritarian impulses. Bringing together approaches from politics, sociology, history and anthropology, the chapters shed much-needed light on these crucial questions. They offer scholars and nonspecialists alike a comprehensive overview of the implications of the coup attempt and its aftermath on the issues of religion, democracy, the Kurds, the state, resistance and more besides. Its effects have been felt in almost every aspect of Turkish society from religion to politics, yet it came at a time when Turkey was already experiencing significant social and political turmoil under the increasingly authoritarian leadership of President Recep Tayyip Erdoğan. Readers interested in contemporary politics, Turkish and Middle Eastern studies will find the volume useful, as they ponder other cases in this era of democratic retrenchment and global turmoil.
