Because of an acorn, a tree grows, a bird nests, a seed becomes a flower. Enchanting die-cuts illustrate the vital connections between the layers of an ecosystem in this magical book. Wander down the forest path to learn how every tree, flower, plant, and animal connect to one another in spiraling circles of life. An acorn is just the beginning. "In 1977, the world was ready for something new," writes Savannah College of Art and Design president and founder Paula Wallace. "All around us, dreamers were dreaming up new ideas: Star Wars, The Clash, Apple. I was nearing thirty and ... wondered if I could do more." What happened next would change the face of higher education. An engaging, moving, and inspiring memoir, *The Bee and the Acorn* traces the journey of Wallace and her family to the historic Georgia coastal town of Savannah, where they set about creating a new university for the arts. The tiny college would be a radically different kind of institution, buzzing with progressive ideas about what education could be and what it should do for students. Nearly forty years later, SCAD has become one of the largest and most highly regarded arts universities in the world. Established in 1978, the Savannah College of Art and Design is a private, nonprofit, accredited university, offering more than 100 academic degree programs in 42 majors at locations in Atlanta and Savannah, Georgia; Hong Kong; Lacoste, France; and online via SCAD eLearning. SCAD enrolls more than 12,000 undergraduate and graduate students from more than 100 countries. The university's innovative curriculum is enhanced by professional-level technology, equipment, and learning resources, as well as opportunities for internships, professional certifications, and collaborative projects with corporate partners. In 2014, the prestigious Red Dot Design Rankings placed SCAD in the top ten universities in the Americas and Europe. Have you ever wondered what happens when a little acorn becomes a big oak tree? (Lincoln Journal) From Ron Jones, a teacher who started the classroom program that inspired the movie *The Wave*, comes a memoir about a life-changing summer. Ron expected that his time as a counselor at Camp Wiggin would be filled with sunny days spent hiking, swimming, and boating. But when he arrives on day one, his illusions are quickly shattered. At first, the severity of the campers' disabilities seems too much to bear. But everything changes once Ron gets to know his group—kids who call themselves "the Acorn People" because of the acorn necklaces they wear around their necks. The campers teach him that, inside, they are the same as any average kid, and with encouragement, determination, and friendship, nothing is impossible. A Thousand Forests in One Acorn: An Anthology of Spanish-Language Fiction brings together twenty-eight of the most important Spanish-language writers of the twentieth century--several of which will be familiar to English-language readers, like Carlos Fuentes, Javier Marías, and Mario Vargas Llosa, and many who will be new revelations, such as Aurora Venturini, Sergio Pitól, and Elvio Gandolfo--and provides them with a chance to discuss their careers and explain the aesthetic influences behind the pieces they chose to include in this volume. Unlike other anthologies, the stories and excerpts collected here were selected by the authors themselves and represent the "high point" of their writing career. Valerie Miles--translator, editor, and co-founder of *Granta en español*--not only curated perhaps the greatest cross-section of contemporary Spanish-language literature to be anthologized, but also brings to this collection original interviews with every author, along with biographic prefaces before each, in order to best introduce the reader to the author's entire oeuvre and his or her literary impact. Breathtaking in scope and historical detail, this anthology will no doubt become a fixture in personal literary collections, as well as a go-to resource for classrooms and libraries alike. Valerie Miles is a publisher, writer, translator, and the co-founder of *Granta en español*. She is also the co-director of *The New York Review of Books* in its Spanish translation and, in 2013, was voted one of the "Most Influential Professionals in Publishing" by the Buenos Aires Book Fair.

God's Acorn By: Gwendolyn Thomas-Sudduth. *God's Acorn* tells of the harshness of growing up in the 1960s South. How does one overcome the reality of an environment of welfare, illness, suicide, and death without becoming mentally ill? The book is a real-life illustration of author Gwendolyn Thomas-Sudduth's determination and will to survive in a jungle of chaos. *God's Acorn* shows how she overcame poverty, despite the statistics that show many welfare mothers remain receiving government stipends for life. Illness is pervasive in the welfare community due to a lack of medical services. Suicide and death typically follow those who do not have the support of family and friends during the struggle for a better life. Thomas-Sudduth takes you on an emotional roller coaster ride, running the gamut from devastating lows to exhilarating highs. Her book focuses on the influences that dominated her will to move forward despite the cards that had been dealt to her. "It's nearly 50 years ago that my book of conceptual instructions *Grapefruit* was first published. In these pages I'm picking up where I left off. After each day of sharing the instructions you should feel free to question, discuss, and/or report what your mind tells you. I'm just planting the seeds. Have fun." —Yoko Ono

Legendary avant-garde icon Yoko Ono has inspired generations of artists and performers. Throughout this beautifully designed book are 100 black-and-white line drawings by Yoko. Like this legendary woman herself, the book is wildly original, stimulating, and hard to label: Call it purposeful play, call it brain poetry, call it guided motivation, call it Zen-like incantations, call it whatever you want. Dive into these spooky stories from New York Times bestselling author Max Brallier, perfect for beginning readers! Three charming stories of Poppleton and his wonderful friends who spend a day with him at the beach and give him sound advice when he needs it most. Each WORD from God is like an acorn fallen from the oak tree. An acorn doesn't look like much, little and hard crusted! However, within this acorn lies all the DNA to become a mighty tree. In this creative endeavor, I have compiled 40 words which I feel have the power to challenge, affirm, and strengthen every seeker who is willing to travel this journey. These words are not to be read from beginning to end like any other book. Rather prayerfully ask God for which WORD you NEED. And when guided to that word, let it soak into your heart. Let it breathe within you. Live with it for awhile. I spent a whole season of Lent with the word GLORY, or a summer with the word TRUST. This resource has helped me to "crawl into the acorn" and really dwell with the word. Inside, I found a sacred place where my spirit would find quiet rest and adventure. When all else around me was confused and agitated ... here I would find peace ... and like the acorn ... I grew! May these words bring you ever closer to the ONE who created you and desires for you more than you could ever imagine! In reading the introduction to this wonderful book, I was visibly moved by the words I was reading. There is a power and a peace in opening a page of Patti's book and letting it take the reader into a quiet place. "Come with me by yourselves to a quiet place and get some rest." (Mk.6:31) This is a book that is like a well of spiritual refreshment ready for you to dive into its soothing depths at any reading. Tom Peterson, Executive Director ACTS Missions San Antonio, Tx. "Provocative . . . reveals the ability behind exciting and unexpected innovations, turnarounds, or accomplishments that were once considered impossible." —W. Warner Burke, Edward L. Thorndike Professor of Psychology and Education, Teachers College, Columbia University Appreciative Intelligence provides a new answer to what enables successful people to dream up their extraordinary and innovative ideas; why employees, partners, colleagues, investors, and other stakeholders join them on the path to their goals, and how they achieve these goals despite obstacles and challenges. It is not simple optimism. People with appreciative intelligence are realistic and action oriented—they have the ability not just to identify positive potential, but to devise a course of action to take advantage of it. Drawing on their own original research and recent discoveries in psychology and cognitive neuroscience, Thatchenkery and Metzker outline the evidence for appreciative intelligence, detail its specific characteristics, and show how you can develop this skill and use it in your own life and work. They show how the most successful leaders are able to spread appreciative intelligence throughout an organization, and they offer tools and exercises you can use to increase your own level of appreciative intelligence and so become more creative, resilient, successful, and personally fulfilled. "An inspiring and practical account of how to develop the capacity to see potential within the present and to develop this capacity within oneself and in others." —Jane E. Dutton, William Russell Kelly Professor of Business Administration and Professor of Psychology, Stephen M. Ross School of Business, University of Michigan "A compelling justification for . . . what endows successful leaders with the qualities of persistence, conviction, comfort with uncertainty, and resilience to overcome challenges." —Dr. V. Nilakant, coauthor of Change Management When Jack Brenin finds a golden acorn lying in the grass, little does he know that it is the beginning of a thrilling and magical adventure. Jack has been chosen for a hugely important task, and enters a world he believed only existed in legend. The Golden Acorn is a hugely entertaining and exciting tale for 8–11 year olds.
